## BRITISH WARSHIPS TO HALT SOVIET INTERFERENCES

## Chinese Bandits Releasing Captives

### TRAIN OPERATED BY FRENCH FELL INTO RIVER; 29 BODIES FOUND

BERLIN, May 10.—(By the Associated Press)—A telegram from Saint Goar, Rhenish Prussia, says that a train operated by the French plunged into the Rhine and that 29 bodies have so far been recovered from the water. The report is based on the statements of travelers arriving at Saint, four, who add that the French have cut off access to the scene of the accident. Saint Goar is near Bacharach.

### SACO-LOWELL PLANT THREE YANKS SURVIVE

Estimated Cost of New Addi-  
tions is \$240,000—Permits  
Applied

Representatives of Lockwood, Greene & Co., Boston architects, called at city hall this morning and filed an application for a permit for the erection of the proposed addition to the Saco-  
Lowell plant, located on the Saco  
River, which will cost in the vicinity  
of \$240,000.

Blue prints were submitted for the  
application, and the specifications state  
that the new plant will be erected at  
the junction of Dutton street and  
Broadway. It will be of reinforced ce-  
ment and brick construction, three stories  
and basement, and will have a  
footing of 400 feet and a depth of 80  
feet. The contract for the erection of  
the new plant has been awarded to  
the Abernethy Construction Co. of Bos-  
ton. The specifications and blue prints  
will be looked over by Supt. Connor  
and it is expected the permit will be  
granted.

### PERMISSION IS DENIED

Geraldine Farrar Sought to  
Strike All Allusions to Miss  
Larrimore From Records

NEW YORK, May 10.—The ap-  
pellate division of the supreme  
court today denied Geraldine Far-  
rar permission to strike from the  
records of her divorce suit against  
Lon Tollegen, all allusions to Miss  
Stella Larrimore, 19-year-old ac-  
tress, named as one of several  
co-defendants.

Miss Larrimore, who has vigor-  
ously denied charges involving her,  
recently met with success in her  
demand for a jury trial at which  
she might clear her name.

### BIG FIRE IN BILLERICA

Summer Cottages and Garage  
Destroyed by Fire at Nut-  
ting's Pond

Three summer cottages and a garage  
on the shores of Nutting's pond in South  
BillERICA were destroyed by fire early  
this morning, while two other cottages  
were badly damaged. The cause of  
the fire is unknown and Chief R. N.  
Bartlett of the BillERICA fire department  
stated this afternoon that the state  
fire marshal will be requested to con-  
duct a rigid investigation.

The blaze was discovered at 4.30  
o'clock by F. J. Dolan, whose home is  
nearby, and he sounded an alarm.  
When the firemen reached the prem-  
ises two of the cottages were burned  
to the ground, and the blaze was  
threatening a score of others. A sec-  
ond alarm was sounded by order of  
the chief and the firemen succeeded  
in checking the fire, but not until  
another camp and a garage had been  
destroyed.

Owing to the fact that the camps  
were unoccupied and that only two  
weeks ago a mysterious blaze de-  
stroyed eight summer cottages on the  
opposite side of the lake, Chief Bart-  
lett believes that both blazes were of  
incendiary origin and hence his re-  
quest for an investigation by the state  
fire marshal. The damage at today's  
fire will be in the vicinity of \$6000  
or \$7000.

Ouimet, Willing and Grant  
Win Their Matches in 4th  
Round of Tourney

DEAL, May 10.—(By the Associated  
Press)—Three Americans, one of them  
not a member of the Walker cup team,  
survived the fourth round play this  
morning and therefore entered the  
fifth round of the British amateur golf  
tournament this afternoon.

Francis Ouimet, of Boston, regarded  
as the chief American hope, retained  
his right to compete at the expense of  
his teammate, John F. Neville, of San  
Francisco, 2 up.

Dr. O. E. Willing, of Portland, Ore.,  
and Douglas Grant, American by birth  
but a long resident of England, also  
won their matches in the fourth round.  
In the fifth round Ouimet meets C.  
Brotherton, of Handsworth, and Dr.  
Willing plays Roger Wethered, the Ox-  
ford star.

Thirteen Britishers and three Amer-  
icans make up the field for the fifth  
round.

George V. Rolan, of Houston, Tex.,  
was defeated by W. L. Hope, of Turn-  
bury, 3 and 2.

Roger Wethered, Worcester, Mass., de-  
feated R. W. Crummett, of Lan-  
cashire, 2 and 1.

Douglas Grant, American resident of  
England, defeated Dr. H. D. Gillies of  
Woking, 4 up and 3 to play.

W. B. Torrance, of Edinburgh, who  
played at Southampton, L. I., in the  
Walker cup matches last year, de-  
feated his younger brother, T. A. Torrance,  
of Sandy Lodge, 4 and 2.

Cyril Tolley, Rye, defeated Captain  
G. N. C. Martin, Royal Port Rush, 1  
up.

### THE FIFTH ROUND

In the fifth round matches being  
played this afternoon, Wethered was  
1 up on Willing at the end of the first  
nine holes and Brotherton was two up  
on Ouimet.

Francis Ouimet, of Boston, defeated  
C. Brotherton, of Handsworth, by one  
hole.

Cyril Tolley, ex-British champion,  
defeated W. L. Hope, of Turnbury, by  
1 up.

Roger Wethered, the Oxford star,  
defeated Dr. O. E. Willing of Portland,  
Ore., in the fifth round, 2 up and 1 to  
play.

Miss Wethered Beaten

BURNHAM, Somersetshire, May 10.  
—Mrs. Alan Macbeth defeated Miss  
Joyce Wethered, the titleholder, in the  
semi-final today of the British women's  
open golf championship tourna-  
ment, 2 and 1.

FALL RIVER, May 10.—Announce-  
ment was made today that the Town-  
shend, Granite, Cornhill, Flint and Bar-  
nard mills will close tonight for the  
rest of the week. Included in the list  
of plants thus curtailing are several  
just adopting the plan. Others in the  
group have been previously reported as  
shutting down. It is generally believed  
that other plants will follow the lead  
set by these mills.

The cloth market has been quiet for  
several weeks and a cautious attitude  
has been assumed by buyers. Most of  
the Fall River mills have been oper-  
ating under contracts which expired  
recently, or will expire in the near  
future. It is understood that the  
manufacturers do not intend to fill  
their storehouses with finished prod-  
ucts and purchases of small lots will  
not use up the complete production.

N. Y. AND BOSTON CLEARINGS  
NEW YORK, May 10.—Exchanges,  
\$27,000,000; balances, \$71,000,000.  
BOSTON, May 10.—Exchanges, \$60,  
000,000; balances, \$28,000,000.

### HUNDREDS FLOCK TO TRAGIC SCENE

13 Identified Dead, Three  
Skeletons and Score Miss-  
ing in Oil Disaster

Explosion of Giant Gusher in  
Texas Hurlled Flame of 300  
Feet Into Air

CORSICANA, Tex., May 10.—(By  
the Associated Press) Thirteen identi-  
fied bodies, three skeletons smolder-  
ing in a grim well pit, and possibly  
a score of others to be uncovered,  
mark the tally of death wrought late  
yesterday by the explosion of the  
giant gusher of the J. K. Hughes De-  
velopment Co., (McKie No. 1 well).  
Three hundred feet of flame, ablaze  
Continued to Page Thirteen

### STREET RAILWAY MEN'S STRIKE AVERTED

The differences between the local  
carmen's union and the railway com-  
pany is well on the way to settlement.  
President Thomas Boyle of the car-  
men's union, in a statement to a Sun  
reporter today, said that Starter Mi-  
chael Donlon had been reinstated by  
the company and would resume his du-  
ties in the square next Sunday.

This matter has been the cause of  
much hard feeling between the com-  
pany and for Mr. Donlon, who dis-  
appeared 20 months ago, after an  
inter-class fight, has produced no clear  
to substantiate the numerous theories  
advanced.

As quickly as ideas have been set  
forth to account for the disappearance  
of the skeleton found under a pier, iden-  
tified as that of Mount, witnesses have  
been found or have come forward to  
testify that the bones could not have  
been under the pier in the manner de-  
tailed.

Today President Scott of the uni-  
versity and Harry P. Pearson, mayor  
of Boston, will go before the grand  
jury. The day's list of witnesses also  
includes Miss Doris Fuchs, Leighton's  
friend, reported to have received an  
unsigned note from him, which Mrs. J.  
L. Mount, the boy's mother, has re-  
ferred to as "the last letter he wrote."

IDENTITY CHECKS  
WASHINGTON, May 10.—The identi-  
fication of vouchers and checks, some  
representing payments by the govern-  
ment to the Grafton Iron Works, and  
other payments by the several Massa-  
chusetts companies to various individuals,  
occupied much of the time today at the  
Morse trial.

E. S. Hallowell, former district at-  
torney of the Emergency Fleet Corpora-  
tion at New York, and Dexter R.  
Hoad, formerly assistant treasurer of  
the Grafton Iron Works, were the wit-  
nesses.

### AMERICAN LOCOMOTIVE COMPANY DIVIDEND

NEW YORK, May 10.—Directors of  
the American Locomotive Co. today de-  
clared a quarterly dividend of \$2.50 a  
share on common stock, an increase of  
\$1 per quarter, and recommended put-  
ting the stock on a non-par basis and  
issuing two shares for every \$100 share  
now outstanding.

### IF SINCERE DE VALERA MUST SURRENDER GUN

DUBLIN, May 10.—The Free-  
man's Journal, commenting on the  
apparent collapse of the peace ne-  
gotiations, says:  
"If De Valera does not surrender  
his gun, his overture is a sham and  
an imposition. He says this is im-  
practicable. Has he lost control?  
If so, it is more obvious than ever  
that a so-called peace without the  
surrender of arms would be no  
peace and De Valera's signature  
would bind nobody."

### LEAGUE OF NATIONS NON- PARTISAN ASSOCIATION

NEW ORK, May 10.—Supreme  
Court Justice Lehman today signed  
articles of incorporation of the League  
of Nations Non-Partisan Association,  
Inc., organized recently with John H.  
Clark, former justice of the United  
States supreme court as its president.  
Purposes of the organization were  
said to be "the non-partisan cultiva-  
tion of public opinion," to induce the  
national administration to enter the  
League of Nations as soon as possible.

### NEW WITNESSES IN MOUNT CASE

CHICAGO, May 10.—Investigation of  
the supposed death of Leighton Mount,  
Northwestern university freshman, who  
disappeared 20 months ago, after an  
inter-class fight, has produced no clear  
to substantiate the numerous theories  
advanced.

As quickly as ideas have been set  
forth to account for the disappearance  
of the skeleton found under a pier, iden-  
tified as that of Mount, witnesses have  
been found or have come forward to  
testify that the bones could not have  
been under the pier in the manner de-  
tailed.

Today President Scott of the uni-  
versity and Harry P. Pearson, mayor  
of Boston, will go before the grand  
jury. The day's list of witnesses also  
includes Miss Doris Fuchs, Leighton's  
friend, reported to have received an  
unsigned note from him, which Mrs. J.  
L. Mount, the boy's mother, has re-  
ferred to as "the last letter he wrote."

IDENTITY CHECKS  
WASHINGTON, May 10.—The identi-  
fication of vouchers and checks, some  
representing payments by the govern-  
ment to the Grafton Iron Works, and  
other payments by the several Massa-  
chusetts companies to various individuals,  
occupied much of the time today at the  
Morse trial.

E. S. Hallowell, former district at-  
torney of the Emergency Fleet Corpora-  
tion at New York, and Dexter R.  
Hoad, formerly assistant treasurer of  
the Grafton Iron Works, were the wit-  
nesses.

cellar. Write B-46, Sun  
Office.

### TROOPS ORDERED TO HALT ATTACK

Chinese Troops in Pursuit of  
Bandits and Captives Are  
Recalled

U. S. Army Officers Still  
Held—Early Report An-  
nounced Their Release

SHANGHAI, May 10.—(Thursday, 5.15  
p. m.)—(By the Associated Press)—All  
foreign captives held by the Shanghai  
bandits are being released, except  
Chevalier Musso, the Italian attorney,  
according to a message from Tsao  
Chwang signed by a relief agent named  
Nell and addressed to the Asia De-  
velopment Co.

U. S. Officers Still Held

PEKING, May 10.—Major Roland  
Pinger and Robert Allen, U.S.A., are  
still held captives.

A previous report that the officers  
as well as their sons, had been re-  
leased, was superseded by the an-  
nouncement that only the boys had  
been freed.

PEKING, May 10.—(4 p. m.)—(By  
the Associated Press)—Three foreign  
legations have just received advices  
confirming reports that the two young  
sons of Major Pinger and Major Allen,  
captured by the Suichow bandits, have  
been released.

The two boys now are on their way  
from the bandit fortress in the hills  
of Linching to Tsinan.

Miss Aldrich in Hospital

PEKING, May 10.—(By the Asso-  
ciated Press)—Miss Lucy Aldrich, sis-  
ter-in-law of John D. Rockefeller, Jr.,  
and her companion, Miss Minnie Mc-  
Fadden, who were captured by the  
Chinese bandits and later re-  
leased, are now in hospital.

### BODY NOT THAT OF DRY AGENT LAWSON

PROVIDENCE, R. I., May 10.—While  
police officials are certain that the  
body of a man found on the  
rocks near Narragansett Pier is not  
that of John F. Lawson, Jr., of Rox-  
bury, Mass., assistant prohibition  
agent, they believe the autopsy es-  
tablishes the fact that the man was  
murdered. A vendetta between rum-  
runners is suspected. Leading official  
enforcement of the result of the  
autopsy, police investigation is at a  
standstill, according to Chief Frank J.  
Smith of Narragansett Pier. Three  
physicians who conducted the autopsy  
reported the man's head had been  
crushed in with a heavy instrument  
and said that there was no water in  
the lungs.

### AWAIT LIQUOR RULING FROM SUPREME COURT

WASHINGTON, May 10.—On the as-  
sumption that the decision of Federal  
Judge Knox in New York declaring  
void the limitation imposed on phy-  
sician prescriptions of liquor, will  
not become effective until after re-  
view by the supreme court prohibition  
headquarters announced today that no  
changes in the present regulations re-  
lating to permits in the New York  
district will be put into effect until  
the highest court has acted.

### BRITISH WARSHIP TO USE FORCE IF NECESSARY AGAINST SOVIET

LONDON, May 10.—(By the Associated Press)—The British  
warship Harebell has been ordered to the Murman coast to prevent fur-  
ther soviet interference with British vessels outside the three mile limit,  
and use force, if necessary in performing this mission, the house of  
commons was informed today by the under-secretary for foreign affairs,  
Ronald McNeill.

### Carmen and Officials Agree on Plan

BOSTON, May 10.—The general conference board of the union em-  
ployes of the Eastern Massachusetts Street Railway Co., and officials of  
the company, at a conference here today, reached what was understood  
to be a virtual agreement on the basis of arbitrating their differences.  
The demand of the union for a wage increase of about 35 per cent will  
go to arbitration. Other proposals by the union and by the company  
may, or may not, be further considered, it was reported, but there were  
indications that each side would let their case rest with the wage issue.  
A further conference was arranged for this afternoon.

### MRS. HAYES TO ENTER PLEA OF NOT GUILTY

NEW YORK, May 10.—Mrs.  
Myrtle E. Hayes of Boston, in-  
dicted yesterday on a charge of  
having forged the name of Charles  
M. Schwab to a \$25,000 note in  
connection with a deal for con-  
struction of the Hotel Chatham in  
Brookline, Mass., today signified  
her intention of pleading not guilty.  
Although the indictment mentioned  
only one note, the woman promoter  
was said by the district attorney's  
office to have been accused of  
negotiating 16 others involving  
\$325,000 and bearing the forged  
signature of the ironmaster.

George Gordon Rattle, defense  
counsel, reserved a week in which  
to make the necessary motions, and  
Judge Nott in general sessions  
postponed the formal pleading un-  
til that time.

Mrs. Hayes said she was de-  
sirous of making a statement, but  
that her attorney advised her  
not to.

### BRICKLAYERS TO GET \$1.25 AN HOUR

FITCHBURG, May 10.—Contra-  
ctors decided to grant the demands  
of bricklayers for a wage increase  
from \$1.10 to \$1.25 an hour yes-  
terday, after a conference between  
Walter A. Wiley of Wiley & Fox  
and George Thornton, vice presi-  
dent of the International Union  
of Bricklayers, Local 10, here.  
Two contracting concerns, C. H.  
Cunningham and Son of Lynn,  
builders of the new B. F. Brown  
Jr., high school, and George A.  
Fletcher and Co., had previously  
granted union demands.

Portuguese laborers, have been  
imported from Providence to take  
the place of bricklayers' helpers  
who are on strike after a demand  
for an increase from 85 to 87  
cents an hour. Two concerns have  
granted that increase but the other  
contractors are standing firm in  
their refusal.

### SUGAR REFINERS SUMMONED

OTTAWA, May 10.—The agricultural  
committee of the house of commons to-  
day summoned the heads of five large  
Canadian sugar refineries to appear  
next Tuesday to testify as to the cause  
of high prices.

### SEVERE ICE CONDITIONS Vessels Surrounded by Ice as Far as Eye Can See Off Cape Breton

BOSTON, May 10.—Ice fields are so  
heavy and so close to the mouth of  
the Gulf of St. Lawrence that several  
steamers are held fast there, and ves-  
sel after vessel reported today that  
they were surrounded by ice as far as  
the eye could see. The steamer  
Denax said she had been held fast  
since noon yesterday. The Oxonian  
said she was surrounded on all sides.  
The Atlantic, giving her position as 13  
miles south of St. Paul's island, re-  
ported she was unable to move  
through the ice mass. The Montcalm,  
also in the vicinity of St. Paul's, said  
she was beset by ice in all directions.  
The Donat, the Donatella, the Marvale,  
Virginia and Atensia, were other ves-  
sels reporting ice conditions, all  
severe.

These vessels all appeared to be in  
the gulf, or off the Cape Breton shore.  
The coast guard cutters patrolling the  
transatlantic lanes in the vicinity of  
the grand banks have made no report  
since Sunday, when a heavy fog was  
reported, and it was believed here that  
they had no serious conditions to re-  
port.

### MAY BLIZZARD BRINGS SNOW, SLEET AND COLD

CLEVELAND, May 10.—More gas was  
used here yesterday than during the  
coldest day of the winter, gas com-  
pany officials reported today, because  
of the unusually dry blizzard weather  
which brought snow, sleet and cold.

GLOVERSVILLE, N. Y., May 10.—  
Glover and Johnson and all  
parts of Fulton and Hamilton coun-  
ties were covered with snow this  
morning.

NEW YORK, May 10.—Warning  
against a frost tonight which might  
damage early crops in the vicinity of  
New York was issued today by the  
weather bureau. Warmer weather was  
predicted for tomorrow.

PITTSBURGH, May 10.—Mountains  
in this vicinity are snowed as the  
result of a heavy fall of snow  
during the night. The mercury regis-  
tered as low as 10. There was such a  
heavy hail storm at Fontenoy lake  
this morning that the water could not  
be seen from a distance of 40 feet.  
Snow fell at various times this morn-  
ing.

### DENIES ORDERING SEARCH BE STOPPED

CHICAGO, May 10.—President Wal-  
ter Dill Scott of Northwestern uni-  
versity today told the grand jury in-  
vestigating the disappearance and  
death of Leighton Mount, a North-  
western student, that he had not told  
student investigators to drop the  
search for Mount, who disappeared  
following the September, 1921, class  
rush.  
J. Allan Mills, a brother of the fresh-  
man in the class rush, had testified  
that the university head had suggest-  
ed that the search be discontinued af-  
ter several days of fruitless inquiry.

MIAMI, Fla., May 10.—John J. Walsh, 49, of Indianapolis, Ind., who served as a federal conciliator during the world war in the adjustment of labor differences, died here today of heart trouble.

## Unfilled Orders of Steel

NEW YORK, May 10.—Unfilled orders of the U. S. Steel Corporation on April 30, made public today, totalled 7,288,500 tons, a decrease of 114,823 tons under those at the end of the preceding month.

## Violation of the "Blue Sky" Laws

BOSTON, May 10.—The public utilities commission today cancelled the brokerage registration of the United Realty & Construction Service, Inc., of Lawrence, on the ground that its conduct of a brokerage business constituted a violation of the "blue sky" laws.

## DEATHS

**GELINAS**—Mrs. Josephine (Lajoie) Gelinas, widow of Emilio Gelinas, died last night at her home, 770 Moody street, aged 68 years. She was a resident of Lowell for the past 32 years, and was well known in the Pawtucket-Stillville section where she had resided for many years. She leaves three daughters, Rose Sister Gelinas of the Sisters of Providence of Montreal, Mrs. Sylvie Garon of Lowell and Miss Alice Gelinas, also of this city; two sons, Henri Gelinas of Lowell and Hector Gelinas of Newmarket, N. H.; three sisters, Mrs. Edward Gosselin of Montreal, Mrs. Maxima Bollenbom of Wild Rice, N. D., and Mrs. Jeanne Brunelle of Fargo, N. D., and one brother, Hector Lajoie of Fargo, N. D. She was a member of St. Anne's sodality of St. Jean d'Arc church.

**KEYES**—John A. Keyes died yesterday at Sumner Lake, N. Y. Deceased had been ill for about a year. As a boy he attended St. Patrick's school and later graduated from the Lowell high school. For the past 12 years he had been connected with the Garden City hotel in New York city. He leaves his wife, Alice Keyes of Sumner Lake, N. Y.; his mother, Mrs. Winnifred Keyes of Lowell; a brother, Henry Keyes of this city, and two sisters, Mrs. Thomas Keyes of Providence, R. I., and Mrs. Thomas Sheehy of Lowell. The body will be brought to Lowell and taken to the home of his sister at 21 Edison st.

**DERABRATMANIAN**—Lavin Derabratmanian, a student of the Colburn school died this morning at St. John's hospital, age 14 years. Deceased was playing baseball with schoolmates when in some manner received a injury to his leg. Boy-like he refrained from informing his parents of the injury until too late. He is survived by his parents whose home is at 53 Lawrence street, two sisters and two brothers. His body was taken to the funeral home of Undertakers James F. O'Donnell & Sons.

**EMERY**—George S. Emery died Tuesday in Bethel, Vt., aged 69 years, 9 months and 16 days. He is survived by his wife, Dorcas A. Emery; two daughters, Mrs. M. A. Leland of Bath, Vt., and Mrs. F. H. Winslow of Ocean Park, Calif.; and four sisters, one brother and eight grandchildren. Mr. Emery was a past commander of Admiral Farragut camp, 78, Sons of Veterans, of this city.

**POMERLEAU**—Georgianna (Durand) Pomerleau, wife of Albert Pomerleau died last night at the home of Miss Marie Duquette, 28 Salem street, aged 83 years. Besides her husband she leaves three brothers, Arthur, Irene and Edward Durand, all of Canada. The body was taken to her home, 131 Colburn street, by Undertakers Napoleon Bidoulet and Son.

**HIGSON**—Joseph Higson, a resident of North Billerica for many years, died last night at Northboro, aged 78 years. He leaves two daughters, Mrs. M. H. Warner of North Billerica and Mrs. Arthur Switzer of North Billerica, and two sons, Joseph Higson, Jr. of North Billerica and Charles Higson of Denver, Col. The body will be brought to the home of his daughter in North Billerica.

**GOMES**—Manuel Gomes, son of Mr. and Mrs. John Gomes, died yesterday at the home of his parents, 21 Bradford street, aged 1 year, 8 months and 1 day.

## FUNERAL NOTICES

**GELINAS**—The funeral of Mrs. Josephine (Lajoie) Gelinas will take place Saturday morning at 8 o'clock from her home, 770 Moody street. Solemn high funeral mass will be sung in St. Jeanne d'Arc church at 8 o'clock. Friends are invited to attend. Burial will be in the family lot in St. Joseph's cemetery. Arrangements in charge of Funeral Director Joseph Albert.

## FUNERALS

**MEDINA**—The funeral of John Davis Medina took place this morning at 8 o'clock from his late home, 9 Cherry street, and was largely attended by sorrowing relatives and friends. The funeral cortege proceeded to St. Anthony's church where, at 9 o'clock, a high mass was sung by Rev. John Perry. The choir, under the direction of Miss Marie O'Donnell sang the Gregorian chant. The casket being sustained by Mrs. Evelyn Donnelly, Mrs. Nana Gallagher, Mrs. Rose Ramos, Mrs. Williams and Charles Panton. Miss Marie O'Donnell presided at the organ. There was a profusion of beautiful floral offerings. The following delegation represented the Lowell Aerie No. 251 Fraternal Order of Eagles and also acted as bearers: Walter C. Osgood, Fred Laraway, George Lunderville and Antonio C. Picasso. Burial took place in St. Patrick's cemetery. The funeral arrangements were in charge of Undertakers M. H. McDonough Sons.

**PEARSON**—The funeral of John Pearson took place yesterday from Saunders funeral home, 217 Appleton street. Services were conducted at the grave in the Edson cemetery by Rev. P. E. Nordgren, pastor of the Swedish Lutheran church. The funeral arrangements were in charge of Undertaker William H. Saunders.

## CARD OF THANKS

We, the undersigned, wish to thank our relatives, friends and neighbors, who by their acts of kindness, words of sympathy, offerings of floral tributes and spiritual assistance helped to lighten our sorrow in the death of our wife, daughter and sister, Loretta Dawson Vesey. To each and every one we are deeply grateful and will ever remember their kindness.

MR. FRANK L. VESEY  
and Family.  
MR. AND MRS. JOHN JANSON  
and Family.

## WILL ATTEND FUNERAL

The following delegation of city councilors, headed by Mayor Donovan, will officially represent the city at the funeral of Miss Sarah Cosgrove, a sister of Councilor Cosgrove, which will take place tomorrow morning at 7:30 o'clock from her home, 492 Gorham street. Chairman James J. Gallagher, John W. Daly, Frank K. Scramis, Fred A. Sadler and Arthur Genest.

**BRINGS SUIT AGAINST CITY**  
Lena McDonald, residing at rear of 712 Gorham street, has brought suit against the city in the sum of \$4000 for damages for alleged personal injuries sustained in a fall on the John street crossing March 31. The writ is returnable at the superior court on the first Monday in June.

**Troops Ordered to Halt Attack**  
Continued  
Lensed, arrived here early today and were taken to a hospital in ambulances. Physicians prescribed quiet for them for a few days, and thus they declined to relate their experiences.

**Protest Bandit Outrages**  
TIENTSIN, May 10. (By the Associated Press.) Both the British and French chambers of commerce last night passed resolutions of protest against the bandit outrages. It is understood that the American chamber of commerce which meets today will take similar action.

**The Great War Veterans' association,** a British organization, adopted a resolution condemning the bandit outrages and demanding that armed foreign guards be carried on all express trains.

**Measures to End Banditry**  
SHANGHAI, May 10. (By the Associated Press.) The Shanghai rotary club has called headquarters of the International Association of Rotary clubs in Chicago asking it to broadcast an appeal to the 1300 rotary clubs to demand that the foreign government insure the protection of life and property in China and put into effect measures making banditry impossible.

**Unit Attack on Bandits**  
WASHINGTON, May 10.—The attack by Chinese troops on the bandits who captured Americans and other foreigners and wrecked the Shanghai-Peking express train in Shanghai, has been ordered stopped by the Peking government.  
State department advises today from the American legation at Peking said the Peking authorities had ordered the Chinese troops to "desist from measures against bandits" and adopt "peaceful means" which would insure the liberation of the prisoners without injury.

**Compared With Hovey Uprising**  
TOKIO, May 10. (By the Associated Press.)—The Japanese newspaper Jiji compared the Chinese bandit outrage on the Shanghai border with the Hovey uprising and says it may necessitate stationing foreign troops in the principal centers of China.  
Though Japan has not suffered in the present instance, she cannot remain indifferent, because of her close connections in China, adds the paper.

KIDNAPPED BOY ADOPTS DOG

Verner Alexanderson, six, of Schenectady, N. Y., photographed shortly after he was found after being kidnapped. He has adopted the dog, shown here, which his abductors gave him to keep him quiet. Mrs. H. D. Grenell, 67, of Alexandria Bay, N. Y., shown here, says she was hired by the kidnapers as housekeeper for the boy but did not know the boy had been kidnapped.

## CHANGE OF LIFE LOSES TERRORS

For Women Who Rely upon  
Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 65 Union St., Greenville, Pa.

## SUMMARY OF EARLY MORNING A. P. NEWS

Albert Schlegelberger is convicted of sabotage by French court-martial at Dusseldorf and is sentenced to death. The first death penalty for sabotage since French entered the Ruhr, Dusseldorf advisers say.

J. Ramsay MacDonald, leader of British labor party in house of commons, has declined a privy councillorship, London report asserts.

Correspondence read in the Dal Edeana courtrooms impression that negotiated peace between Free State and republicans is impossible, at this time.

At least 12 men are killed in oil well explosion near Corsicana, Tex.

New York Episcopalians with Bishop Manning's counsel, adopt resolution asking Gov. Smith to avoid signing bill repealing state prohibition law.

Railroad shomen on several roads are demanding wage increases for an hourly rate of 90 cents instead of 75 cents, proposed advances involving at least \$50,000,000, the New York Herald declares.

New York Telephone Co. announces that work of \$11,000,000 new home will be postponed because of high building costs and \$25,000,000 in new construction in New York has been already halted this month, building trades employers declare.

## GIRL SCOUTS HOLD MOTHERS' NIGHT

A "Mother's night" was conducted Tuesday night by the members of Troop 6, Girl Scouts, the affair being in charge of Capt. Grace P. Stokham and Lieut. Ellen McLeod. The affair was largely attended and proved very enjoyable. The program was as follows: Regular Scout opening by Troop 6; violin selections, Miss Doris Ranger, accompanied by Corporal R. Heaney; sketch, Patrol Leaders Swannick and Miller; Corporals Stansfield and Heaney; Scouts Wyatt and Ringer; vocal selections, Patrol Leader Swannick. There were also the presentation of "Carmen" demonstration of Scout laws, Troop 6, assisted by Mrs. Swannick. There were also the presentation of second class badges to Scouts Swannick, Miller, Heaney, Stansfield, Wyatt, Falcon and Ringer, the presentation being made by Miss Marlon M. Bill, commissioner of Lowell Girl Scouts. The latter was presented a bouquet of flowers by Patrol Leader Swannick as a mark of appreciation from the troop. At the close of the evening a social hour was enjoyed during which refreshments were served.

## FRATERNAL NEWS

Dictator Elmer G. Willey occupied the chair at last evening's meeting of Lowell lodge, 618, Loyal order of Moose, which was held in Odd Fellows building, Middlesex street. Several applications for membership were received and it was announced that plans for the big class initiation to be held May 23, were completed. It was stated that the 12th anniversary of the organization will be observed with a free concert and dance in Associate hall on the evening of May 17, and the following officers have been chosen for the event: Edward Goodson, general manager; Edgar S. Malloux, assistant; William Booth, floor director; Henry J. Fanlan, assistant; Arthur H. Marble and Leo Cryan, chief aids.

Vice-President John Davies presided over the regular meeting of Lowell command, British Great War Veterans of America, which was held Tuesday in the Free church. The invitation of the Grand Army to participate in the Memorial day exercises was accepted and the following committees were appointed for the day: Comrades Chase, Dawson and Robinson, graves; Comrades Chase and Jamison, flag bearers; Comrades Fairburn and Robinson, color bearers; Comrade Smith, aid to the chief marshal; Sergt. Major Dawson, officer in charge of parade. Routine business was transacted and at the close of the business session a social hour was enjoyed.

## BILLIARD CHAMPION MAY ISSUE CHALLENGE

By N. E. A. Service  
SPOKANE, Wash., May 9—Imagining a champion of the ring proposing a match with a logical contender on a winner-take-all basis.

Yet this is exactly what Ralph Greenleaf, youthful pocket billiard champ, proposes to do when he recovers from the effects of the strenuous tour of the Pacific coast, which he has just completed. Reputed oris of Frank Taberski, former pocket billiard champion, for a match are bearing fruit.

Greenleaf says he will make Taberski a proposition to play under practically any terms Taberski demands, save only that the play be on a winner-take-all basis.

Taberski is sincere, this winner-take-all proposition will interest him," says Greenleaf. "If he is merely talking, he will never let me know. I have ignored all previous attempts to bring about a meeting between us, and I will ignore him henceforth."

Greenleaf entertained hopes for a time this spring that he would be given the opportunity to settle the war from Schenectady, when Charles Kline of the Strand Billiard academy, New York, offered \$5000 for a 500-point match, the purse to be split any way the contestants desired. Greenleaf immediately accepted, but Taberski demurred, the champ says.

Will Make Offer  
When Greenleaf puts the proposition this time, it will be up to Taberski to accept or "forever hold his peace," the former thinks.

# FRIDAY THE TREASURES OF WOMEN'S FINE APPAREL ASSEMBLED

FOR OUR ANNIVERSARY SALE WILL BE OPENED TO THE PUBLIC

It Will Be a Great and Useful Event—The Greatest We Ever Held in All Our 15 Years of Business.

THE UNITED CLOAK & SUIT CO. has come to have a definite good meaning to Lowell—A living, breathing institution, as the late Elbert Hubbard would say: "THE STORE WITH A SOUL"—with an object infinitely more significant than mere mercenary gain. The retrospection is gratifying. We find the original aims and ideals of this store the same today as at the beginning. Every day in every way we are getting nearer, drawing closer to our goal—Doing more—Giving more—Serving more. A most eminent and acknowledged fact is

THE UNITED CLOAK & SUIT CO. is actually UNDERSELLING the city with DEPENDABLE GARMENTS—That's why this store is sweeping ahead by leaps and bounds. Progressing every year, we have worked harder to make the realization come closer to our ideals—Building business—with WORTH-WHILE goods—SELLING AT EXTREMELY LOW PRICES—Friend making, rather than profit making is our main object of this great sale, and that means—THE GREATEST SELLING EVENT in the history of this store.  
HARRY BASS.

AGGRESSIVE! ALIVE WITH THE RESPONSIBILITY OF SERVING LOWELL BETTER!

PLAYS LEADING ROLE IN  
"THE WITCHING HOUR"

Miss Hilda Noonan, very prominent in Lowell, especially in connection with amateur theatricals, is playing a leading role in "The Witching Hour," to be presented by the Lowell Knights of Columbus in the Opera House, on Monday evening, May 21.

Miss Noonan played with the Lowell Opera House stock company in the "Parish Priest," recently, and received high commendation for her dramatics.

In "The Witching Hour" she plays Mrs. Helen Whipple, the mother of Clay Whipple, who accidentally murders a man and is sentenced to death. The interpretation of a mother's anguish and anxiety while her boy is being tried for murder, the joy of his

acquittal through her pleadings and ingenuity will be admirably portrayed by Miss Noonan. Then, besides the demonstration of a mother's love, Mrs. Whipple must also present an inward love and yearning throughout all her trouble for one Jack Brookfield, the leading man of the play, who will be William Thornton of the Lowell school department, from whom she had been unfortunately separated by an ill-matched marriage earlier in life. All in all she has many emotions and characteristics of a woman going through a critical time in her life to dramatize.

"The Witching Hour" is a four-act drama which has had a very cordial and enthusiastic reception on the stage, not only in this country but in Europe, written by Augustus Thomas. As presented by the Lowell Knights it will be according to the original production in the Hackitt theatre, New York, in 1907.

## R. R. Shopmen Demand Wage Increase

NEW YORK, May 10.—Wage increase demands by union shopmen aggregating about \$50,000,000 annually have been presented to three big roads through the railway employees department of the American Federation of Labor, preparatory to taking the case before the United States Railroad Labor board, the New York Herald said today. The roads affected are the Pittsburgh & Lake Erie, Baltimore & Ohio and New York Central. The employees have asked for an increase of 20 cents an hour, from 70 to 90 cents, "for all machinists, boilermakers, blacksmiths, electricians, sheet metal workers and carmen." For helpers in the included trades, a new minimum of 67 cents an hour was asked.

## Soviet Yields to Japan, Rupture Averted

TOKIO, May 10.—(By the Associated Press)—Permission of Japanese fishermen to operate in Siberian waters, denial of which by the soviet government threatened to cause a rupture with Tokio, has been granted, according to an extra edition of the Asahi today. Moscow is reported to have acceded to the personal appeal of A. A. Joffe, the soviet envoy who is in Tokio. It is understood that the passports of Japanese fishermen would be vised for Siberia.

## Freckles

Don't Hide Them With A Vell! Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee. Adv.

## Mantle of Snow Covers Buffalo

BUFFALO, N. Y., May 10.—This city awoke today to find a mantle of snow about an inch deep on the ground and the temperature at freezing point.

## Artist Completes New Portrait of Harding

WASHINGTON, May 10.—A new portrait of President Harding just completed by Howard Chandler Christy, was placed on exhibition today at the Corecoran Gallery of Art. The portrait is to be placed on the reconitioned steamship Leviathan.

WHAT A PITY!

It isn't a cloudburst. It's a flood of booze. Hundreds of Los Angeles citizens sadly looked on as county officials poured more than 5000 gallons of confiscated liquor into the sewer.

### Says Captives Having Wonderful Time

SHANGHAI, May 10.—(By the Associated Press)—All the foreign captives held by the Suchow bandits are well, having a wonderful time and expect to be released soon, according to written messages received from four of them by relief workers near Linching, which were relayed here tonight.

### Approve Issue of \$3,000,000 Capital Stock

BOSTON, May 10.—The state department of public utilities today approved an additional issue of \$3,000,000 capital stock of the New England Power Co., to be used in extensions of its plant and business in connection with its construction of a storage reservoir at Withingham, Vt., and a 75-mile power transmission line to Millbury, Mass.

### HELD IN CONNECTION WITH PAYROLL HOLDUP

FRAMINGHAM, May 10.—A young man giving the name of Jack Stearns of Howard street, New London, Conn., was arrested on the Worcester road in this city today on suspicion of being one of three men who earlier in the day held up the paymaster of the state hospital at Westboro and robbed him of \$2000. The men left the scene of the robbery in an automobile and members of the state police patrol are searching for the other two.

lies with the description of one of the men concerned in it. No money was found on his person.

Took \$2000 and Fled  
BOSTON, May 10.—Details of the robbery of the paymaster at the state hospital at Westboro this forenoon were telephoned by officials to Dr. George M. Kline, state commissioner of mental diseases. Dr. Kline said he had been informed that two men entered the paymaster's office and one of them, who had worked for a time as an attendant at the hospital in February last, asked Miss Carrie Nelson, the paymaster, if there was any mail for him.

arrested by Sergeant Joseph O'Connor, the constabulary officer who recently shot and killed the bandit, Webster Grant. Capt. George H. Parker, of the state constabulary, received word later that shortly after the robbery, two men had stopped a man driving an automobile in Westboro, placed in his hands some pay envelopes later identified as part of those stolen, ordered him out of the car and jumped in and drove off in the direction of Boston.

The man who had worked at the hospital gave his name at that time as John Shirley of Nogales, Ariz.

### Progress in Austrian Loan Conference

PARIS, May 10.—(By the Associated Press)—Progress was reported today in connection with the Austrian loan conferences which have been held here since Monday between Thomas W. Lamont of J. P. Morgan & Co., and an Austrian commission of three. It is proposed to negotiate a loan for Austria by June 1, of £27,000,000 to mature in 20 years. A further conference was arranged for this afternoon.

### Two Americans Remain in Running

DEAL, England, May 10.—(By the Associated Press)—Two Americans remained in the running for the British amateur golf championship at the completion of the fifth round this afternoon. They are Francis Ouimet of Boston, former American champion, and winner of the St. George's challenge cup and Douglas Grant, American-born but for some years a resident of London.

## A New Name DAIRYLEA

A new label but  
no other change

THE name of Dairymen's League Evaporated Milk has been changed to Dairylea. The milk itself remains the same—the richer, creamier evaporated milk.

The new simplified name, Dairylea, is easier to say, easier to write, easier to remember.

The new label is brighter, more attractive on the shelf in the store and in your pantry.

### A surface change

But inside are exactly the same purity and richness that you have been getting when you bought Dairymen's League Evaporated Milk. If you haven't known this creamier milk under its old name, meet it now as Dairylea.

You will find that it is a richer, thicker, better evaporated milk. You will like its creamy color, its creamy smoothness, its creamy flavor.

Ask your grocer today for one or two cans of Dairylea and convince yourself.

## DAIRYMEN'S League

## After Every Meal WRIGLEYS

"A bite to eat—a bit of sweet"

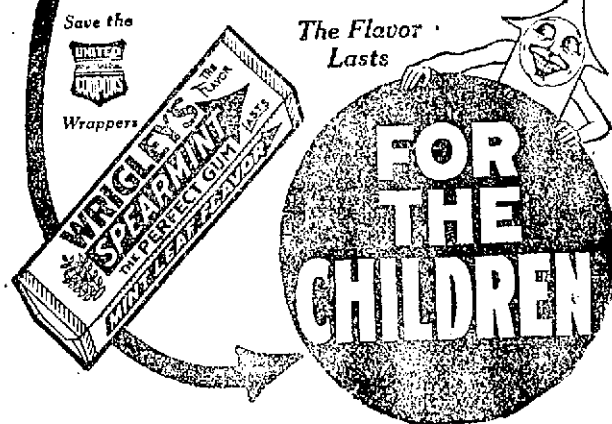

After a substantial meal, the children naturally want to top off with a bit of sweet.

Give them WRIGLEY'S, the great American Sweetmeat.

It combines the enjoyment of sweet with many BENEFITS. It cleanses the teeth, removing food particles that lodge in the crevices. It neutralizes the acids of the mouth, soothes the throat, and lastly—

WRIGLEY'S helps the stomach by supplying saliva to aid in digestive work.

Made clean, kept clean, sealed tight in a wax-wrapped package.

You Never "Gamble" with

## SCRUB-NOT

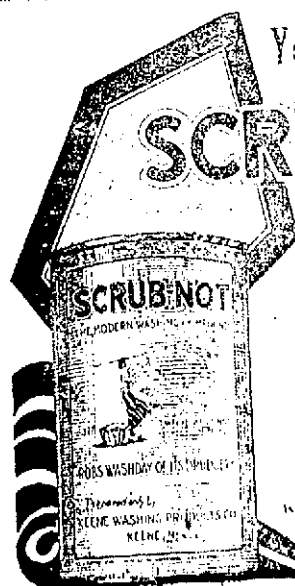

The Modern  
Washing Compound

ACTUAL test shows that this scrub less when washed with SCRUB-NOT than when washed with soap alone—and scrubbing is entirely done away with.

Cleans Glass, Dishes, Tiles, and Paint

Your grocer has SCRUB-NOT. It's blue and white and enough for twelve washings.

KEENE WASHING PRODUCTS CO.  
Worcester, Mass.

## BRUTALITIES IN CAMP

Investigating Committee to Decide Whether to Call Additional Witnesses

TALLAHASSEE, Fla., May 10.—The joint legislative committee investigating the alleged brutal treatment of prisoners in the private lease camp operated by Senator T. J. Knabb, convened today to decide whether to call additional witnesses.

Great surprise was expressed in legislative circles when it became known yesterday that the committee was considering ending the investigation.

Senator John P. Stokes, chairman of the committee, declared that the committee had reached the crest of its authority, having recommended the abolition of the lease system and corporal punishment, the dismissal of certain county officers, expulsion of one doctor from the Florida medical fraternity and the discharge of a prison supervisor. He contended that no further good could be accomplished by going any further into the investigation of the Knabb case.

There is some talk of seeking to expel Senator Knabb from the state legislature. Senator W. H. Manoles, in discussing that, declared "if no evidence is brought forward to contradict the story by Mrs. Franklin—and no one has yet been produced to contradict it—I do not see how the senate can fail to vote for Mr. Knabb's expulsion." He declared his intention of voting for Senator Knabb's expulsion if the testimony of Mrs. Franklin is not contraverted. Mrs. Franklin told of numerous deaths in the Knabb camp.

Senator Knabb declared yesterday that he was in no position to present a statement showing his side of the case.

## GERMAN WORKERS ACT

Ready to Collaborate in Payment of Reparations "to Limit of Possibility"

BERLIN, May 10.—The executive council of the German trade unions have issued a manifesto proclaiming the readiness of the German workers to collaborate in the payment of reparations "to the limits of possibility," but asserting that passive resistance will continue in the Ruhr as long as the "illegal" state of affairs exists there.

As a protest against the sentences of the Weimar court martial, the Essen local trade unions committee has appealed for a complete cessation of work tomorrow, requesting that shops and restaurants close and that all street traffic be suspended.

## To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

Take Organic Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent to the organic iron content in eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially pre-digested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.—Adv.

**NUXATED IRON**  
For Red Blood, Strength and Endurance

## Do Your Feet Hurt?

When shoes pinch or corns and bunions ache, get a package of Allen's Foot-Powder, the antiseptic, healing powder to be shaken into the shoes. It takes the sting out of corns, bunions and callouses, and gives instant relief to smarting, itching, swollen feet. At night when your feet ache and burn from walking or dancing sprinkle some Allen's Foot-Powder in the foot-bath and you will solve your foot troubles. Over 1,500,000 pounds of powder for the feet were used by our Army and Navy during the war. Sold everywhere. Trial package and a Foot-Powder Walking Ball sent free. Address Allen's Foot-Powder, Kelley, N. Y.—Adv.

## A DULL PAIN IN THE BACK

This Lowell Woman Tells How She Found Relief by Building Up Her Blood

"I had a steady, dull aching pain in the small of my back all of the time," says Mrs. E. Grady of No. 44 Elm st., Lowell, Mass., "and no liniments helped it at all. Whenever I would get up from a sitting position the pain would be terrible. I had a pain in the left side and the left leg also. My stomach was disordered and I was troubled with gas and had smothering spells."

"I got a package of Dr. Williams' Pink Pills at the drug store and soon noticed that they were benefiting me. The pains left me and my general health was better. I took four boxes and am feeling good now. The pills also helped my stomach trouble. I have great faith in them and have recommended them to my friends. My niece has also taken them with benefit."

The blood goes to practically every part of the body and if it is rich and red it carries health and strength to every organ. The digestion is toned up, the nerves are strengthened and aching muscles are made strong. Dr. Williams' Pink Pills are especially useful to run-down women who worry about their daily tasks and duties.

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are for this reason an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after-effects of the grip and fevers. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

"Building Up the Blood" is a booklet full of useful information. Every mother and every growing girl should have one. It is sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 60 cents per box.—Adv.

## MISSING WARD-PETERS WITNESS FOUND

NEW YORK, May 10.—Albert Stewart, a war veteran, wanted as a witness in the state's inquiry into the slaying of Clarence Peters by Walter S. Ward last May, has been located. It was announced today at the office here of the attorney general.

Stewart, who had been out of town, read in the newspapers that he was being sought and communicated with authorities.

He was one of the three men stalled in an automobile near the scene of the shooting on Kensico reservoir road. The trio previously said they had heard no pistol shots. He will be called during the day.

## MUSIC AND PRESENT DAY EDUCATION

Miss Grace C. Pierce, supervisor of music in the Arlington schools, talking to the students of the State Normal school yesterday afternoon, explained the position of music in the curriculum of the schools of today. Miss Pierce's lecture was the last of a series of six spring lectures on the general theme, "Adapting the Curriculum to Changing Social Needs," and her particular topic was, "The Place of Music in Present-Day Education."

Miss Lucie Field Dannon, supervisor of music at the Normal school, introduced Miss Pierce to the students, and the student body itself furnished one of the most attractive features ever put on at the school when, at the close of the lecture, they sang that old Southern melody, "Swing Low, Sweet Chariot," with Miss Edna Lawrence sustaining the solo. This song alone exemplified the importance of music education in the schools.

Miss Pierce explained the method by which she taught music and its appreciation in the Arlington schools and showed a number of drawings and read several poems that had been submitted by pupils in a prize contest. Several of these, compiled and edited by the pupils, are to be published. She also explained how she taught the lives of the composers of the selections she taught and matters pertaining to the land, politically, historically and geographically, from which these writers came.

She dismissed the idea immediately that singing was to be taught by merely singing a few songs, and she criticized the old method of teaching singing by which a pupil learned nothing but the words and tune of a song in the whole of the time spent in school. She explained the method used in Arlington whereby all the teachers assisted in the teaching of music by incorporating it in their studies and teaching it in connection with their classes. "I think quickly and accurately. By teaching music we are helping children to establish standards and no matter what they come in contact with in entering the outside world, it must come up to the standard set. By this you will not have to worry as to what will happen to jazz."

Miss Pierce also explained how she taught music appreciation by making the students familiar with the music as they became familiar with their friends' faces. In regard to teaching by the broken music method, she said, "Some musicians do not believe in this. This type of music is connected with story-telling and I have found that children will listen to music if a story is told rather than from the own beauty. Children, too, will quickly realize that music really tells stories."

In conclusion she said, "We cannot really appreciate music until we realize the beauty in art, the beauty in literature, the beauty in history, and the beauty in geography. You must know every subject from the beauty it is filled with, for music brings out its beauty. There would be no world without music for, as Carlyle says, 'The very planets make music in their spheres.'"

REENLISTS IN NAVY  
Frank Yarosh, of 225 Fayette st., reenlisted in the navy yesterday. The local recruiting office as first class fireman and was sent to the receiving ship in Boston for assignment to duty. Mr. Yarosh was discharged from the navy on April 22 and after a short vacation decided to return to the service.

# Pictures of Americans Captured by Chinese Bandits

GENERAL FENG YT HSIANG  
Called the "commander of China" who is commander of the Chinese troops reported to have captured and are holding Americans for ransom.

J. R. POWELL  
American newspaper editor and publisher of the Standard Weekly Review, who was among the men passengers kidnapped from a Chinese train and now held for ransom.

MISS MINNIE McFADDEN  
Of Providence, R. I., accompanying Miss Lucy H. Aldrich on a world tour, and one of a number of women captured by Chinese bandits and later released, reported in front exposure.

BRIG. GEN. WILLIAM D. CONNOR  
Commander of the small detachment of United States troops stationed at Tien-Tsin, who may lead American soldiers in chase of bandits.

## Series of Earth Shocks Rock Town

ROME, May 10.—The town of Sebenico, Dalmatia, has been visited by a succession of violent earth shocks during the past week, says a telegram from Zara. The inhabitants are said to be leaving and many of their houses have been levelled to the ground.

### SUMMER SAVING

You can save gas or oil in cooking this summer if you buy your bread. That doesn't mean that you must serve inferior Bread for Betsy Ross is as delicious and wholesome as the best home-made Bread. It is made of the purest ingredients by experienced cooks, and surroundings that are immaculate. Just remember to ask for Bread by name.

Write Morehouse Baking Co., Lawrence, Mass., for Free Recipe Book.

## NO TRACE OF BODY

Parishioners Would Bury Remains of Mgr. Butchkavitch With Honors

PETROGRAD, May 10.—The clerical associates of Mgr. Butchkavitch, who was executed in Moscow early in April, are in the dark as to what became of his body.

If the body could be delivered to his associates and parishioners, it would be buried with all the honors due a saint. Members of the parish seldom mention his name, but they have a silent way of paying tribute to his memory by kneeling before his dear in the parish house of St. Catherine's.

Colleagues of Mgr. Butchkavitch, whom the Associated Press correspondent saw in Petrograd, said he thought the body would be found in a meaningful manner. It was not even placed under arrest until a few days before the proceedings began. With his associates who were sentenced to prison, the prelate was merely summoned to Moscow for trial, leaving Petrograd in good spirits on the tenth of March.

Today, the little room in the parish house of the Nevsky, which Mgr. Butchkavitch occupied for many years, is locked. Other rooms, occupied once by Archbishop Zepiak, and the other priests, who are convicted, also are locked, and the church itself is closed, but through the corridors of the parish house daily tramp hundreds of men and women, who have before a tiny crucifix that has been fastened to the door of the Butchkavitch room, and silently mumble prayers.

### MATRIMONIAL

Mr. Harold G. Worth, of this city, and Miss Edith Tuthill, daughter of Rev. and Mrs. C. J. Tuthill of Athol, N. H., were married Tuesday at the home of the bride, by her father, Miss Margaret Tuthill of Quincy was bridesmaid, while the best man was Mr. Harvey Worth of New York. The couple will make their home in New Rochelle, N. Y.

### FRAUEN-ROGERS

## Rheumatic Neuritis

Says His Prescription Completely Banishes All Rheumatic Pain and Twinges—Is Guaranteed...

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of ALLENRIU, the sure conqueror of rheumatism, does not show the way to relief, the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain he will gladly return your money without comment.

ALLENRIU has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was unendurable and where the patient was helpless.

Mr. James H. Allen, the discoverer of ALLENRIU, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless ALLENRIU definitely cures this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. All druggists can supply you—Adv.

FRUIT MEDICINE  
FOR RHEUMATISM

Proof Positive of the Value of "Fruit-a-lives"

The Medicine Made From Fruit Juices

If you suffer with Rheumatism or Lumbago, you know that ordinary remedies and liniments give only temporary ease at the best.

But "Fruit-a-lives" aids you completely in this trouble. It not only relieves the pain and reduces the swelling, but cleanses the system of the disease.

Mr. D. McMillen of Hudson, N. Y., says: "I was so badly crippled, I could not work or even dress myself. Fruit-a-lives relieved me of those pains in my back and shoulder and now I am not troubled at all."

See a box, 6 for \$2.50 trial size 25c. At dealers or from Fruit-a-lives Limited, Ogdensburg, N. Y.—Adv.

GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid stomachs."

## STORMY TIME AHEAD FOR BRITISH GOVERNMENT

LONDON, May 10.—(By the Associated Press)—Between the controversy with Russia and the situation created by the success of Mr. O'Brien's appeal for a writ of habeas corpus, the government is clearly in for a stormy time. The laborers, most of the liberals—both Lloyd George and Asquith—and even some of the conservatives, it is said, disapprove of the ministry's handling of the dispute with Russia and it is predicted in some quarters that next Tuesday's debate in the house of commons may prove awkward for the ministry. It is also predicted that the solid support of their followers on that occasion.

The liberal press, which did not comment yesterday on Lord Curzon's times a week from now on so that the

note to Moscow, today strongly condemns its tone and its "provocative" demands. These newspapers agree that Great Britain had valid and important grounds of complaint, but they condemn the threat to terminate the trading agreement as worse than a blunder. They also regard the note as "designed to make it difficult, if not impossible, for a self-respecting government to make a temperate, diplomatic reply."

## HIGH SCHOOL SENIOR CLASS REHEARSAL

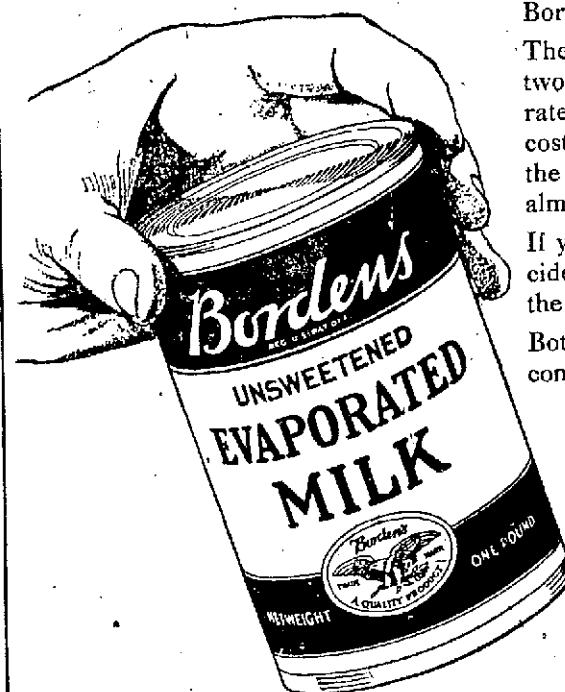

Students of the graduating class of the high school had it firmly impressed upon their minds yesterday that graduation time is drawing near, for Fred O. Blunt, instructor of music, held the first rehearsal of the senior class in the school auditorium this evening.

Rehearsals will be held two or three times a week from now on so that the

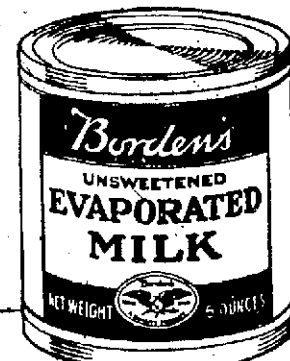

singing this year will be up to the standard set in previous years. The officers of the class and the class committee chairman are as follows: Edward Martin, president; Arthur McQuaid, first vice president; Winifred Lester, second vice president; Marguerite Shuxua, secretary; Donald Hilton, treasurer; gift committee chairman, Edward O'Brien; ring and pin committee, Walter Nestor; social committee, John McManis; motto committee, Edward Anglin; color committee, Joseph Busby; senior day committee, Norbert L. O'Brien.

Students of the graduating class of the high school had it firmly impressed upon their minds yesterday that graduation time is drawing near, for Fred O. Blunt, instructor of music, held the first rehearsal of the senior class in the school auditorium this evening.

# Two cans but the same milk

with the cream left in

MANY women ask us if we put up small cans of Borden's Evaporated Milk.

The answer is yes. There are two sizes of Borden's Evaporated Milk. The larger size costs about twice as much as the smaller size, and contains almost three times as much milk.

If you use lots of milk it is decidedly more economical to buy the big cans.

Both have been planned for your convenience.

THE BORDEN COMPANY  
Borden Building New York

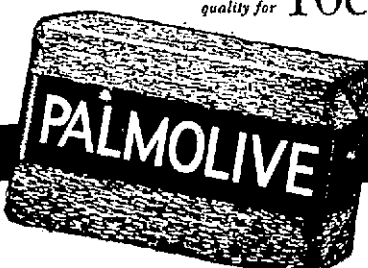

## Queens began it

The use of palm and olive oils to cleanse and beautify the skin began with the queens and princesses of ancient Egypt.

Now the modern women, who are the queens of today, find them just as valuable combined in the smooth, creamy, lotion-like lather of Palmolive. This perfected modern luxury costs only 10c a cake.

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap

# Over 55 million packages of this new kind of soap were used last year

## For every washday method soaking—boiling—in washing machines

Already used literally by millions of women. And yet it was only three years ago that it was first brought out.

You wonder what is the secret of this remarkable growth? For just consider what a tremendous force of habit Rinso had to meet. It had to gain the confidence of women trained for generations to the long-drawn-out methods of a bar soap washday.

Mothers, grandmothers and great-grandmothers had rubbed and scrubbed to get clothes clean—rubbing soap on all the soiled places and then rubbing the heavy wet clothes on the washboard.

Is it any wonder then that when Rinso came into women's lives it swept everything before it? For Rinso spares you the hardest part of that age-old drudgery of washday—the constant backbreaking rubbing. That is why millions of packages of it are used every month.

### Soaking takes the place of rubbing

Just *soaking* with this new kind of soap gently loosens all the dirt. Harmful rubbing is done away with.

You are not only saved from weary, back-aching work but also your clothes are protected from the wear and tear of hard rubbing. Rinso dissolves instantly and sends its soapy suds through every thread and fibre, flushing out all

the dirt. Only spots where someone has actually ground in the dirt—neck bands, cuff edges and the like—will need a light rubbing with a little dry Rinso.

### Has already taken place of bar soap

You will find that Rinso is ideal for any washday method you use. *You do not have to change any of your usual steps—just use Rinso where you used to use bar soap.*

If you like to boil your white cottons Rinso will give just the safe cleansing suds you need in the boiler. If you use a washing machine follow the advice of the big washing machine men—use Rinso.

Rinso takes the place of bar soap for all these different washday methods. It does the whole job.

### As wonderful for the family wash as Lux is for fine things

Rinso is made by the makers of Lux to be just as remarkable for the regular weekly wash as Lux is for silks, woolsens and all fine fabrics. With these two soaps—Lux and Rinso—the worst of your laundry problems are solved—you need never again do any hard rubbing.

However you do your wash, make it easy by using Rinso. Get it at any grocery or department store. It comes in two sizes—the regular size and the big new package. Made by the largest soapmakers in the world. Lever Bros. Co., 164 Broadway, Cambridge, Mass.

### Follow the advice of leading washing machine manufacturers

—use this new kind of soap in your machine

Apex, Bluebird, Coffield, Gainaday, Getz, Haag, Horton, Laun-Dry-Ette, Meadows, "1900" Cataract, One Minute, Rotarex, Sunnysuds, Surf, Trojan, Voss, recommend Rinso for best results.

#### COFFIELD WRITES:

"I tried out over a period equivalent to seven years' weekly use. Rinso did not corrode or injure the machine in any way. It can be used with absolute safety. Garments were not weakened by prolonged washings with Rinso."

#### GAINADAY SAYS:

"Rinso suds stand up permanently. They penetrate the water so that every garment is saturated with Rinso solution."

#### LAUN-DRY-ETTE WRITES:

"We found no little soapy particles floating around in the water in our tests with Rinso as we did with some of the other soaps. Twelve minutes was the average operating period with Rinso and not a single article had to be hand-rubbed."

#### "1900" CATARACT SAYS:

"In solution it permeates the water so evenly that its cleansing action reaches every garment. Consequently we found that we were not obliged to do any rubbing either before or after operating the machine."

#### ROTAREX SAYS:

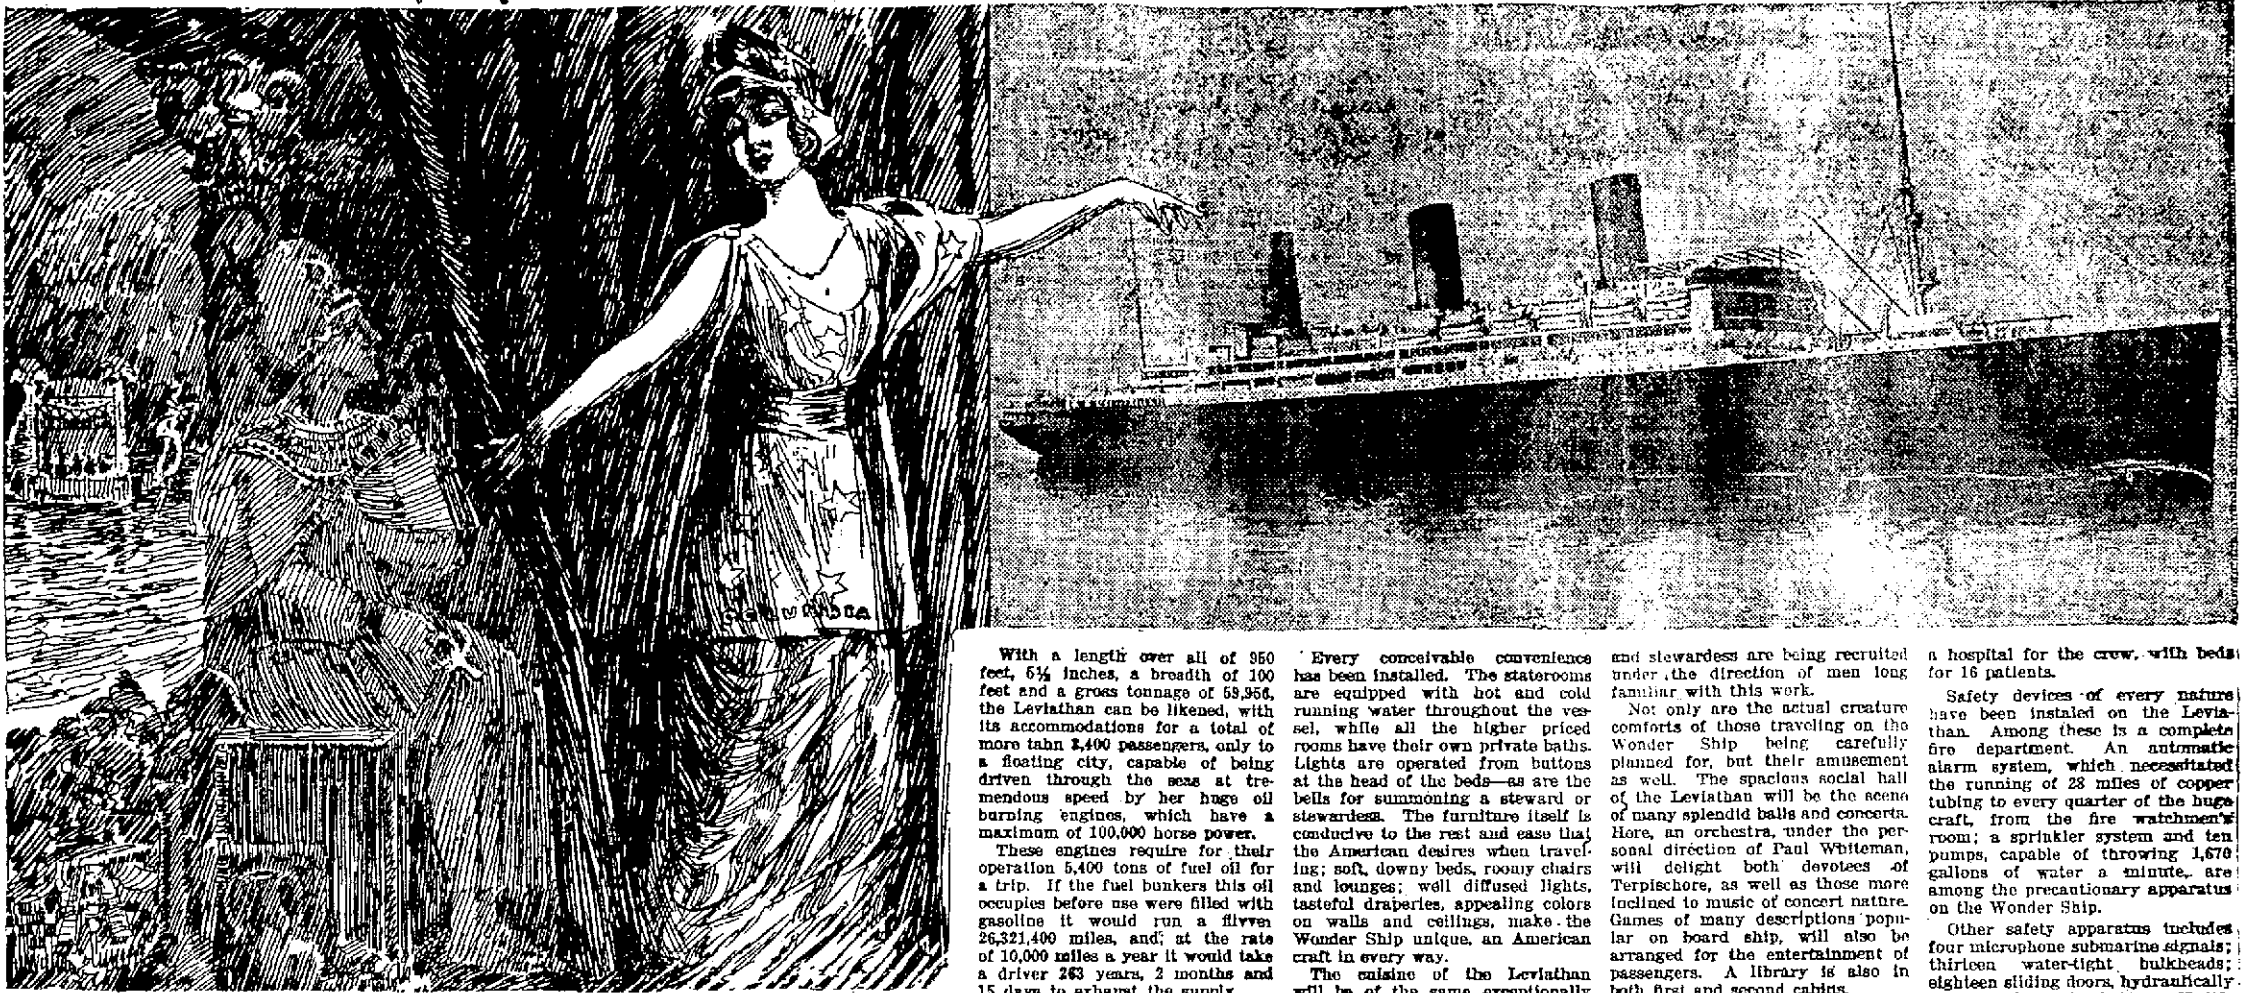

"We have tried out Rinso and other soaps—many of them good—in our machine, but for all round satisfaction we recommend Rinso."

# You don't need to bother with bar-soap any more

# S. S. Leviathan Restores American Prestige to Seven Seas

New York—

If Tut-Ankh-Amen, whose tomb has been disturbed after thousands of years of repose, could but visit these shores in his royal barge he would be astounded at the sights which would greet him. Not the least of these by any means would be the huge steamship Leviathan, which if he should pass near it on his voyage would swamp him with its back wash, for the tiny craft upon which the Pharaoh navigated the Nile was but the size of one of the life boats on the huge liner.

Not alone by the size of the Leviathan would Tut-Ankh-Amen be overwhelmed. Were it possible for him to inspect the vessel, he would find conveniences and comforts of which he never dreamed.

As King Tut would marvel at the splendors of this mighty craft, so will the public when the steamer is thrown open for inspection, prior to making her first trip to Europe on July 4, as a passenger craft under the American flag—for American craftsmen, engineers and mechanics, American decorators and architects American common sense and ingenuity have made possible the placing again in operation of the Leviathan, despite the claim of the skeptics that it could not be done.

Wonder Vessel of the Seven Seas, the Leviathan, reconditioned and refitted at an expense of over \$8,500,000, will shortly hoist the house flag of the United States Lines for operation in the North Atlantic passenger service. Already

hundreds of reservations have been made for her initial trip to Cherbourg and Southampton.

With the return of the Leviathan to passenger service, after distinguishing herself during the war in transporting hosts of American fighting men to and from France, the American Merchant Marine will have taken another huge step forward in re-establishing itself as a power in the maritime world.

The largest vessel in the world, the Leviathan justly deserves the title of Wonder Ship. To call this huge vessel a "floating palace" would be a misnomer, as there is no palace of either ancient or modern kind so finely equipped, so elaborately designed to care for the creature comforts as is the Leviathan.

With a length over all of 950 feet, 6 1/2 inches, a breadth of 100 feet and a gross tonnage of 58,956, the Leviathan can be likened, with its accommodations for a total of more than 2,400 passengers, only to a floating city, capable of being driven through the seas at tremendous speed by her huge oil burning engines, which have a maximum of 100,000 horse power.

These engines require for their operation 5,400 tons of fuel oil for a trip. If the fuel bunkers this oil occupies before use were filled with gasoline it would run a fifteen 26,321,400 miles, and at the rate of 10,000 miles a year it would take a driver 263 years, 2 months and 15 days to exhaust the supply.

In the first cabin department of the Leviathan there are accommodations for 876 passengers; in the second class for 548 and for the third, the most comfortable section of its kind on any vessel, 1,878. In addition to being able to carry this number of passengers, amounting in all to 3,402 persons, the Leviathan will carry a crew of 1,276, bringing the total of souls which can easily be accommodated to 4,678.

Walker and Gillett, of New York, architects who for years have designed and planned the arrangement of homes and furnishings for leading citizens of the country, have in their work on the Leviathan contributed successfully to impart a homeliness that will be of big appeal to the travelling American public.

Every conceivable convenience has been installed. The staterooms are equipped with hot and cold running water throughout the vessel, while all the higher priced rooms have their own private baths. Lights are operated from buttons at the head of the beds—as are the bells for summoning a steward or stewardess. The furniture itself is conducive to the rest and ease that the American desires when traveling; soft, downy beds, roomy chairs and lounges; well diffused lights, tasteful draperies, appealing colors on walls and ceilings, make the Wonder Ship unique, an American craft in every way.

The cuisine of the Leviathan will be of the same exceptionally high grade which has always prevailed upon the steamships of the United States Lines. In the huge kitchens of the vessel will be prepared food worthy of the taste of old King Tut-Ankh-Amen himself.

During one voyage the Leviathan will consume 93 tons of meat, 28 tons of fish, 2 tons of game birds, about 16 tons of poultry, 30 tons of potatoes, 10 tons of other vegetables, 8 tons of sugar, 3 tons of coffee and tea, 2 tons of hops, 7 1/2 tons of butter, 36 tons of flour and 10 tons of jams. There will be used 12,285 quarts of milk, 1000 boxes of oranges, apples and other fruits, and about 6,700 dozen eggs. The highest standard of service will prevail on the Leviathan, and already a small army of stewards

and stewardesses are being recruited under the direction of men long familiar with this work.

Not only are the actual creature comforts of those travelling on the Wonder Ship being carefully planned for, but their amusement as well. The spacious social hall of the Leviathan will be the scene of many splendid balls and concerts. Here, an orchestra, under the personal direction of Paul Whiteman, will delight both devotees of Terpsichore, as well as those more inclined to music of concert nature. Games of many descriptions popular on board ship, will also be arranged for the entertainment of passengers. A library is also in both first and second cabins.

For those who are athletically inclined, the huge steamship is equipped with two complete gymnasiums, one in the first and one in the second cabin. First cabin passengers will also be able to enjoy a plunge in a large swimming pool, which when filled, holds 118 tons of water. The walker, desiring to stretch his or her legs, will find the promenade deck ideal for a hike. This deck, glass enclosed, has a circumference of 1,090 feet, and 48 turns about it are equal to a mile's walk.

The health of passengers will be cared for by three doctors and highly trained hospital stewards. The Leviathan is equipped not only with accommodations for 34 patients, but a thoroughly modern operating room as well. In addition there is

a hospital for the crew, with beds for 16 patients.

Safety devices of every nature have been installed on the Leviathan. Among these is a complete fire department. An automatic alarm system, which necessitated the running of 28 miles of copper tubing to every quarter of the huge craft, from the fire watchmen's room; a sprinkler system and ten pumps, capable of throwing 1,670 gallons of water a minute, are among the precautionary apparatus on the Wonder Ship.

Other safety apparatus includes four microphone submarine signals; thirteen water-tight bulkheads; eighteen sliding doors, hydraulically operated from the bridge; 68 life boats and two motor boats. The latter are equipped with wireless.

An idea of the tremendous task which confronted the reconditioners of the Leviathan in preparing her for service is shown by the fact that new plans had to be drawn up for every part of the vessel before actual rebuilding could be started. This difficulty was speedily overcome, however, and the Leviathan now stands a superb monument to the capability of American mechanical genius, bringing back to the Stars and Stripes part of that glory which vanished from the seas with the passing of the clipper ships, which at one time made the United States the leading maritime nation.

## Kidney Trouble Disturbed His Rest

Is Now Able to Lie Down and Sleep Soundly—His Kidney and Bladder Trouble All Gone. Read His Statement.

"I was a sufferer for several years from kidney and bladder trouble and had to get up many times each night on account of the condition that I was in. I was induced to try Dr. Carey's Marshmallow Prescription No. 777 and to my great surprise and satisfaction I was able to lie down and sleep undisturbed. I can truthfully say that I am entirely cured and would advise any who are suffering from this terrible disease to try Dr. Carey's Marshmallow." Signed C. H. Riebler, Elmira.

What is Dr. Carey's Marshmallow? It is Dr. Carey's own prescription known as No. 777, for many years used by him with remarkable success in the treatment of kidney and bladder troubles. It consists of roots and herbs that have a direct and specific action only on the kidneys and urinary organs. It can always be obtained at Fred Howard's, 137 Central street, and all good druggists the country over.—Adv.

## Many School Children Are Sickly

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children—for use throughout the season. They Break up Colds, Regulate the Bowels, Relieve Feverishness, Constipation, Teething Disorders, Headache and Stomach Troubles. Used by Mothers for over 30 years, THESE POWDERS GIVE SATISFACTION. All Drug Stores. Don't accept any substitute.

Trial Package sent FREE. Address Mother Gray Co., Le Roy, N. Y.

## Home Made Family Tonic for Spring

The best spring medicine you can take to drive out the winter humors, and put your liver and bowels in perfect condition costs but a trifle and can be brewed at home just like ordinary tea.

## CELERY KING

is purely vegetable. Brew a family supply tonight—give the children a cup. It's a gentle laxative—good for sick headache, bad breath and sallow, pimply skin.—Adv.

MISS LUCY T. ALDRICH

Sister-in-law of John D. Rockefeller, Jr. and daughter of the late United States Senator Nelson W. Aldrich, of Rhode Island, captured by Chinese bandits who held up a Shanghai-Peking express train near the Shantung border and carried off more than 100 passengers, many of them Americans, later released, with other women passengers, and suffering from exposure at Pin Cheng, near the scene of the hold-up.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating the into natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. P. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c. Adv.

## Hundreds Flock to Tragic Scene

Continued

across the horizon with great clouds of black smoke, ominously signaling the fire for 50 miles around.

The huge producer, which came in late Tuesday, flowing 15,000 barrels of pipe line oil is a veritable inferno. Charred and mangled bodies remain while the well burns, consuming the complete flow, and two million feet of gas as when it first ignited.

List of Known Dead

The known dead:

W. A. HICKS, Wortham, Tex., head

driller for the development company.

S. P. ALLEN, Corsicana, field superintendent.

M. C. TURNER, Norris, Miss.

DAN PHILLIPS

AMES PHILLIPS

MAN MEISNER

J. C. COOK

WILLIAM OWENS, all of Kereus, Tex.

JACK COOPER

FRED CRAIG

E. C. COOPER

RENNETT BYRD, all of Corsicana.

L. P. SHEPP, Dallas.

Three unidentified skeletons.

When the blast came 16, it is known of the 50 odd men in the two crews and a connecting gang were sucked into the sheet of flame.

Ten Flew Through Oil to Safety

Ten men escaped by running through oil knee deep, some distance from the well and falling flat.

Ellis Hammel, drilling contractor, and E. W. Quinlan, and James Sloan, sears, with others did heroic rescue work.

That outlookers previous to the explosion had been kept at a distance prevented a greater loss of life. About 300 persons watching the work of the drilling crews gave incoherent accounts of the flare up, none being certain how the fire started, but all testified to the huge volume of smoke which rose, filled and hid the oil-soaked derrick.

I. C. Cook, head driller of one of the crews, was seen to dash away and jump into some water nearby. He died on the way to the hospital.

Confusion is everywhere. Steady, unbroken streams of automobiles keep coming. While operations in the oil belt have not been suspended, hundreds of workers have crowded to the tragic scene.

Many days of suffering could be avoided if people only realized how important it is to keep the liver and bowels active. When there is a lack of bile flowing from the liver, the stomach fails to digest the food and constipation is a sure result. Dizzy spells, headaches, foul breath, bad taste in the mouth, spots before the eyes and poor sleep are positive signs of a lazy liver.

"I am glad to make a public statement concerning the benefits I have obtained by taking Drows for it is a wonderful medicine," says Mr. H. M. Bennett, secretary-treasurer of the Auto Information Machine Co., with offices in Jenkins Arcade, Pittsburgh, Penna.

"I had a severe illness which kept me in bed for several weeks. My liver was sluggish which caused a dizzy feeling, headaches and spots before my eyes. My bowels were so badly constipated that I had to take medicine all the time for them. I feel better now generally."

"The bottles of Drows have made me feel like a different person. My bowels act as regular as a clock. I never feel drowsy or have a headache. I feel better now and suffer no ill effects. My digestion is much better and my sleep is better."

"I don't believe there is a remedy today that can equal Drows, and I say this after giving it a fair trial."

The good old-fashioned roots, herbs, bark and leaves like our forefathers brewed their teas from and are a handy tree of people are still regarded as the best remedies for such ailments, liver, kidneys, bowels and blood. Drows is made from 12 herbal plants and its action is prompt and pleasant for men, women or child.

DROWS is being introduced to the people of Lowell by Green's Drug Store, tell them, and let them tell you of the merits of this wonderful remedy. They will honestly tell you whether or not they think DROWS will benefit you. Also Drows is being sold in Nashua by Nashua Pharmacy Co., 175 Main St.—Adv.

## Wholesale Smash of Air Records Puts U. S. First in World Race

LEFT TO RIGHT: ABOVE, LIEUTENANTS HAROLD HARRIS, JOHN A. MACREADY, OAKLEY KELLY AND LEIGH WADE; BELOW, LIEUTENANTS L. J. MAITLAND, R. L. MAUGHAN AND ALEX. PIERSON. ALL ARE MCCOOK FIELD MEN.

MCCOOK FIELD, Dayton, O., May 7. Observations of incalculable value to the air service along these lines.

The world's airplane record—24 miles an hour—is held by Brigadier General William Mitchell. World's altitude record—40,500 feet—has been established by Lieutenant John A. MacReady.

World's endurance record—26 hours, 5 minutes and 30 seconds—is held by MacReady and Lieutenant Oakley Kelly.

The same two pilots have established the world's non-stop distance record—2060 miles.

Lieutenant Lester J. Maitland has established the world's one-kilometer speed record—244.97 miles an hour.

Lieutenant Russell L. Maughan holds official speed records for 50 and 100 kilometers.

Lieutenant Alex. Pierson has broken the French speed record for 500 kilometers by more than one hour, while Lieutenant Harold B. Harris has topped almost two hours off the previous French record for 100 kilometers.

To establish these records and to bring America into first place among the nations contending for air supremacy, the young record-holding birdmen—all stationed here—have continually run the risk of being killed in a mass of tangled wreckage or of being crippled for life.

To what end?

The present epidemic of record making and breaking to some appears foolish but the officers of the United States air service reply by saying that every flight made and every record attempted is done to test or prove some scientific fact.

This is true of the work going on at both McCook and Wilbur Wright fields.

Value of Records

Every record made by these men, who one day will be recognized the pioneers of the air service, has a predetermined military and commercial value.

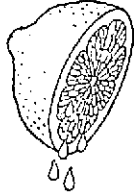

In the altitude work, for instance, it is pointed out that in case of war the highest flyer always has a distinct advantage over his adversary, as events on the west front showed during the world conflict.

Carrying along the same argument as applied to commercial aviation it is claimed there are certain trade winds at great distance above the earth of such velocity that a transcontinental trip could be reduced to a few hours.

It is known that when MacReady attained his "ceiling" (as the highest point any given machine is capable of reaching is known) he made

## FRECKLES

Girls! Make Harmless Lemon Cream to bleach away Tan, Freckles

Mix the juice of two lemons with three ounces of crushed White. With any drugstore will supply for a few cents, shake well in a bottle, and you have a whole quart of the most wonderful freckle and tan cream and complexion beautifier.

Massage this sweetly fragrant lemon cream into the face, neck, arms and hands each day and see how freckles and blemishes naturally bleach right out and how gracefully clear, soft and rosy-white the skin becomes.—Adv.

## LIVER LAZY?

Lazy livers are sometimes overworked, with resultant disordered condition. You can keep them active and healthy by taking

**PLANTEN'S "RED MILL" GENUINE IMPORTED HAARLEM OIL**

in Capsules  
For All Liver and Kidney trouble, bladder ailments, and an excess of uric acid in the system. Relieves promptly. Look for a "Red Mill" on the package. Take no other. At all leading druggists. Trial size 30 cents. H. PLANTEN & SON, Inc., BROOKLYN, N. Y.

## Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results

ANY FAMILY MAY TRY IT FREE

IT is not necessary to take a violent physic for an simple ailment as constipation. Yet many thoughtless parents give mercury in the form of calomel, and constipation in the form of phenol when a natural vegetable compound like Dr. Caldwell's Syrup Pepsin will do the work equally well and without danger.

People should realize that mercury may salivate and in certain conditions loosen the teeth; that phenolphthalein, by whatever name known and however disguised in candy, may cause dermatitis and other skin eruptions; that salt waters and powders may concentrate the blood, dry up the skin and cause lassitude.

You can take Dr. Caldwell's Syrup Pepsin yourself or give it to a babe in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints. A teaspoonful will relieve you over night even if the constipation has been chronic for

years. Dr. Caldwell's Syrup Pepsin is a compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not cramp or gripe. Every druggist handles it, and bottles are so generous that the cost amounts to only about a cent a dose. You buy it with the understanding that if it does not do as claimed your money will be refunded. The names of all the ingredients are on the package.

Mrs. A. Arrenewaux of Orange, Texas, suffered from constipation for six years and found no relief until she took Dr. Caldwell's Syrup Pepsin; and Mrs. Gus Anderson of Ball, Kans., corrected her bowel trouble so that she now eats and sleeps normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin into your own home and let the family use it for constipation, biliousness, wind, gas, headaches, flatulency, and to break up fevers and colds.

TAKE DR. CALDWELL'S SYRUP PEPSIN  
The family laxative

## HOME-RUN VOGUE IS STILL POPULAR

By BILLY EVANS

The business of making home runs is going to continue to thrive during the season of 1923.

During the winter it was rumored that the ball would be designed a trifle. It has proved to be a mere rumor.

The ball is as lively as ever, and the home-run orgy will probably be wilder than ever. The fans seem to like it, so why worry?

I am convinced that the public that pays the way likes to see the slugger in action. The athlete that packs the punch in any sport is the popular hero.

Never was this fact demonstrated more clearly than in the opening game of the season at the new Yankee stadium in New York. Before a crowd of 75,000, Babe Ruth in his initial debut as a comeback hit a home run with two on that broke up the ball game.

Ruth's wallop was one of those terrific wallops for which he is justly famous. The ball traveled on a line far into the right field bleachers. It was a real home run, worthy of the name.

I have seen many a player cheered for some noteworthy feat, but never

have I seen a player acclaimed as was Ruth that day by the record-breaking crowd. It seemed as if everyone present joined in the demonstration.

In most cases, censure for the home runs should be laid to the small-sized parks rather than the lively ball. The fans like to see the ball travel. The lively ball makes possible that desire.

However, it is to be regretted that more playing territory is not available on many of the parks. More territory would offer the opportunity for brilliant work by the outfielders. Restricted space naturally places a limitation on the possibilities of the outfielders.

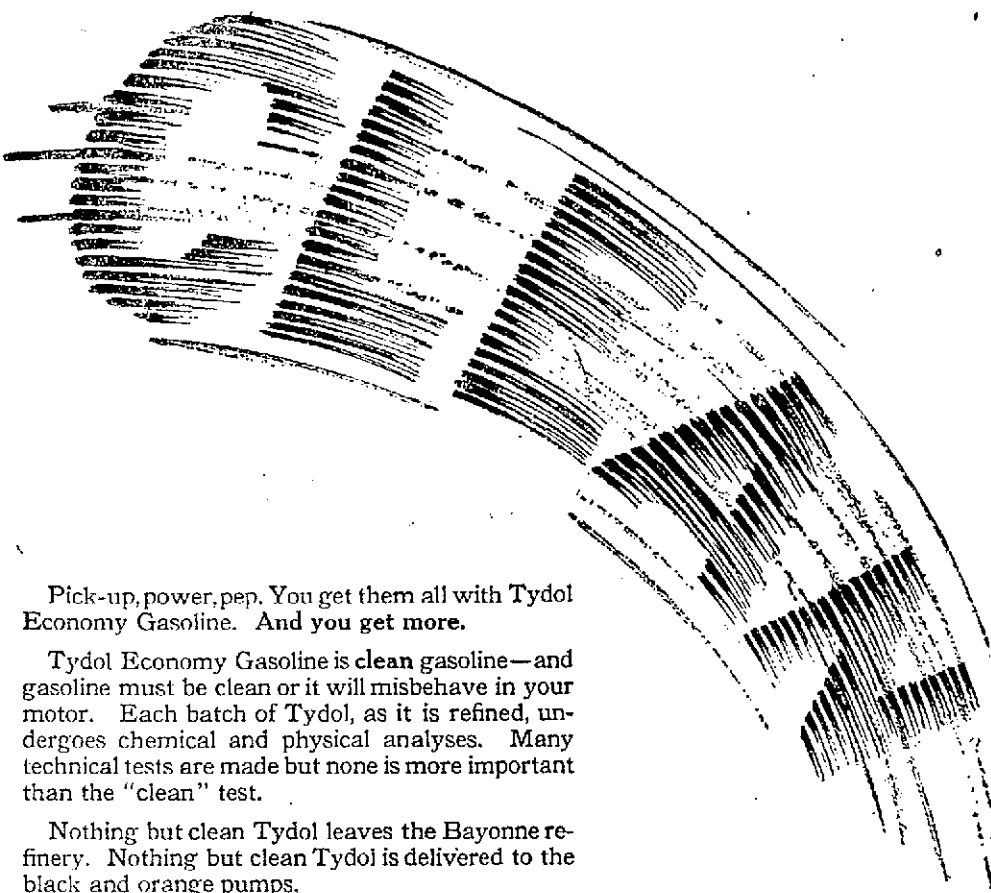

The other day in discussing the home-run business, Frank Chance of the Boston Red Sox gave vent to some interesting opinions on the subject.

"Players of today do not hit the ball any harder than the sluggers of 25 years ago," said Chance. "The athletes are no huskier, neither do they swing harder. It's all in the lively ball."

Bill Dauterive, Ed Delahanty, Jack Freeman, Frank Schulte and other hard hitters of years back could have vacationed the lively ball now in use, all of them would have rivaled Babe's mark.

"To my way of thinking there never was a greater slugger than Delahanty, and I feel sure he would have placed his mark at better than 50."

Home runs are going to continue just as long as the fans enthuse over them.

Pick-up, power, pep. You get them all with Tydol Economy Gasoline. And you get more.

Tydol Economy Gasoline is clean gasoline—and gasoline must be clean or it will misbehave in your motor. Each batch of Tydol, as it is refined, undergoes chemical and physical analyses. Many technical tests are made but none is more important than the "clean" test.

Nothing but clean Tydol leaves the Bayonne refinery. Nothing but clean Tydol is delivered to the black and orange pumps.

That's why clean Tydol insures a clean feed line, a clean carburetor, a clean needle valve. A clean needle valve insures a proper proportion of gasoline and air—the lean economical 15 to 1 mixture. And that means full mileage and full power from every drop of Tydol.

Drive up for clean Tydol at the black and orange pumps. They are everywhere.

TIDE WATER OIL SALES CORPORATION

# Lowell Twilight League Season Opens Tonight

## CENTRALVILLES AND Y. M. C. I. PRY OFF LID ON SO. COMMON TONIGHT

Mayor Donovan to Pitch First Ball in Formal Opening of Lowell Twilight League Season—Game Scheduled to Start at 6 O'clock—Amount of Collections to Be Announced

With Mayor John J. Donovan as pitcher and catcher respectively, the first game of the local 1923 Twilight League will get under way on the South common at 6 o'clock this evening. Despite the fact that tonight's clash will mark the initial encounter of the season, both teams are in good shape and anxious to make their debut an auspicious one. Much of the material of a year ago has been retained by the managers of the rival teams, as a glance at the following array will show:

**Centralvilles**—W. Faye, Paulist, Tardiff, Connor, Allen, Crawley, Brady, Buckley, Pate, McVey, Reynolds, R. Foye.

**Y. M. C. I.**—J. Linton, Ed. Cawley, Lynch, McGowan, Breen, Cath, R. Linton, Murphy, Desmond, R. Jenkins, O'Neil, O'Day, Marren, Condon, Smith, Gleason, McHale and Hobson.

**To Erect Bleachers**  
As yet the proposed bleachers for the summer street alone have not been placed in position, but a substantial sum has been appropriated by the park department for this feature and it is expected that the stands will be erected within a week or two.

The diamond is in tip-top shape, the infield and outfield having been rolled by park department employees. Foul lines have been marked off and the pitcher and catcher boxes reconstructed according to regulations.

This latter improvement is regarded as most needed, as many of the high scores of the past two seasons have

been attributed to the unsatisfactory conditions of these positions.

**To Announce Collections**  
An added feature of this year's program is the plan to announce the amount of collections each evening. Contrary to the opinion of several hundred fans, the Twilight League is not a gold mine. Last year, there were occasions when players were considered fortunate to receive more than a half dollar for their participation in some of the games. The largest amount was \$19 and that was gathered on the opening night. As a general rule, the season's donations averaged \$65 to \$70 per game.

**Ganley and Grady Cops**  
"Red" Ganley and "Reddy" Grady are booked for the arbiting this evening. Both are experienced men, impartial, and inclined to give mutual satisfaction. The umpires will see to it that tudy players who are responsible for delaying a game, receive a stipulated fine. According to rules adopted at a recent meeting, all games must begin not later than 6:15 o'clock. An endeavor will be made to start tonight's contest at 6 o'clock sharp.

**Second Game Tomorrow**  
The second game of the season will be played tomorrow evening between the South Ends and the Broadways. Commentaries with respect to these two old-time rivals are unnecessary. Suffice it to say that they will give their spirited rivalry tomorrow evening. Highland Daylights and J. of C. will do the honors on Monday evening and the remainder of the schedule will be announced shortly.

## Bo McMillin Is Strong Derby Candidate

BO McMILLIN

LOUISVILLE, Ky., May 5.—Kentucky holds a good hand in the next Kentucky Derby deal, but it lacks the real trump of the effete east's band of candidates for that stake. The strongest of the western contenders appears to be Bo McMillin and Donges Bo is a sturdy youngster who won five races in 1922 and more than \$11,000, while Donges, in whose veins flows the blood of Bessie Mellon, one of the most famous of all English mares, and of other famous English racers, won the Cincinnati Trophy last year and five other races. Altogether he won more than \$35,000. He, too, likes a distance and will carry weight. Other Kentucky horses which have a good chance in the Derby are Sheezix, Sandy Hatch, Bright Tomorrow, Betty Deal, Prince K., and Aspiration.

THIS SEXTET NOW HOLDS BOWLING TITLE  
The 1923 national bowling champs are none other than the famous Nelson Mitchell team of Milwaukee. They hold the world record of 3139. Starting at the top, and going around the circle to the right, the members are: Wilson, Caro, Manager Nelson, Clark, Somers and Keegan.

## AVILA MEETS FORMIDABLE FOE IN HERMAN

Johnny Herman of Allentown, Pa., who is on the program to swap punches with Louisville's leading welterweight Johnny Avila, in the main event of the Moody club card at the Crescent rink tonight, is without a doubt the most formidable performer the local boy has been called upon to face.

Herman is well known in this vicinity, though tonight will mark his initial visit to this city. Only last week he fought and won over Jack Thomas the Canadian welterweight in Boston. Previously he appeared in Lynn in two sensational bouts with Paul Doyle. He also points to his victory over Jack Terry, conqueror of Eddie Skelton. Likewise Herman claims victories over the famous Latzo brothers, Pete and Steve. He's a hard hitter and is fairly clever at long range.

While trailing the importance of the bout and the big contract he has on his hands, Avila is not worrying over the result. He is down to weight, and with no superfluous flesh to carry around, he expects to give the Pennsylvanian a merry battle. Avila trained under the direction of Chick Hayes, who conditioned him for the Flaherty bouts, and both tonight and trainer look upon tonight's bout with confidence.

Kid Mercer of Salem and Frankie Buff of Charlottesville are slated for the semi-final. They are an aggressive pair and their offering ought to be an interesting one.

**Main Event Saturday**  
Matchmaker Conale Lynch of the Olympic boxing club announces that Young Manly of New Bedford, who is to meet Billy Murphy of this city for the welterweight championship of New England in association with the Monday night has given him positive assurance that he will arrive here Saturday afternoon and put the finishing touches to his training period in the local Y.M.C.A. and K. of C. Murphy has gone to Boston for his work, and it is expected that he will arrive here on Monday night.

A large crowd of New Bedford rooters has signaled intention of accompanying their favorite to Lowell. With the expected large Murphy following in this city, and the added gathering from the training camp in New England, no doubt, witness one of the largest mobilizations of fight fans on record. A good card of preliminaries and a snappy semi-final will precede the main bout.

## Kinks o' the Links

Player drives his ball into a sand trap and finds that the ball is completely covered by the sand. Has the player the right to remove the sand so as to get the correct location of the ball or must he play the ball as he finds it?

If a ball be completely covered by sand, the player has certain rights in order to determine the location of the ball before playing another stroke. He has a right to remove only so much of the sand, however, as will enable the player to see the top of the ball. No penalty is incurred if the ball be touched in removing the sand.

A roller being used on the fairway is permitted by one of the employees to remain almost on a direct line from the teeing ground to the cup. A player's first shot rolls a considerable distance after striking the ground and comes to rest in the roller, making it impossible to play the ball. What is the proper procedure in such a case?

The player has a perfect right to remove the roller. Because of the position of the ball, he has a perfect right also to lift the ball in order that the roller be moved. There is no penalty in lifting the ball but it must be dropped as near as possible to where it lay but not nearer the hole before being played.

## JOHNSON'S SPEED BIG FACTOR

With Youth, Aggressiveness and Dash Backers Look to Him to Beat Willard

Saturday's Bout Will Make or Break Iowan's Championship Aspirations

NEW YORK, May 10.—Speed will be Floyd Johnson's answer Saturday to Jess Willard's bulk and hitting power when the pair clash in their 15-round match at the Yankee Stadium. Johnson's training program has been largely devoted to developing footwork.

Besides the knowledge that the outcome of his fight with Willard will make or break his championship aspirations, the youthful Iowan has an added incentive in the desire to atone for his comparatively poor showing against Fred Fulton in a 12-round bout at Jersey City, recently. Johnson was declared the winner by newspapermen but his margin was slight and in the last round Fulton had him tottering.

Johnson to date has failed to show the type of punching ability that wins championships. But under expert tutelage, his hitting has improved to a marked extent. In the opinion of observers, his backers are counting upon his youth, aggressiveness and speed to overcome the 40-year-old Willard, to whom he will concede more than 40 pounds in weight, five inches in height and eight inches in reach.

The young westerner gained his present place in the heavyweight spotlight chiefly by his defeat of Bill Brennan, Irish 16-round bout early this year. Previously he attracted attention by knocking out Bob Martin, former A.E.F. champion, in 10 rounds. Johnson, who was born in Des Moines, and is nearing his 23rd birthday, has had about 60 professional ring engagements, of which he has won half by knockouts. He has been defeated but three times.

The card of bouts for the milk fund at the Yankee Stadium has been completed as follows:

Four rounds, Joe McCann, Newark, N. J., vs. Harry Drake, England.  
Six rounds, Jim Herman, Omaha, Neb., vs. Al Rutch, Newark, N. J.  
Ten rounds, Fred Fulton, Minnesota, vs. Jack Renault, Canadian titleholder.  
Fifteen rounds, Luis Firpo, Argentina, vs. Jack McAuliffe, Detroit.  
Fifteen rounds, Jess Willard, former champion, vs. Floyd Johnson, Iowan.

## Trunks Add Speed to Girl Athletes

LEFT TO RIGHT: HELEN BARKEY, KITTY LENTZ, HELEN MUIR, BETTY SCHENKEL, ALL OF PHILADELPHIA GENERAL OFFICES, PENNSYLVANIA RAILROAD SYSTEM.

Whether girl track stars of the Pennsylvania Railroad system should wear old-fashioned bloomers or should adopt the modern, although abbreviated, running trunks has apparently been settled in favor of the trunks. At least this is the word from Pittsburgh, Chicago and St. Louis, the big Pennsy regional centers whose girl sprinters blamed their defeat in the last Pennsy athletic meet to wind-catching bloomers.

The Philadelphia girls, appearing for the first time in the slightly and almost weightless running trunks, captured first places with alarming regularity. Especially was Betty Schenkel, the most famous girl athlete on the Pennsylvania railroad, a consistent winner. Pennsy's future athletic indoor meets are almost certain to present the spectacle of a solid delegation of girl track event entries clad in running trunks.

Miss Rose Zarobsky, the Pittsburgh girl who lost the system cup and championship by a step in the last meet, attributed her losing the 15 yard dash to her heavy bloomers. She has adopted running trunks.

In reply to possible adverse comments on girl athletes wearing the running trunks, there is cited the word of hundreds who attended the last athletic meet that in the vast crowd of 40,000 spectators not one remark was heard indicative that the Philadelphia girls' attire was unsuited or unmodest.

On the contrary, wives and sisters of railroad men who composed a great section of the crowd were enthusiastic over the girls' adoption of running trunks and said that nerve and grace had been added to the athletic meet.

**Sport Notables to Attend Meeting**  
DETROIT, Mich., May 10.—Baseball Commissioner Landis, Babe Ruth, Ty Cobb, Walter Camp, Mayor Frank E. Doremus of Detroit and Gov. Groesbeck are among those who will attend a meeting of the Intercollegiate association here Saturday. One thousand members and guests are expected. The association is composed of representatives of 64 colleges and universities.

**TO STANDARDIZE BILLIARD RULES**  
NEW YORK, May 10.—The National Association of Amateur Billiard Players has been invited by the French amateur billiard federation to become a member of an international organization designed to standardize playing rules, govern competitors and generally regulate the amateur career game. This announcement was made today in connection with acceptance by the association of an invitation to be represented at an international convention next October in Brussels.

**PLANS FOR BIG TRACK MEET**  
PHILADELPHIA, May 10.—Word was received today from athletic authorities of the University of California that it was making plans to send its track team here at least one week before the Intercollegiate track and field championships to be held May 25 and 26. From nine to 16 men will make the trip.

## 250 CAUGHT - IN RAID THE ADVERTISING CLUB HORSE RUNS AWAY MISSING DRY AGENT

400 Others Escaped as Police Swoop Down on N. Y. House During Show

NEW YORK, May 9.—Five hundred and fifty men made exits from an upper East Side hall early today while 250 of their fellows were being arrested by police who raided the place in the middle of a series of alleged acts featuring the telling of newspaper tales and dances by women in dubious raiment.

Cards announcing the initiation in the "fourth degree" of the "Pythagorean Brothers" at \$2 per initiation first attracted the attention of the police. The morals squad purchased some of the tickets and attended a spectacle until the hall called them into activity. It was the second similar raid in two days, 400 men and two women having been arrested in an East Side hall early yesterday.

## BRIEF BUT IMPORTANT WIRE DESPATCHES

NORTH SYDNEY, N. S. W., May 9.—The steamer "Kear" which had been fast in the ice near this port for ten days, came in today hard on the heels of 27 of her passengers, who made a perilous trip across the breaking ice Jan. yesterday tired of the starvation rations she was able to provide.

YARMOUTH, N. E., May 9.—An announcement was made today of the formation of an association of Nova Scotia fishermen to enlarge and improve markets for Canadian fish by seeking repeal of the Fordney-McCumber tariff or cancellation of the agreement whereby fishing vessels of the United States are given port privileges which are not reciprocal.

DUESSELDORF, May 9.—(By the Associated Press) It is announced that sentences of death will be asked by the French military prosecutor in the trial of seven Germans charged with plotting before a court-martial on charges of espionage and sabotage.

ST. PAUL, Minn., May 9.—Governor J. C. Fergus will resign to accept appointment as United States senator from Minnesota in succession to the late Senator Knute Nelson. If the state supreme court hold the government of the state may appoint the successor.

NEW YORK, May 9.—Judge Bradley of the Bituminous Operators' special committee declared in an address before the National Resources production group of the chamber of commerce of the United States today that artificially created shortages have been controlling the price of coal.

CLEVELAND, May 9.—The radio has brought about the "fair tappers" as betting successors to the wire tappers, as a means of getting advance horse race results in waters with book makers.

NEW YORK, May 9.—Linking together of the nation's rail water and motor transport facilities to form a network over which the rapidly mounting tonnage of agricultural and industrial products might be hauled to market, was urged before the convention of the chamber of commerce of the United States today by three champions of transportation.

ROME, May 9.—Despatches received here say that the eruption of Mount Etna is becoming more violent.

PORTLAND, Me., May 9.—Joseph Gerard, a temporary petty officer on coast guard cutter "Caspian," was indicted by the superior court grand jury today for murder. He is alleged to have fatally stabbed Thomas A. Ward of Lewiston a mess boy on the cutter during a quarrel.

## PROTEST TO HARDING

Bedford, Va., Committee Objects to New Postmaster

BEDFORD, Va., May 9.—A resolution protesting the appointment of H. M. Stone of Marion, Ohio, as postmaster at Bedford, was adopted at a mass meeting here last night which named a committee to go to Washington and present the protest to President Harding. Mr. Stone, who is said to be an old friend of the president, is an inmate of the Elber National home here.

## CALL FOR DEPORTATION OF RUSSIAN EMISSARY

LAUSANNE, May 9.—(By the Associated Press) A committee of Fascist issued a statement today asserting that M. Vorovsky, Russian emissary to the Near East conference, must be deported because of his connection with the Swiss government had acted fairly and impartially in promoting a Russian courier from trading Switzerland.

## POLA NEGRJ UNDERWENT OPERATION

LOS ANGELES, May 9.—Pola Negri, motion picture actress, underwent a surgical operation here today and now is recovering at her Beverly Hills home. The Los Angeles Times reported today that she would be unable for at least another week and forbade all callers except a chaplain, her father. He is said to be a daily visitor.

## First Meeting Today Under New President—Business and Entertainment

Yesterday's meeting of the Ad club in Middlessex hall, was the first under the direction of the new president, Edward J. Cooney. The majority of business was relieved by the "Clammy Girls" orchestra and by "Charlie" Keyes, the song-bird of the club.

As Mr. Cooney's election had not been certified, Hon. James H. Casey took the chair and called on George Wood for a report of the meeting of the governing board, as published last Saturday.

Mr. Cooney's election was unanimously certified by the members and it was announced that Mr. Cooney would be inducted into office at the next meeting.

It was suggested that the club return to its old meeting place, the Girls City club, and this was accepted. It was also suggested that the day of meeting be changed from Wednesday to Monday. This matter was tabled until the next meeting.

The report of the governing board also included the recommendation that next Wednesday the meeting would be held in the evening. In the Girls City club, and that several speakers be obtained for the occasion. This was unanimously accepted.

Councillor Daly and Daniel P. Carroll were elected to the Scheduling Circle of the club.

Mr. Carroll spoke shortly on the "Home Beautiful" Exposition and asked for support in this big affair.

Mr. Daly thanked the members for his election and assured the members of his support in Ad. club matters.

Paul Roberts is arranging for an Educational Movie night and the date will be announced later.

Mr. Wood announced the committee, the personnel of which have been previously announced in the newspapers.

Maurice Lambert made a few suggestions concerning plans for making next Wednesday evening's meeting the biggest of the year.

Fred Walter also had several suggestions concerning next week's meeting, and Dr. Sweetser added his say on this question.

Paul Roberts and Charles Keyes were named as team captains to get the crowd out next week. The losing team buys the "smokes" and candy for the next affair.

Frank Ricard read a communication concerning the recent election of Ad. club at Atlantic City this year.

The following proclamation was read by Mr. Casey:

"It is hereby decreed that each male member of the Lowell Advertising club shall on Tuesday, May 15 (next), wearing a new straw hat, if weather is stormy, he shall so appear on the first fair day. Failure to obey the injunction to be taken up for consideration by the governing body of the club, and he shall be obliged to perform whatever duty shall be imposed upon him."

"Issued this ninth day of May, 1923. Let those coming within the pale of the mandate obey."

"LOWELL ADVERTISING CLUB."  
"Edward J. Cooney, Pres."

Edward Mallon, of the Boy Scouts appealed to the male members of the club for leaders, scout masters, etc., to work with the scouts.

Mr. Cooney elaborated on plans for the "gas dinner" to be held later and following this the meeting was adjourned until next Wednesday at 6:30 o'clock.

## POLICE HEAD SWEARS OUT COMPLAINT

NEW YORK, May 9.—Police Commissioner Bright today appeared before Judge Crain in general session court and swore out a complaint charging Magistrate Joseph E. Cortigan and Assemblance Louis A. Caviller with criminal libel in connection with accusations of bootlegging graft they had made against the police of this city.

Served in French Army

NEW YORK, May 9.—James M. Parmelee, 26, head of the cashiers' division of the Paris branch of the Guaranty Trust Co., was shot and killed as he was walking home through one of the principal streets last night. The bullet supposedly was a wild shot by a police detective battling with a gang of suspicious characters a hundred yards away.

Parmelee, who was walking with two friends, died immediately.

NEW YORK, May 9.—James M. Parmelee, 26, head of the cashiers' division of the Paris branch of the Guaranty Trust Co., who was shot and killed in Paris last night was a second lieutenant of artillery in the French army. He died in Yonkers.

When the United States entered the war and he was refused for service, he joined the French army and was made a second lieutenant in 1918.

Another British Ship Seized by Russians

LONDON, May 9.—(By the Associated Press) The court of appeals today granted the application for writ of habeas corpus made on behalf of Art O'Brien, who was deported to Ireland, following the Irish raids carried out in March.

On two previous occasions the lower court had refused to grant writ with a writ.

It is held in republican quarters that the success of O'Brien's application must lead to the release of all the March deportees now in Ireland.

## Made Wild Dash Up Central Street After Colliding with Beacon—Wagon Wrecked

A horse hitched to an express wagon and owned by the Manchester & Concord Express Co., raised havoc around Rogers' square, formerly Tower's corner, shortly after a clock yesterday afternoon, when it ran away and during its wild race collided with the beacon in the square.

The horse became frightened while standing in Middlesex street and started up the street at breakneck speed. When it rounded the corner it narrowly escaped striking electric cars and automobiles and crashed into the beacon, knocking it off its cement base.

The wagon was overturned. The animal became frenzied and resumed its wild run through Central street, but was finally brought to a stop near the corner of Church street. The wagon was badly damaged.

## CHAMBERLAIN QUILTS SHIPPING BOARD

WASHINGTON, May 9.—Resignation of former Senator George E. Chamberlain of Oregon, as a member of the shipping board has been accepted by President Harding, effective June 30. Mr. Chamberlain said he expected to remain in Washington for a time.

GEORGE TWOHEY BANKRUPT

BOSTON, May 9.—George V. Twohey, a wrestling promoter, filed a voluntary petition in bankruptcy today. He said he had no assets to meet liabilities of \$124,400. The Pittsburgh Co-operative bank holds a secured claim of \$5500.

FOR COURT TENNIS TITLE

LONDON, May 9.—George S. Covey, titleholder, took the lead, 5 to 3, today in his match with Walter A. Kinsella of New York for the world's professional court tennis championship. The pair are playing for the best of thirteen sets.

Fraud Order Issued Against Oil Co.

WASHINGTON, May 9.—A fraud order was issued by Postmaster General Noyes today against the Pilgrim Oil Co., and several individuals at Port Worth, Tex. The order which will stop delivery of mail named the Pilgrim Oil Co., and the Pilgrim Oil Co., of Texas, W. H. Hollister, G. M. Richardson, and H. E. Robinson, of Port Worth individually and as trustees. It was the second action of the kind within two days directed against Southwestern promoters, a fraud order having been issued yesterday against the General Lee Development Interests of Port Worth.

Sec. Denby Accuses Sims of "Disloyalty"

WASHINGTON, May 9.—Charges by Rear Admiral William S. Sims, retired, that favoritism was shown in recent appointments to high naval positions drew a retort today from Secretary Denby, who said he found it "hard to believe that Admiral Sims made the statement attributed to him."

"I cannot believe any officer would show such utter disloyalty to the service," the secretary added. Admiral Sims was quoted in press despatches as asserting that "personal influences bring greater rewards than training" in the navy.

WRIT GRANTED

May Mean Release of Those Deported to Ireland

LONDON, May 9.—(By the Associated Press) The court of appeals today granted the application for writ of habeas corpus made on behalf of Art O'Brien, who was deported to Ireland, following the Irish raids carried out in March.

On two previous occasions the lower court had refused to grant writ with a writ.

It is held in republican quarters that the success of O'Brien's application must lead to the release of all the March deportees now in Ireland.

## BELIEVED MURDERED

BOSTON, May 9.—Police search for John F. Lawson, Jr., who had been employed by prohibition enforcement officials as an informant, was begun today. Members of his family said they had received word that he had been killed at Providence, R. I., and his body thrown into the water there. Lawson left home to go to Gloucester on May 1, and has been missing since.

PROVIDENCE, R. I., May 9.—The possibility that the body of a man found on the rocks at Narragansett Pier yesterday is that of John F. Lawson, federal prohibition agent, attached to the Boston office, was brought up today by Mrs. Lawson of 6 Blanchard street, Roxbury, Mass., who thinks that it may be that of her husband. Lawson is believed to have been on a secret investigation of rum-running activities and may have been murdered. The body was nude and the head crushed. There were no other marks.

The Staple Coal Co., of Fall River has been notified and asked to send a representative to determine if it is the body of Captain George A. Gardner, who was drowned when his barge foundered off Point Judith, April 25.

FOR COURT TENNIS TITLE

LONDON, May 9.—George S. Covey, titleholder, took the lead, 5 to 3, today in his match with Walter A. Kinsella of New York for the world's professional court tennis championship. The pair are playing for the best of thirteen sets.

# Novelty and Completeness of The Home Beautiful and Own Your Own Home Exposition Strikes Responsive Chord

BUNGALOW BUILT ON 'AUDITORIUM STAGE BY CONTRACTORS' ASSOCIATION

COMPOSITE VIEW OF MAIN FLOOR BOOTHS AS SEEN FROM BUNGALOW STEPS

**T**OMORROW evening at 8:15 o'clock in front of the bungalow that sits on the stage of the Memorial Auditorium as the crowning feature of the Home Beautiful, Own Your Own Home Exposition, Mr. William Albert Holland and Miss Agnes M. Anderson, both of Rochester, will be united in the bonds of matrimony. Their names were made public today by the committee in charge of this novel event in connection with the show. The wedding ceremony will be performed by Rev. Caleb E. Fisher, D.D., pastor of the First Universalist church of Lowell.

As the future Mrs. Holland stands at the side of her prospective husband, who may be pardoned for wishing their married life might be begun in that very bungalow. And, who knows, perhaps their husband will bid it in when it goes under the auctioneer's hammer Saturday night. That would be particularly fitting and a splendid climax for the exposition and the bungalow, as well.

The gift of the Lowell Contractors' association to the couple will be a check for \$100 and this afternoon members of the general committee were making a tour of booths to solicit other gifts. It is expected the future Hollands will receive a perfect shower of most attractive presents and useful ones as well. Some one of the exhibitors may toss in a ton of coal just for good measure.

After a most successful opening day yesterday, during which hundreds of visitors circulated through the Auditorium and found much of interest in the many exhibits, the exposition reopened at 3 o'clock this afternoon, with everything in first class condition and with increased crowds anticipated afternoon and evening.

With the closing of all stores this afternoon hundreds of persons were waiting to enter the building when the doors opened and the exhibitors looked forward to one of the busiest days of the exposition.

## WHEN CAPITAL AND LABOR JOIN HANDS GREAT GOOD RESULTS

Capital and Labor joined hands in Lowell this week for the commonweal

Nine Lowell contractors conceived the idea of the erection of a full-size and completely furnished and equipped bungalow home on the Memorial Auditorium stage. The proposition was placed before the men of local trades unions and immediately, without comment or debate, these men offered their services and their best efforts without thought of fee or compensation. They asked for none.

It was a perfect exemplification of the idea of co-operation that cannot help but mean much in the future for Lowell, and contractors and tradesmen went to work and gave to the exposition its crowning feature.

It was a physical impossibility to have every exhibit fully on display yesterday, but today the exposition is a finished work of art and makes one of the most attractive displays ever put together in the city. In the first place, it is a new idea and that in itself creates a great amount of interest, but beyond that is the fact that the show really has been put on along pretentious lines and no expense has been spared to make it an unequalled success.

The special feature of the exposition this afternoon was a fashion show begun at 3:15 o'clock under the direction of Miss Beatrice Fillmore, of the Cherry & Webb Co. The models were Mrs. Anna Ruane, Miss Maureen Boyle and Miss Mary Hayes, of Cherry & Webb's, Miss Rose Courtney and the Misses Lavinia and Mahoney of New York city, and for the showing of children's garments, the Misses Alice Ryne, Mary Mahoney, Alice Mahoney, Margaret Joyce, Dorothy Mahoney and Master Paul R. Lanflet.

Hats worn were from the shop of

Zeena Clark. Hair shoes were furnished by M. J. Jewell, from the Hamilton Shoe, dress and cloaks from Cherry & Webb's and sporting attire from Dickerman & McQuade.

Hogan's Military Band gave a most enjoyable concert last evening and again will be a feature tonight. Also, this evening coffee and sandwiches will be served at one of the booths in the rotunda.

Of particular interest in connection with this evening's entertainment is the announcement that John J. Hogan, at his radio booth, will pick up and amplify an address to be given in New York by Pres. Warren G. Harding.

The bungalow on the stage is the main attraction for all visitors and its attractive rooms were thronged with people last night. There was general and unstinted praise accorded the nice Lowell contracting firm that contributed toward its erection and the fine co-operative spirit shown by the tradesmen who gave freely of their time and energy in the actual building of it.

## FAVREAU BROS. WIRE E. A. WILSON CO. BOASTS HUNDREDS OF HOMES OF GREAT PLANT

Favreau Bros. aptly termed the "electrical winter" of Lowell have shown their rapid growth that an organization of master workmen supplied with materials and fixtures of worth need never want for employment, for builders and home owners are quick to take advantage of a firm that always assists, agrees and satisfies at any cost.

All of the brothers can be found at the beautiful electrical exhibit which they are conducting at the Home Beautiful Exposition where they will be only too glad to give personal attention to visitors. Alphonse Favreau, the manager of the firm has had a very active part in arranging the lighting of the various booths at the exposition and the splendid results attained are proof that his firm is composed of expert electricians.

In 1922 Favreau Bros. wired more Lowell homes than any other electrical contractor.

## DEPOT CASH MARKETS ARE BODY BUILDERS

There are four food supply stations in Lowell that are so ably managed from the purchasing of foodstuffs to the selling of them that hundreds of thrifty women make it a habit to always do their marketing at one of them. These stores are called the Depot Cash Markets and are owned and conducted by the Bogdonoff Bros. with Philip Bogdonoff as the general manager. This company has centrally located its markets so as to make convenient shopping places in your sections of the city, thus enabling their patrons to have all the advantages of the neighborhood store combined with low prices.

Another thing this live concern does is to publish each week in The Sun a list of special low priced goods so as to allow purchasers on Friday and Saturday an opportunity to make substantial savings.

## FITCH FURNITURE CO. HAS MANY ADMIRERS

Middlesex Street long has been the home of the Fitch Furniture Co., carrying a complete line of household and office furnishings and equipment. The firm ever has been noted for its reliability and is willing to guarantee every stick of furniture taken out of its store.

Any home may be fitted out from cellar to attic after a shopping trip through the Fitch salesrooms and although it may not be in mind to purchase on the spot the company's officials are only glad to show their goods and trust to their appearance and quality to sell themselves.

It is a wideawake store, up to the minute in furniture style and with always a large stock from which selection may be made at the shopper's own convenience.

When the high school was being built vast quantities of masonry supplies were needed and the E. A. Wilson Co. supplied them. Again, when the Memorial Auditorium was being erected, mason's supplies were needed in a hurry, the absolute need of rapid delivery was never more urgent—E. A. Wilson filled the bill. And so one might

go on, citing instance after instance where this well known firm has justified its stability and prominence in the mercantile field of Lowell.

More than 50 different masonry supplies are always on hand in the big yards of the Wilson Co. and for this reason almost instantaneous delivery is possible. Add to this an extensive delivery equipment and one finds a perfect combination in the interest of service, spelled with a capital S.

While the office of the company is situated in Paige street, its yards are in upper Broadway and it is there that the real heart of the business is to be found. Here also are the coal yards for the company perhaps its best

known in its role of dealer in high grade anthracite and bituminous fuels.

No better exemplification of the Wilson Co.'s conception of the meaning and importance of service can be found than by recalling the winter just gone, during which the firm went the very limit in an effort to keep fuel in the bins of hundreds of Lowell families. What is more, success crowned their efforts and a record was set up of which the company may well be proud.

The Wilson exhibit at the exposition is just to the right of the main aisle leading to the floor of the Auditorium proper and shows many articles of interest.

## THE THORNDIKE COAL AND GRAIN CO.

A Word to the Wise: In time of warmth, prepare for cold. The chilling blasts of late autumn and early winter are but a few short months away. Are you prepared against the recurrence of another frigid winter? If not, in view of the terrible uncertainty of the coal situation, isn't it about time that you did so? WHY NOT PLACE YOUR ORDER AT ONCE? And don't forget the horse and the poultry, if you have such. We carry an excellent grade of Hay and Grain too.

LOWELL, MASS.

## STURDY MATERIALS FROM SUBSTANTIAL FIRM

For many years the D. T. Sullivan Co. has held a prominent place among Lowell business concerns and for the same length of time the worth of its products has been shown in the construction of many of the city's best known buildings.

There is nothing particularly artistic about masonry supplies, you will say, but without a good foundation no building can long endure. The stability and reinforced strength of the Sullivan Co. products therefore, are its stepping stones to success, although dealing in other lines also has had a share in the firm's advancement. For instance, D. T. Sullivan specializes in artistic bricks for fireplace construction. The measure of comfort a fireplace adds to a home is beyond the pale of debate. It is accepted as a contentment-stabilizer beyond comparison and the Sullivan bricks add immeasurably to the appearance, actual usefulness and long life of a fireplace.

There are many grades of cement on the present day market, but it has been known for some time that the product which comes from the Le-

high Valley, is without a peer. This is the type of cement D. T. Sullivan handles exclusively and satisfied users of it are legion.

The Sullivan Co. also deals to a large extent in coal, a commodity hard to get at times, particularly during the winter just gone, but it was gratifying for the company officials to realize that the fuel customers were only too willing to co-operate during the shortage and in retaliation every possible service was rendered.

When he is not actively engaged in directing the affairs of his company, Daniel Sullivan may be found at his beautiful home on North Tewksbury hill, where farm life makes for a happy diversion, although in his case, agriculture has been worked out upon a basis equally as successful as that which forms the foundation of his regular business.

## RUNELS CONSTRUCTION CO. WELL ESTABLISHED

Although somewhat new in the local contracting field, the Runels Construction Co. has firmly established itself upon actual performance. Its officers are Ralph E. and Chester Runels.

brothers and Lowell boys, well known in the city. Both are technology graduates and engineers of ability and tackle any sort of a job with so much vim that its success is assured at the very start.

One of the outstanding accomplishments of the company was the reconstruction of the canal bridge in Central street for the Locke and Canals Corp., a job that required feverish haste, but unerring accuracy and the fact that it was "put over" without a hitch, speaks well for the ability of the Runels boys.

The Runels Co. is equipped to take any kind of an engineering construction job, power plants, bridges, dams, mill work or private buildings. One of the best examples of the new golf company does is seen in the new golf building at the Vesper Country club, of beautiful and sturdy construction and indeed a credit to the company.

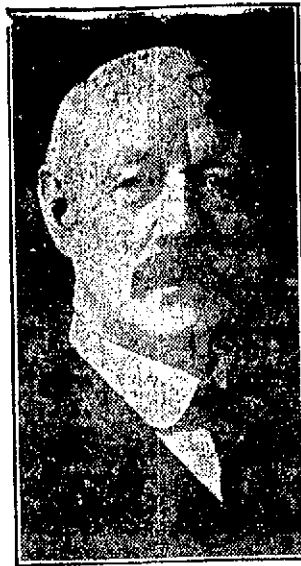

The company's office is in the Hill-dreth building and its plant is located in West Adams street.

The Lowell Contractors' association was quick to realize the ability of the Runels boys and prevailed upon Chester Runels to take the presidency, which he now holds in this position. He has worked tremendously hard in connection with the Home Beautiful exposition and his fellow-members are only too glad to give him unstinted praise for his efforts.

## THE HOME IS UNFINISHED WITHOUT PLANTINGS

Better an inexpensive little home with a garden, some trees, or some vines and bushes, than the finest kind of a mansion bare of anything that grows.

Unfinished is the home that has not good plantings round about. The right sort of trees and shrubbery, properly grouped, make one's property grow more valuable each year. But, just as the furniture for the home itself must be chosen with care and with due regard for the style of the house, and in respect to the lines of the rooms in which it will be placed, so also must the plantings for your out-of-door be chosen and planted with the best possible general artistic effect in mind. A heterogeneous mixture of things without is just as bad as a conglomeration of gewgaws and useless ornaments within the home.

Your doorway style will decide, to a large extent, what shrubs or flowers or vines must surround it to give the right effect. Some doorways can stand a veritable mass of shrubs and rose vines until they almost resemble the overgrown tangled portal of the palace of the sleeping beauty! For the little old-fashioned cottage a vine of Dorothy Perkins roses on a doorway trellis and a ragged border of perennials leading to the gateway is all that is needed. Sometimes a wild mass of rhododendrons makes a lovely setting to the door of home. If the distance between the door and gateway be very brief, an evergreen planted on each side of the gateway may be all that is needed.

A flagged foot-path is charming with a bordering of pachysandra and ground juniper, and as a background to a wealth of azalea bushes nothing is finer than masses of evergreens.

To separate the vegetable garden from the other part of the grounds, or as a fence between you and your neighbor, a row of sturdy evergreen trees is a happy choice. Sometimes the house, the orchard, the stable or the garden must needs be protected from the winds that blow, and pines, spruce or firs will give one very quickly a windbreak that is as useful as it is beautiful.

Large clumps of evergreens greet one at the gates of many big estates, and even in the smaller home place, one or two such side of the entrance are very charming.

In a really, truly garden there will, of course, be a spot where birds may congregate—one of the prettiest bird baths of terra cotta or Italian cement, set on a pedestal or almost upon the ground. Sometimes a very striking bird bath is of oblong shape and harbors water lilies or other plants, as well as inviting all of the feathered creatures.

Lovely wrought-iron stands support dishes of ferns and trailing plants, and are a pleasant change from some of the more formal and heavy urns and vases which are seen in gardens. Wrought iron, too, makes elaborate gateways, in modernized patterns of olden times, with grotesque dogs or other animals perched upon the old stone gateposts.

There are so many delightful garden places to be had today; seats and urns and window boxes, tables and chairs and drinking fountains for the more elaborate homes. Some of the flower boxes are of cement and covered with elaborate designs of peacocks, animals and scrolls, until one wonders if they would not almost detract from the beauty of the flowers to be planted within.

But no matter how small or how modest the home may be some kind of a garden may be had, even if only many window boxes filled with geraniums and petunias.

## VARNISH AS PROTECTOR FOR LINOLEUM

The housewife who treads with busy step over the surface of her kitchen floor, newly covered with linoleum, notices within a month or two that it is beginning to show signs of wear. Parts of the pattern are wearing away, the color may be changing or the surface is spotting, somewhat depending upon the frequency with which it is scrubbed.

What might have been done—if anything—to preserve the linoleum?

According to the Institute of Paint and Varnish Research of Washington, which has recently reported on a series of tests the entire difficulty may be overcome by the use of varnish. Either a high-grade interior varnish or an all-purpose varnish should be used. A smooth, glossy finish is obtained by the application of two coats, allowing two days for drying between coats.

Linoleums thus treated were rubbed at thirty different times with various soap powders. Each sample was entirely unaffected, and the conclusion is inevitable that proper varnishing of linoleums should by no means be neglected. The varnish should be applied immediately after the linoleum is laid unless it is first desired to have it stretch to its permanent form on the floor.

## ADVICE AS TO USE OF FURNITURE POLISHES

Don't use furniture polishes, oils or varnishes on upholstery leather. They will cause it to become sticky and to lose its lustre. When leather is in need of cleaning, use a damp cloth and a little castile soap. Rinse with another damp cloth and dry with a clean dry cloth—retaining the original lustre by rubbing briskly.

Don't forget that moths will lay eggs under slip covers. When using them, remove them occasionally and brush the furniture thoroughly.

Don't use a carpet beater on upholstered furniture. The frequent use of the vacuum cleaner and the whisk broom will serve to remove all objectionable dust.

Don't fail to remove the loose cushions occasionally and run the hand in the space between the seat and the back. The usual collection of keys, coins, pencils, etc., that this practice will divulge will do the furniture no harm, but one often finds foodstuffs that are subject to decay.

Don't sit on spring mattresses, stand or kneel on spring edge seats. Although this practice will show little effect on a well built piece of furniture, it constitutes an abuse and should be avoided.

Don't use the vacuum cleaner on down-filled cushions, as it has a tendency to pull the feathers through the covering. A careful brushing will suffice.

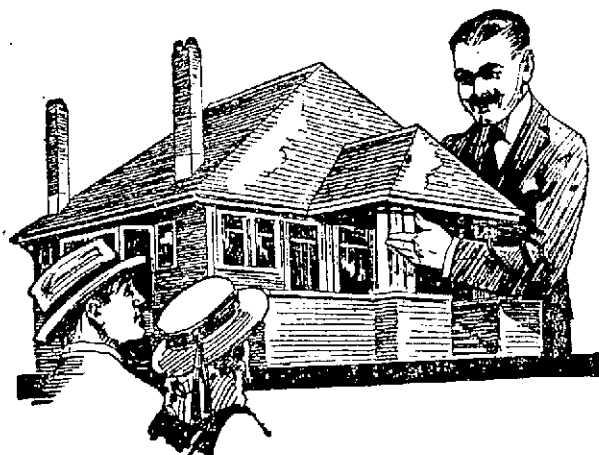

Don't allow household pets to lie on upholstered furniture. They may not only soil it, but cats, especially, will ruin the cover with their clawing.

May 1923

## A "Rectangular" Home

CURTIS SERVICE BUREAU, CLINTON, IA., PLANNED THIS BUILDING ALONG RECTANGULAR LINES.

The home pictured here is an example of modern small-house building at its best. It has all the elements of economical construction and the quality of excellent appearance.

There are seven large rooms with an abundance of closets and built-in features. Yet it is not too large to be placed on an ordinary city lot, leaving room for a drive way to the garage. The layout of rooms is rectangular, an arrangement of which Charles E. White, Jr., a leading architect of the country, has said: "Rectangular houses permit a better arrangement of rooms than square houses."

**Sheltered Hall.**  
The stair hall is sheltered by a vestibule, containing a coat closet. The living room occupies one side of the house, with windows on three sides, and a fireplace in the center of the long outside wall. Under the window which overlooks the rear garden is a built-in window seat, with bookcases in the corners at each side.

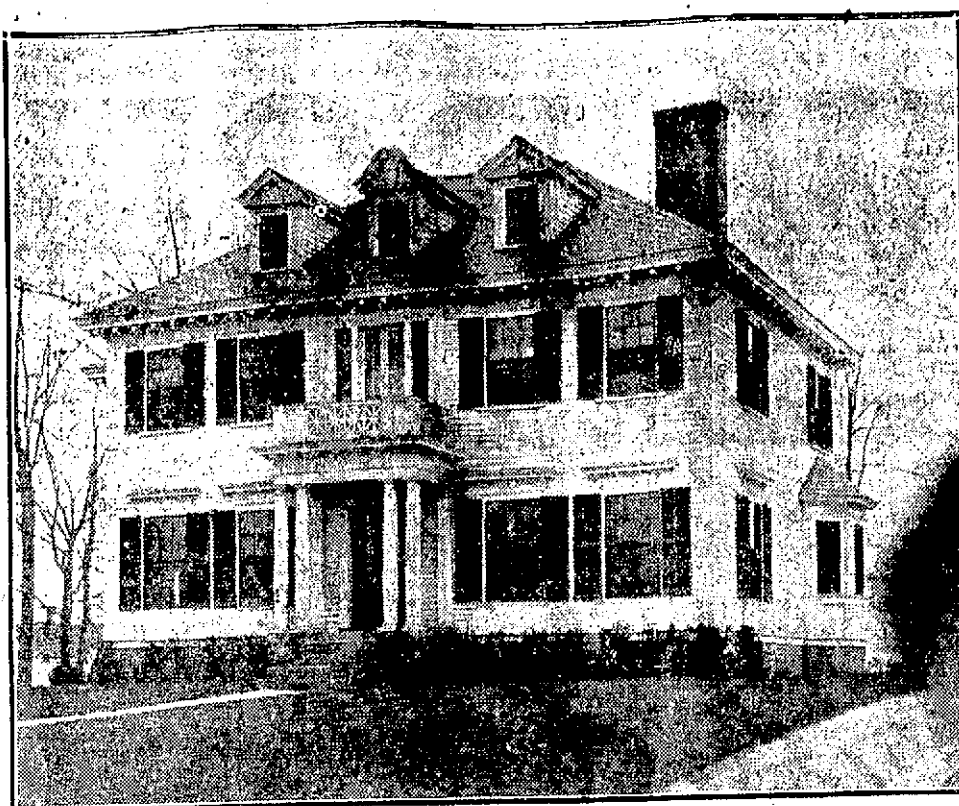

At the front of the other side of the hall is the light, cheerful dining room.

This home can be built for \$8060, including heating, wiring and plumbing, according to Curtis Service Bureau, Clinton, Ia., its designers. The price may vary slightly in different localities.

A pair of corner china closets give it a quaint charm, and a fireplace across one corner adds to its hospitable air. The fourth corner is also cut across by the kitchen door, giving the room an unusual and pleasing shape.

**Kitchen Aids.**  
In the kitchen there are numerous built-in conveniences. A separate rear entry with a window in it is provided for the refrigerator. From this entry the basement steps are accessible, so that laundry and ashes may be taken out of doors without intrusion into a spotless kitchen.

Each of the four bedrooms upstairs has a corner location, with windows on two sides. Each has a clothes closet, and one has also a built-in tray case. Near the bathroom there is a linen closet built-in.

WILLIAM E. ROWLANDSON RESIDENCE  
By Thomas W. Johnson Co.WEAVER ROOFS COVER  
MANY BUILDINGS

If one were able to fly over Lowell in an airplane and come down near enough to the tops of buildings to catch a good view of scores of roofs, he could get a fair conception of the amount of work done in the city by Frank L. Weaver & Son, roofers, for it is safe to say, no other local roofing concern can boast of such an amount of business.

The present Weaver concern is hereditary, being formed by Samuel H. Weaver in 1871 and now continued by his son and grandson. Every mill in Lowell is of flat roof construction and many of them are Weaver roofs,

some put on years and years ago and still going strong. S. H. Weaver entered the roofing field at a time when many of the textile corporations changed the construction of their buildings from pitch to flat roofs and the business connections formed then have been perpetuated by the present owners of the company.

The Weaver business success was founded upon personal relationship between man and man, enhanced by a real interest in the job at hand and this sterling attribute still is manifest in the conduct of the company.

Alvah H. Weaver, junior member of the company, has played a prominent part in the Home Beautiful exposition and gave so much of his time to the arrangements that his own exhibit entirely was forgotten until just before opening time yesterday. He was chairman of the committee on decorations, booths, lighting and general layout. That's all, there isn't any more.

COMPANY WILL BE 100  
YEARS OLD IN 1928

The Thorndike Coal & Grain Co., successor to the Livingston Co., is conducting a business in Lowell well in keeping with the reputation built up by the former owners. Fuel, grain and mason supplies are carried in extremely large quantities and the company is splendidly equipped to handle large orders at short notice. It is established at the old Livingston location in Thorndike street, which is a familiar place to thousands of Lowell house owners.

The William E. Livingston Co. was established in 1828 and the business now being carried on by the Thorndike Coal & Grain Co. will reach a full century of life five years hence. That is a record of business difficult to match and places the company upon a solid foundation in local mercantile circles.

FOOD FOR RADIO FANS  
AT HOGAN BOOTH

Not so long ago a new store was opened in Central street under the ownership of John J. Hogan. It featured electrical supplies. Along came the radio to become a part of every well equipped home and Mr. Hogan grasped opportunity as she attempted to pass by and today is able to show a shop equipped from stem to stern with radio apparatus and its multitude of appliances and features. It is a show ahead of the times, for nothing in recent years has gained such a foothold as this self same radio and the future is even more alluring than the past, for its accomplishments are but in their infancy. Radio sets of all sizes are on display at the Hogan shop and complete and personal instruction as to installation is yours for the asking. In fact, it goes with every sale.

Recently Mr. Hogan had added a department given over exclusively to sporting goods and trade in this new line has been brisk.

At Mr. Hogan's booth at the exposition a radio receiving and sending set is in constant operation. Step around and listen in.

HORNE COAL CO. SELLS  
FUEL FOR WARMTH

No one will deny that coal is a most important adjunct to every home. In fact, without it, a home is no home at all. It takes on the aspect of a barn.

For years the Horne Coal Co. has been administering to the fuel wants of Lowell households, and their patrons are counted by the hundreds. Fred Horne and his son, Herbert, make up the company and no local business firm is better or more widely known.

In connection with the Home Beautiful exposition the Horne Co. will show samples of its coal and at its booth on the main floor of the Auditorium may be seen a coal pocket in miniature, a novelty that is sure to attract no little amount of attention.

Although anthracite fuel is hauled by Horne teams and trucks to hundreds of Lowell homes, huge Packard caravans owned by the company daily supply many local mills with bituminous fuel and the concern is always ready to handle big orders without delay.

The big pockets of the company are at the Lowell Terminal Co. in Tannor street, but the office is handy by downtown in the body of the Wyman's Exchange building.

Coal means warmth, comfort, health and cheerfulness, and the Horne Co. plays a stellar role in making these family necessities a reality.

## CHINA LEARNING BY MAIL

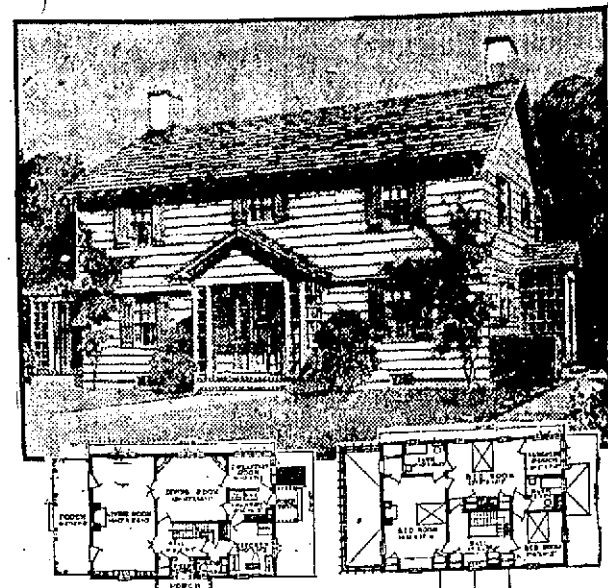

TIENTSIN, China, May 10.—For the first time in Chinese educational history, correspondence schools have been started here. They are in connection with the new school of civilization opened here by Liang-Chiehao, eminent Chinese scholar.

## NERVOUS BRIDEGROOMS

DUNSTABLE, Mass., May 10.—Bridegrooms are costing the Dunstable church here a considerable outlay in pens. Every fourth pen has had to be replaced, due to the nervousness with which the grooms use them.

Just another manifestation of the great place the Museum Auditorium is taking in the life of the city, declared one visitor. His remark was repeated a thousand times.

## Western Type Home

PLANS FOR THIS SIX-ROOM HOME WERE DESIGNED BY  
SERVICE BUREAU, CLINTON, IA.

Three architectural achievements are typified in this six-room home of the western type. It is distinctive, without being extreme; its design bears the test of good taste and right principles; and it combines a maximum of convenience with economy of material.

It is so planned that standard sizes and lengths of standard materials can be used throughout. There is just the right amount of relief in the shadow of the open cornice, the projecting upper story, the divided light windows with their batten shutters, the lattices on each porch and the simple, inviting entrance.

This is a home for a good sized family. Convenience is the keynote. The kitchen, for instance, has as pleasant a location as any room in the house, being on a front corner.

## Easily Accessible

From it one can reach the vestibule to answer the front door, the upstairs, the basement and the downstairs lavatory, all without passing through any other room. The pantry may be left

open for the delivery of ice without intrusion into any other part of the house. There are outside as well as inside basement steps.

There is a delightful breakfast room with so many windows that it is a veritable conservatory. The main dining room is large enough for many guests. The unusual hominess of both dining room and living room, in spite of their large size, is probably due to their built-in wood-work—corner china closets, book-cases, window seat, fireplace, French doors.

**Privacy for Guests.**  
Guests are provided for in the sleeping quarters, too. Any one of the three bedrooms upstairs can be grouped with a private bath, since there are two excellent bathrooms.

Among the second floor features that catch the eye of the good housekeeper are three hanging closets, two trunks, a built-in dressing table, a large store closet, a broom closet, linen closet, medicine cabinets and a window seat in the hall which can also be used as a chest for storing various things.

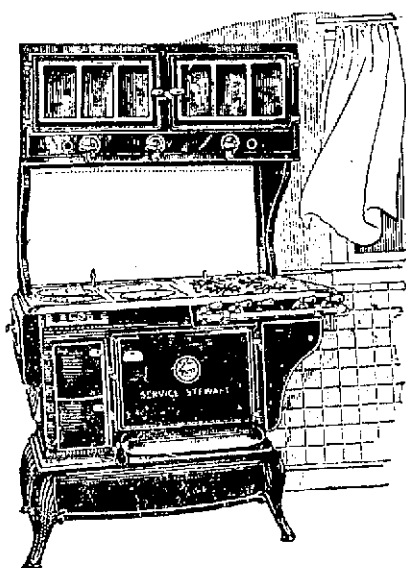

has become soiled through long usage. This company is under the active and capable management of Miss Mary F. Dillon, a member of leading local associations and one of the city's most successful business women.

The Dillon establishment makes a specialty of cleaning draperies and household furnishings, which fact is of particular interest just at this time, when spring cleaning is in full swing. The Dillon works are conveniently located and reasonable prices and quick service are other assets.

CLEANSES CLOTHES FOR  
HOME BEAUTIFUL

Just across the street from the Memorial Auditorium and the present Beautiful exposition is the workshop of the Dillon Dry Works, noted for its ability to beautify clothing that

## Isn't This Truly a Beautiful Range?

What an attractive design, nice lines, convenient arrangement, sturdy construction and fine finish—

SERVICE STEWART  
De Luxe Combination Coal  
and Gas RANGE

In Blue or Gray all Porcelain Enamel finish with White Enamel and Nickel trimmings, it is unusually BEAUTIFUL.

We Strongly Recommend This  
Range Because—

- 1—It is built with 90 years' experience—every feature that has proven practical included.
- 2—It is so attractive, so well balanced, so compact and convenient.
- 3—It has such large capacity for cooking and baking, THREE ovens and EIGHT Cooking holes for Coal and Gas.
- 4—Its Coal section and Gas sections are entirely separate so that BOTH do perfect work.
- 5—Every person to whom we have sold this range is highly pleased with it, and very proud of it.
- 6—Because it is built for lifetime service, and we install it in your home and guarantee it in every way.

## LIGHTING FIXTURES

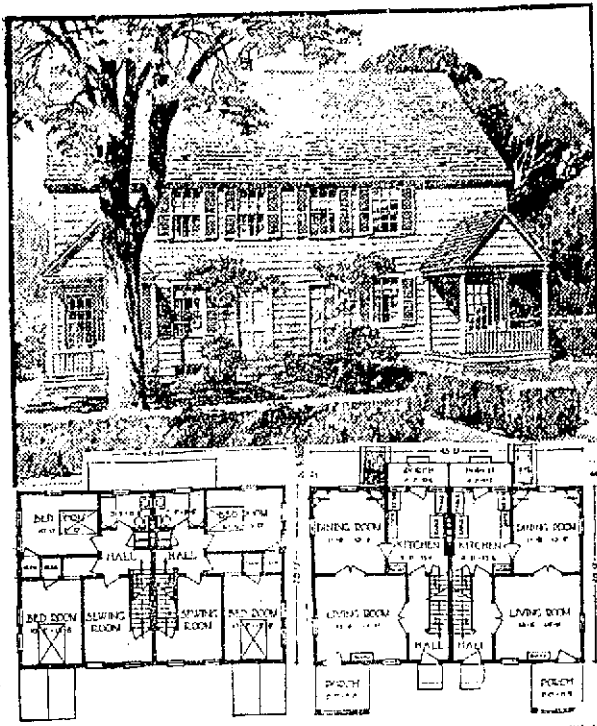

We have everything in lighting fixtures, both electric and gas. You'll be surprised at the low estimates we can give you for attractive new fixtures for your home.

We want you to come and see our remarkable display of fixtures.

## Two-Family House Popular

Two-family houses are enjoying a rapid rise in popularity, one reason being that it is a "home that buys itself," for the rent from one apartment will produce income to repay the investment. At the same time the owner is enjoying his own home in the other apartment.

There are two different types of such houses: The two-family house, in which similar apartments are located side by side, and the duplex, where the apartments are up and down.

## Separate Entrances

Such a house may be just as attractive from the exterior as a single residence; but in general, more care has to be taken in the choice of a plan to insure this. Most people prefer a style having the general appearance of a single large house, yet which has separate entrances and porches.

The two-family type, pictured here, is a splendid example of Colonial architecture. Wide-siding, green blinds, 12-light windows, Colonial entrances and narrow cornices, carry out the refinement and simplicity characteristic of the best Colonial models.

The apartments on each side of the

house are identical, but reversed. Each entrance admits to a main stair hall, which is also directly accessible from the kitchen. French doors are used between the hall and living room and between living room and dining room.

## Basement Divided

Upstairs in each apartment there are two bedrooms and a slightly smaller sewing room, with bath-room, built-in linen case and medicine cabinet. There is a stair to the attic, which may be used by both tenants. The basement is divided into two, and each family has its own basement steps off the kitchen and under the main stair. Separate heating plants and laundry rooms are provided.

Built-in features make the interior attractive and convenient. There is a pair of corner china closets in the dining room, kitchen dresser and worktable, linen case and medicine cabinet.

The overall dimensions of this house are 45 feet by 25 feet, so that only a fair-sized lot is required. Yet each apartment contains all the necessities and many of the luxuries of a modern five-room house.

## GALLAGHER WIRES SCORES OF LOWELL HOMES

On many of the new dwelling houses being erected in the city, one may see this sign: "Electrical Work by Gallagher." The builder of the house knows that this sign means good work, fair prices and expert workmanship. Gallagher, electrical contractor, has his office and shop at 53 Humphrey street and truthfully says he has no downtown rentals to meet as a portion of his overhead expenses. Better prices to customers result.

Gallagher wires scores of homes every year and the fact that his business shows and maintains a steady and healthy growth bespeaks well of his ability and the character of his work.

Also, he deals extensively in fixtures, and in fact, is equipped and stocked to complete any electrical job offered.

## ATHERTON CO. FEATURES NOVEL PURCHASE PLAN

A very attractive exhibit at the exposition is that of the Atherton Furniture Co., occupying three floors. In the Chalfoux store. Because the Atherton Co. are manufacturers as well as dealers, it is possible for them to quote prices that are bound to stand up under the searchlight of comparison. An unusually liberal buying plan also is a feature of this company's business and officials on duty at the exposition will be only too glad to explain it to any person interested.

Joseph H. Martin, long associated with Chalfoux's, holds a responsible position with the Atherton Co. and because of his wide acquaintance with the city has proved a most valuable man in his place.

Furniture to suit all needs and pocketbooks is included in the large assortment on display on the three floors. In fact, it is one of the largest and most complete stocks to be found anywhere in this vicinity. The fact that huge truck loads of new furniture arrive almost daily is indisputable evidence of the company's success.

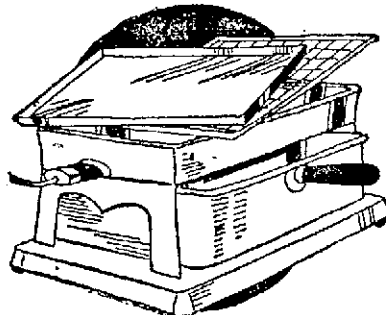

Many women who passed through the humdrum joyfully exclaimed at the attractiveness of the layout, but were forced into the use of superlatives when reaching the snow white kitchen. It struck a responsive chord.

## 30 YEARS OF SERVICE BEHIND JOHNSON CO.

The Thomas W. Johnson Co. has been engaged in the contracting business in Lowell for more than 30 years and now is operated by Tom, the father, and John and Hilda, the sons. They comprise a combination difficult to match and in the matter of business set a dizzy pace.

During this 30 years of activity the company has developed an organization that now moves with alacrity, smoothness and extreme efficiency and many of the present workmen connected with it have received their training from no other quarter.

John Johnson, the active manager of the company, has labored incessantly for the success of the exposition and his firm has given unstintingly of its time and material to this end. He is also a prime mover in the Contractors' association.

No company can successfully exist for 30 years without a reason and a good one, for competition is unrelenting and swift and one has to be "right" to stick in the game. The Johnson Co. has done just this thing, however, and enjoys an unquestionable reputation for fair and square dealing and splendid work. Any job, big or little, will be figured without charge for out of this opportunity to figure, many contracts result.

The Johnson Co. is equipped to undertake any type of construction work and has created scores of attractive residences in the city. In today's edition may be seen three beautiful Anderson street homes built by this concern and they are fine examples of the type of work turned out. In connection with the creation of the new club house at the Cooper Country club the Johnson Co. had the sub-contract of all the work which went into this splendid building.

## PROPER PLASTERING OF VITAL CONCERN

When a home builder decides to prepare a home for sale, for other business or for his own use, the first consideration that should be given into the keeping of Austin is the beauty and permanence of the plastering, and that is the work of plastering walls and ceilings.

Mr. Gallery and his men are regarded by the majority of the Lowell contractors as the best plasterers in the city. They are not only so in the public eye, but also in the eyes of the Lowell building community where he is a service of everyone at any time.

## CHARMING BEDROOMS

Wall Paper That Enables  
Exact Achievement of the  
Desired Effect

They are simply irresistible—bedrooms.

They are the innermost sanctuary of the house.

They are the rooms for confidences.

They are the rooms for dreams.

They are, of all rooms, nearest the heart.

What woman does not thrill with joy when she has the chance to "do over" a bedroom—perhaps a drab, boring room with no meaning or life or personality.

There are literally hundreds of delightful wall papers for her to choose from—for designers have excelled themselves for bedrooms. She can have exactly the kind of bedroom to suit her individuality—and a bedroom must suit, for late at night, when one is tired one does not wish to be jarred; and early in the morning it is tragic to be irritated.

There are sunny yellows that the grayest mornings in the world cannot discourage.

There are papers where flowers bloom so sweetly that the blackest winter morning can't be cheerless.

There are such quaint old patterns straight from revolutionary walls that even if a trolley jangles by outside it seems unreal and far away. And, if you are one of those people like the man who said he could bear "anybody but a person who smiles before breakfast"—there are quiet papers of dignified elegance that fit no matter what mood.

And what they all express is a deep peace that brings "innocent sleep, sleep that knits up the ravelled sleeve of care."

There was a time when people made bedroom papers with restless figures—birds that never alighted on flowers half an inch away from them—and other unsatisfying pictures that drove the one who had to lie in bed and watch them into a mild lunacy. And then the day of geometric figures—that one counted and counted going in all directions while one gradually went mad.

But those times are past—and the newer papers for bedrooms are restful, peaceful, quiet—papers that never annoy as one sees them day after day.

For the children's bedroom and the nursery there are the most fascinating papers. There is an all-over pattern where the figures represent toys—wooden houses, wide-eyed dolls, prancing horses, toy soldiers—conning figures to arouse the child's imagination and amuse him—lead him to "make up" stories about them for himself. And there are no end of absolutely delightful figures—each one a happy fairy story in itself. When these are placed about half way up the wall where the little child can easily see them, the nursery can never again be a friendless room. Or if the figure of the figure are large enough to be seen readily, place it under the ceiling, where the little one can watch them from his crib, and gently dream of them in those moments of sweet fancy between waking and sleeping.

MIRRORS AND MIRRORS  
AND MORE MIRRORS

In the furnishing of home, mirrors should be given a great deal of consideration. Many people hardly realize what wonderful things a properly placed mirror can do. If your room is just too narrow for anything, hang a mirror on one of its sides and to the effect. At once you will begin to widen out and the stuffy oppressiveness of the room's narrowness is gone. It sometimes will require a mirror of some size, of course, to accomplish so big a result as this, but even a smaller one will at least help.

If the lovely outlook from your window is too pretty to miss when one's face is turned the other way, hang a mirror opposite the window which can reflect at all times the favorite outlook. If doors are set too close together for good effect, hang a narrow panel mirror between them to break their lines. If the hallway is dark, a mirror or two will lighten things considerably. And what is a real drawing room without at least one magnificent mirror reaching to the ceiling and reflecting all the beauty of the room and the many happy events which take place therein?

One good mirror will give a better effect than several pictures of doubtful value. And to the woman of artistic skill the mirror's frame may give an opportunity to create something unusual and original in the way of decorating. An ordinary wooden frame may, with the use of sand paper and the right kind of paints, become the replica of an antique.

Cords and tassels are used a good deal today to hang the mirrors of colonial type. And candlesticks used in conjunction with mirrors are always delightful.

One can scarcely have too many mirrors in the home; and even in the small apartment there should be at least one cheval glass to insure the proper arrangement of the family's attire.

THE IRIS HAS MANY  
GLORIES OF ITS OWN

The possibilities of the iris is something to be reckoned with in the planting of the home flower garden. Not only for the ease with which one may obtain a lovely carpet of them, but for the variety of coloring which they possess.

From earliest May to mid-July they will give us the color brilliancy you may wish—lavender, yellow, white, rose, deep purple, bronze or claret color. From Tennessee come small crested irises, and California gives us a more delicate affair which does not grow so easily as the hardy variety so prevalent in our own New England swamps.

Even the slender gray and green blades of foliage make pretty clumps of color when flowering time is over. And by breaking apart the tube-like rhizomes and replanting them late in the summer you are assured of larger patches of gay coloring in the spring that is to come.

A maximum of color with very little effort is the prime practical asset of this hardy little plant.

Apart from their glory of coloring their intricate markings and wonderful textures necessitate close inspection in order to enjoy them to the fullest.

A clump of irises growing hard by a bush of lilacs, with a background of evergreens, is a combination "devoutly to be wished."

## FUEL SAVING CLAIMS BY VICTORY FURNACE

An opportunity to cut fuel bills 50 per cent is being offered homeowners of Lowell by William H. McElholm, Westford street plumber. Mr. McElholm is the authorized dealer in this district for the Williamson Heater Co. of Cincinnati, manufacturers of the Victory pipeless furnace and other

products known the world over for their economy and reliability. Now seems to be the time to purchase one of these Victory furnaces, for a most unusual sales offer is being made by Mr. McElholm, accompanied by a written guarantee of 75 degrees temperature in the coldest weather or money refunded. The sales plan allows a one-fifth payment at the time of installation and then 12 monthly payments beginning Sept. 1. It is pointed out that the Victory furnace will cost more money very shortly. A demonstration will be gladly given and it does not cost a penny to inspect this new heating plant.

## New Life Cleanliness!

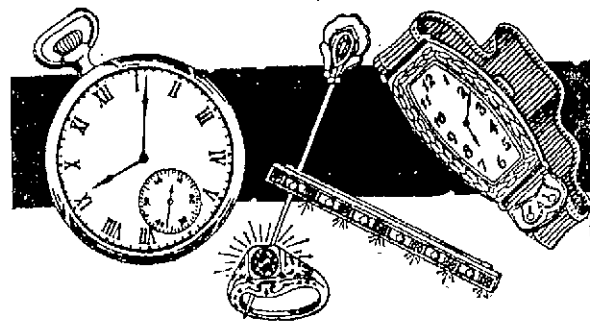

That's what Spring demands of the furnishings you're particular about. Blankets made fluffy. Comforters made downy. Small Rugs, Velours and Tapestries restored to their original color.

WARNING—High class cleansing is a complicated process. It can be done PROPERLY only by highly skilled people with costly machinery and equipment. Be careful in the selection of your cleaner.

## LARGEST ELECTRICAL SUPPLY HOUSE

The biggest local supply house for electrical fixtures is without doubt the New England Electrical Supply Co. with its two stores, both in central locations, one in Dutton street and the other in Central and Prescott streets. Here the home builder can obtain at reasonable prices anything or everything that will modernize a dwelling from wiring to the furnishing of artistic fixtures for lighting and appliances for cooking, heating, etc.

Henry Collins, the director of this business, is one of the city's real progressives and is noted for putting into practice every idea that will tend to give the customer better merchandise for less money. He has taken several European business trips to ascertain methods employed in electrical houses in England, Scotland and France.

In another part of today's Home Beautiful section is a full page advertisement prepared by Mr. Collins and containing many special offers in fixtures, in keeping with the home building programs planned by a great many people.

## FREDERICK F. MELOY A ROBERTSON CO. STANDS BUILDER OF HOMES ON ITS RECORD

Frederick F. Meloy, general contractor, is one of the nine builders who had a part in the conception and erection of the bungalow at the exposition. He has been engaged in the worth while occupation of building homes and industrial plants in Lowell for a number of years and is considered one of the foremost men in the city in this type of business.

He believes fully in the statement that the prospective home owner places his happiness in the hands of the man who builds it and fully realizes that the responsibility is the contractor's. It is this possession of a personal sense of responsibility and a reputation at stake that has contributed generously to Mr. Meloy's successful business career.

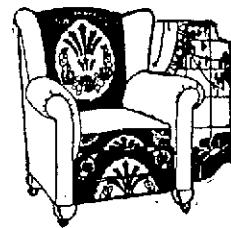

Contractor Meloy is equipped to do carpentry, brick or concrete work and careful estimates on all jobs are freely given at all times. One also may rest assured that a Meloy job will be done as economically as possible, with the thought always in mind that the home builder is the man who is paying the bills and deserves and demands

The Robertson Furniture Co. long has been associated with thoughts of the best there is to be had in house furnishings. Pride in the character of goods sold, prompt service, a willingness to allow people to shop in the store as they will and an anxiety to please are some of this company's attributes.

Not only is the Robertson Co. a representative concern, but its establishment in the city came many years ago and upon the foundation laid at that time has been built a business of extensive proportions.

This week, in connection with the Home Beautiful exposition, the Robertson Co. has made special offers in bedding, draperies and gifts. A year or two ago the Robertson Co. opened a gift shop at its Prescott street store and this feature has become one of the most attractive departments of the business.

practical service in return for his expenditure. Mr. Meloy's office is 621 Wyman's Exchange.

## The People That Live In It Make "The Home Beautiful"

Not only will there be harmony in personal intercourse, but there will be harmony in their surroundings. The furnishings, the carpets, even the kitchen, will be made beautiful with the most beautiful cooking apparatus manufactured—a Crawford Combination Gas and Coal Range (either in smooth black castings or enamel), which gives good health with perfect cooking that is essential to happiness. The dining room, with a tasty American Black Walnut or a Maliogany Dining Room Suite, will make their meals more enjoyable. The living room will be fitted up with comfortable chairs that induce relaxation of nerve tension which the daily tasks bring and lead to pleasant thoughts and conversation. The piazza will be screened with Acrolux Porch Screens, that insure privacy, even outdoors. The bed room will be fitted with a Period Suite that denotes elegance and the spring and mattress will be so comfortable that they will give healthy repose at the end of a perfect day. And all these furnishings and perfect satisfaction can be had at

## BUILDING LOCOMOTIVES E. W. DOUGLAS OFFERS YEARS OF EXPERIENCE

Interesting Talk by a Pioneer  
of the Locomotive Industry in Lowell

Edwin R. Clark, a pioneer of the locomotive industry in this city, addressed the members of the Lowell Historical society at the quarterly meeting of the organization, held last night in Memorial building on "Early Locomotive Building in Lowell." This industry at one time a big factor among New England enterprises, was described in an interesting and entertaining manner, by the speaker, who did much to establish the Boston and Lowell railroad and the Lowell Machine shop.

President Alfred P. Sawyer presided. It was reported that several towns had donated valuable collections of records and historical data to the society. Members present expressed a hope that efforts to add to these treasures would be made by the town committee. Arthur C. Pollard, a charter member of the society, was unanimously chosen to represent the society at a conference of delegates to discuss tablets and inscriptions of all World war heroes in the Auditorium. Edward S. Sherman was elected to membership by the executive committee.

The summary of Mr. Clark's talk is as follows:  
The first start in forming a railroad for general traffic in the United States was taken by the Baltimore & Ohio railroad in 1827, said the speaker. The road, however, was not open for business until three years later. The proprietors of the Manchester & Liverpool railroad appeared before the English parliament in 1825, facing much opposition to their plans for a road, but finally getting the necessary permission. The possibilities of the steam locomotive were appreciated early in the 19th century but as a commercial enterprise steam tractive power was used only in the coal mines of England where it was meeting with indifferent success. It developed low speed and the maintenance costs were excessive.

George Stephenson, a man of humble birth revolutionized the industry with a machine possessing greater flexibility and power than any other heretofore shown. In 1816, Stephenson's type of engine with four drive-wheels and others has been followed by engine builders down through every stage of this industry. His type was adopted by the Locks and Canal company of Lowell. The value of the locomotive began to be appreciated and in 1830 the first Stephenson engine was imported into this country. Matthias Baldwin, one of the pioneer engine builders of America, made a minute study of this first imported John Bull, for detail in building his first engines. Highways were insufficient for the conveyance of the heavy loads and the canals were too slow for the demands of increasing commerce. The locomotive industry which started simultaneously in England and America, apparently filled the need of commerce. Naturally a number of organizations came into existence and the demand for equipment was enormous.

the Douglas motto and this means only one thing—a personal responsibility on the part of the contractor to see to it that the home under construction has put into it everything that will tend to make it a comfortable place in which to live and enjoy the happiness which comes with family life.

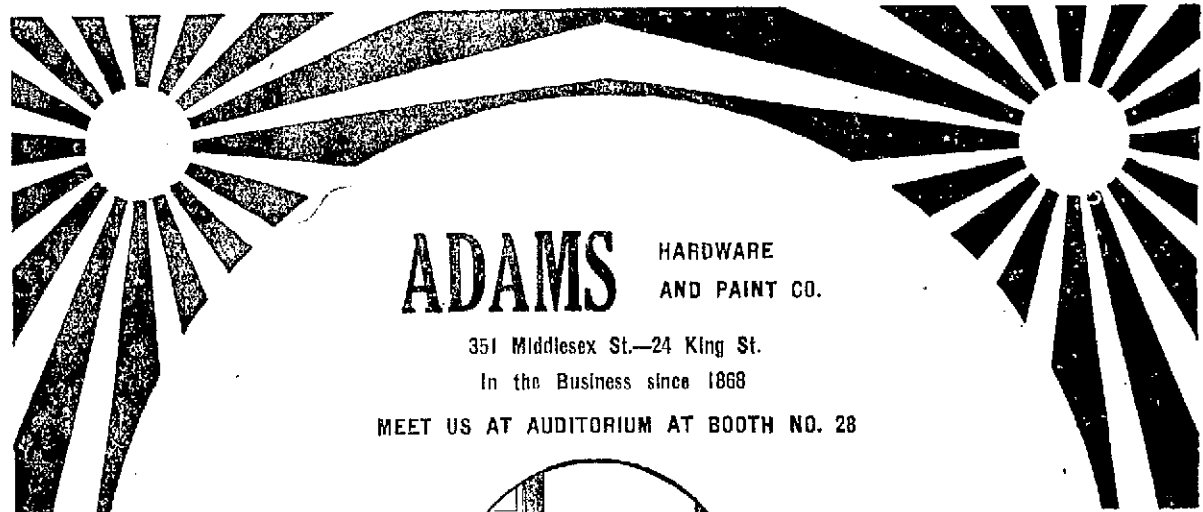

If you are planning a new home, a business building or an industrial structure, E. W. Douglas will place his experience and resources at your disposal.

## Six-Room English Bungalow

The light spring of the roof at the eaves, the substantial chimneys and the casements are characteristically English touches on this six-room bungalow. Besides the large living porch, under the main roof there is a small entry porch opening off the hall so that it is conveniently reached from each of the three bedrooms.

A lot at least 55x60 is needed, whether the porch or the stoop is used for frontage. The living room, dining room, living porch and kitchen are all at the front, and should be the sunniest side.

One enters the living room directly. There is a hearth in one corner. Near it a glazed door leads to the porch. Old-Fashioned Cupboards

At the right, as one enters the room, are French doors leading to the dining room. Like the living room, the dining room has a group of three casements toward the front. A pair of corner china closets give an additional charm to this cheerful place. It is interesting to know that although these are machine-made, and so-called "stock" items, obtainable at reasonable cost their design is an exact reproduction of a pair of fine old corner cupboards that are now in the Metropolitan Museum of Art.

The little kitchen is fairly lined with built-in conveniences. In the adjoining rear entry is a broom closet, a nook for the refrigerator, and the basement steps, so that the kitchen is spared much tracking and confusion.

## Cross-Ventilation

The sleeping quarters are so arranged that they can be isolated from the rest of the house entirely. The bedrooms are what most housewives would characterize as "just right" in size—neither too large so as to be wasteful of space and labor, nor too small, so as to be crowded. Two of

Curtis Service Bureau, Clinton, Ia., estimate the cost of this home at \$3185. This includes heating, wiring and plumbing, but it may vary slightly in different localities.

them have cross-ventilation. In fact, the largest of the three has casements on three sides.

Cross-ventilation might be secured

ADAMS CO. A FIXTURE  
IN CITY BUSINESS

Situated in the very heart of a busy mercantile and manufacturing district the Adams Hardware Co. in Middlesex street never fails to administer properly to the needs of its customers. Following a disastrous fire several years ago the Adams company moved diagonally across the street and now is splendidly located in the Burgess-Lang building.

The Adams Co. prides itself upon its stock of mechanics' tools, light and heavy building hardware and farming implements and adequately fills the demands of a large and exacting trading personnel.

The president and treasurer of the company is George H. Bonels, who gives the business a great deal of personal attention and sees to it that his firm maintains a full line of standard goods at the lowest market prices. The store also specializes in paints, oils and varnishes.

THE VALUE AND USE OF  
GAS IN THE HOME

It is difficult to estimate the value or part that gas plays in a home, but at the Home Beautiful exposition, the Lowell Gas Light Co. will demonstrate some of the many modern appliances that tend to lighten household burdens and will show the correct way to adjust burners and read meters.

Several years ago the Gas Co. found its appliance business demanded more sales space and a downtown store in Merrimack street was the result. Practically all of the features shown included in the exposition exhibit, with company demonstrators on hand to give intimate advice concerning the proper use of all of them.

The Gas Co. exhibit at the show is situated on the stage just in back of the bungalow and persons passing through the bungalow must necessarily go through the space set aside for gas fixtures while en route to library hall and the furnished rooms. A feature of the Gas Co. exhibit is a miniature home, completely furnished and, of course, equipped with gas. Miniature gas appliances are also part of its equipment and the entire display will attract much attention.

NO WORTH TO HOME  
WITH POOR PLUMBING

A home without up to date plumbing and modern fixtures is of little value either from the standpoint of investment or comfort. One of the best equipped plumbing shops in the city is that of the J. W. Stewart Co. in Bridge street and its exhibit at the exposition shows many of the articles this firm carries in stock for a particular trade.

J. W. Stewart is active in the affairs of the Lowell Contractors' association and at present holds the office of secretary.

## SAFETY FOR MINERS

ASSPATRIA, Eng., May 10.—Danger of explosions in mines may be entirely eliminated in the invention of a miner, here, proves successful. It consists of a liquid which, when sprayed, purifies the air and renders mine explosions almost impossible.

## CHILDREN BY LOTTERY

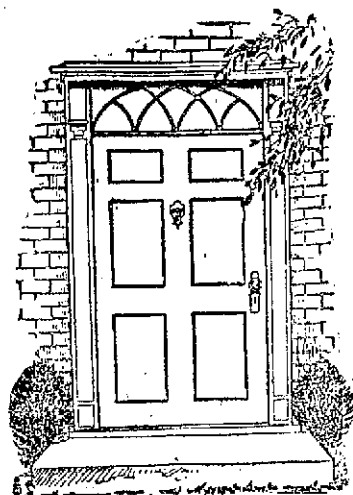

PARIS, France, May 10.—France is offering lottery tickets free to parents of seven children or more. If a lucky couple happens to win a big prize, however, they must get two more children before they win another free lottery ticket.

## ALL COMFORTS OF HOME

CLEVELAND, Eng., May 10.—A sparrow's nest here was found to have been built from the following: An old railway ticket, stamp, safety pin, piece of pencil, finger of a glove, half a cigaret, small buckle and nearly half a yard of bandage.

## CHALLENGE ACCEPTED

PRESTON, Eng., May 10.—Police here are happy over their capture of a woman whom they charge with having stolen a photograph record. Their joy is due to the fact that they accepted her challenge and won. The record was entitled, "Catch Me If You Can."

### BEAUTIFUL DISPLAY OF BON MARCHE CO.

The Bon Marche Co. stands out prominently in the minds of all Lowell

people that it is hardly necessary, or is it possible to add here very much that already is not known about this splendid department store. Merchandise of universally high grade may always be found on the store counters, ready to be shown and sold by a corps of efficient clerks.

The rare beauty of the window displays which now are a distinct feature in connection with this store are somewhat reflected in the appearance of the company's exhibit at the exposition. It is located at the north end of Trophy hall and is so constructed and put together that it attracts and holds the eye immediately. Delicate hangings form an exotic background and four cast-stone lions guard the entrance. While the exhibit does not intend to show the vast and varied stock of the store, it is symbolic of the distinction which marks it and

Although the Bon Marche store long has been recognized as a stable Lowell institution and a credit to the city, its expansion in recent years has placed it upon a cosmopolitan plane until today it stands side by side with many stores located in cities of a size considerably larger than ours. Additional floor space has been added, old construction and arrangements of merchandise have been done away with and in their stead have come most modern appliances, spacious floors and magnificent display windows. It is not to be wondered at, therefore, that the attractive exhibit which bears the Bon Marche name at the exposition, is one of the most prominent of the 55 booths occupied.

### HOUSE PAINTING MUST BE CAREFULLY DONE

When the E. C. Pearson Co. Inc. recently purchased the business of Dwyer & Co. in Appleton street, a well established and reliable painting and decorating concern moved down town from its previous location in upper Westford street. With the rapid expansion of the Pearson business, however, it seemed only natural that this well known company should eventually seek a more central location.

The Pearson Co. today employs more painters than any other similar firm in the city and is equipped for any type of job—large or big—and with none too large or none too small. The company, headed by Emil C. Pearson himself, takes justifiable pride in prompt service and work well done. House painting, interior decorating and paper hanging equally are popular in this company's business activities.

The Pearson Co. is peculiarly in a position to give intelligent consideration to house decorating problems, inasmuch as Mr. Pearson now is a member of the Highland Realty Association, builders of modern, attractive homes with present construction activities in the Highlands.

### HILL CO. LIVE WIRE IN ELECTRICAL FIELD

Perhaps no electrical firm in Lowell has enjoyed so much prosperity than that which is enjoyed by the George A. Hill Co. located in Middlesex street, opposite the household appliances of the electrical sort and house wiring. Moreover, too, Mr. Hill has introduced and now carries a complete line of radio apparatus, without which no home is beautiful, really complete these days.

The Hill Co. is at the exposition will prove a great asset for all persons interested in the rapid advancement of electricity in home use, both from the standpoint of artistic beauty and efficiency and comfort. And Mr. Hill will be only too glad to give you an idea of cost if house wiring is being contemplated. One of his salesmen has been gained by a recent collection of business and pleasure men in the work of a day. He feels a satisfied customer in everything in connection with home electric advancement.

### Painting and Decorating

Painting and Decorating cannot be postponed without the resulting deterioration costing you more than the paint. Deprive wood of its paint protection and it soon becomes worthless. Well painted lumber never rots, or grows old, decay starts at the surface. "Save the Surface and you Save All."

Give us an opportunity to do your painting and decorating on this basis; honest work with the best materials at the lowest cost to you.

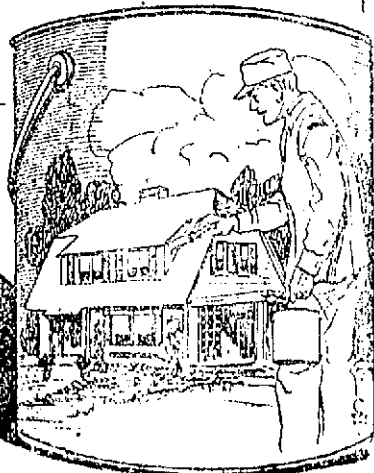

There will be no shuffling or using substitutes. You will want a pure lead and oil job, of course, and we will use strictly pure white lead and pure thinners.

While the chief object in painting is protection, a good deal of thought should be given to the color scheme. You want colors that harmonize with the surroundings of your home, and that will not fade or wash out, even with the weather.

Some property owners look forward to painting as a messy, bothersome job. If you give the work to us we will do it in a workmanlike manner and no inconvenience to you. We like to have our customers say to their friends, "We hardly knew they were here."

Plan now to get a permanently satisfactory job of painting. An estimate of your needs will be given cheerfully and without charge.

## JUST TOUCH A BUTTON IF YOU WANT SERVICE

Electrically speaking is there anything more in the way of time saving devices which could be invented for the home? It doesn't seem that there is. One almost lives by merely pressing a button. "Let electricity be your servant" is the slogan today.

How long ago and like the Dark Ages seem the days when electric appliances were never even thought of!

We cannot help wondering how people existed at all.

Almost superhuman seem some of the electric things of nowadays. Electric hollerettes stand like sentinels of magic right at hand to give us boiling water at any moment we may wish; electric washing machines solve a big part of the never-ending question of servants; electric fans make the atmosphere a livable one; at the touch of a button one may have a log fire blazing in the grate or a lighted stove in any corner of the home where needed most. Many breakfasts and even more elaborate meals are today electrical ones; toasters brown the bread

to a perfect degree; waffle-irons turn out waffles crispier and more delicious than even the southern cooks could produce; coffee percolators brew a breakfast drink to suit the most fastidious connoisseur; chops are broiled to a turn and omelettes bake many delightful dishes—all by the mere touching of a button.

For the sick and convalescent there are many electrical appliances to increase their comfort, and one may even curl one's hair and become otherwise beautiful by the use of various electrical wizards.

House-cleaning time becomes almost a joke where the vacuum cleaners are

brought into play, even the radiators; paraded there in summer time.

Each room of the house has some special electric device suited to its needs. The big drawing-room, with its handsome period furniture, may have lamps and candelabra to accord with the furniture's style; the homey living-room may be equipped with many handy side-lights for reading and for every spot where they will be most useful; many electrical devices make the nursery a more comfortable place for the children, and even the porch may be so electrically wired and equipped that many delightful meals may be

attractively served there in summer time. A regular little army of electric servants await one's bidding and through the means of electricity one may even wind one's clock—though not put out the cat!

with the subject of interior decoration in Lowell. The Chase Wall Paper Co. now is the Lowell Wall Paper Co., but it still is Chase controlled, the active manager being Mrs. Dorothy Morse Chase. The paper on the walls of the beautiful bungalow at the exposition is Chase-laid, by experienced hangers who pride themselves in artistic work.

The Lowell Wall Paper Co. has gone beyond the usual scope of wall paper concerns and now is particularly interested in the beautifying of home interiors, both by attractive papers and hangings and its stock for selection is cheerfully given.

the largest in the city. It often has been said, and truly that wall papers "make" a room. Wall decoration in keeping with the finish and intelligently selected in reference to prevailing light from outside makes all the difference in the world and this is a problem the Chase Co. is well able to solve for the man or woman who seeks to beautify the interior of a home.

It may be that active participation in the business by Mrs. Chase has lent a great measure of its present success, for her ideas as to decorative schemes freely are sought, and as

# Cupidless College Rouses Co-Eds Who Protest No Marriage Rule at Syracuse

HELEN CROCKETT

FRANCES PROCTOR

MARGARET DAVIS

VIRGINIA WALKER

WINONA ENGLISH

(By N. E. A. Service)  
SYRACUSE, N. Y., May 10.—Cupid has been ousted from college. With him go all Syracuse university undergraduates who marry.

It's the dictate of Chancellor Chas. W. Flint.

"Marriage," he says, "will automatically cancel a student's enrollment and all of his other connections with the university."

The order is received with a shrug of the shoulder and a knowing smile by the students who ask:

"Who follow a professor's advice on love?"

"We'll do as our heart—not our chancellor—dictates."

Few take the order seriously, although the chancellor says the new regulation will be rigidly enforced, and that no exceptions will be made to the rule.

"Matrimony," says Miss Winona English of Rochester, N. Y., a senior at the university and one of the most popular students on the campus, "is a pretty big thing to regulate by man date."

"An order prohibiting students from marrying while they are in college will only work to increase the number of secret marriages. Regulation will foster deception on the part of those who wish to marry, and will not bring about the desired results of decreasing marriage and improving scholarship."

Most of the other students hold similar views.

"It's an infringement upon the personal liberties of a person," says Miss Margaret "Peggy" Davis of Scranton, Pa., a junior student prominent in dramatics, "to dictate when he or she

shall become married either in college or not. I know that I shall not get married during the next year, but yet I don't feel that I must remain unmarried because of a college official's order."

Miss Frances Proctor of North Port, Long Island, a sophomore interested in various university journalistic activities, is just as emphatic.

"Love," she says, "cannot be controlled by rules and regulations. Girls and boys are just bound to get married when the time comes, order or no order."

"They will have to settle in their own minds whether they care about getting married more than they do about attending Syracuse university, and—love usually wins."

When Miss Virginia Walker of Concordville, N. J., a student in the Fine Arts department, was asked for her views she exclaimed:

"I feel just as though I were going to be expelled from college."

She refused to admit whether she was married, engaged, or about to be "student," she said, "are going to marry if they want to. They just can't help it."

"Marriage is higher than regulation. Perhaps Chancellor Flint is right in trying to prevent hasty marriages, but I don't believe he can control such things by written order."

Helen Crockett of Oneida, N. Y., a junior in the College of Home Economics and one of the editors of The Daily Orange student newspaper, is of the same mind.

"College students," she says, "are just as human as other groups in society. When they want to get married, they aren't going to consider a

regulation ordering them not to marry. When people, students or non-students, become serious on that question, there is only one thing that they are going to do—marry."

## A J. L. DOUGLAS ROOF PRECLUDES REGRETS

An excellent sample of the work done by J. L. Douglas Co. roofs may be seen on the bungalow which features the exhibition display. Just as much care was taken and just as good workmanship was employed in this job as if it were upon a house situated in the city's best residential district.

That is the way the J. L. Douglas Co. does things, for it is a firm noted for its thoroughness and excellence of products used. For years the company has been located in Brock street, where it has on hand a great variety of roofing materials.

The Douglas Co. fully realizes the importance attached to a job of roofing. It must be tight, or extensive damage to the interior may result and it must be of lasting construction. To attain both these ends the firm's workmen have been thoroughly schooled in the art of good roofing and the results of this application and insistence upon correctness of detail find reflection in the daily reports received from contractors.

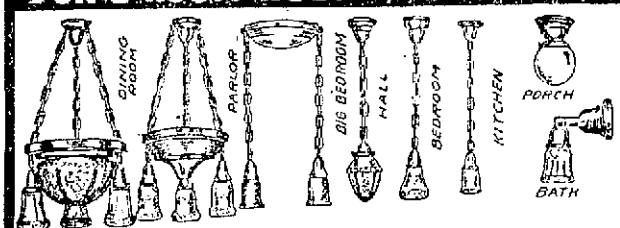

In its booth at the exposition the

Douglas Co. will have many types of roofing materials on display and members of the firm will be on duty to explain the good qualities of all of them.

The best in pictures and works of art, proper embellishments for any home, may be found portrayed plain the good qualities of all of them.

### GALLAGHER FOR ELECTRIC LIGHTS AND POWER

Picture Shop, a well known local firm of many years of business success as a foundation to its present success. Not only does this store carry a particularly fine grade of reproductions of the best masters, but it always has specialized in picture framing and for this purpose, conducts a splendidly equipped workshop in connection with its Middle street store.

For many years the Maker business was located in Shattuck street, but bank expansion made a change necessary and the result was a new location, in a busy row of stores just round the corner from Palmer street.

Another accomplishment of this store is its wide experience in the framing of diplomas and annually it is called upon to do the major portion of it in the city.

Why go to a Home Beautiful exposition in Boston when one is right at hand, containing every possible feature of the show in the larger city?

**BUNGALOW IN FOREGROUND**  
The view of the main auditorium as one steps in from the circular corridor is most attractive, with the bungalow on the stage as the outstanding feature. It is doubtful if any event in the city's history ever had an attraction as unique as this completely furnished and truthfully constructed home. It is a tribute to the energy of Lowell contractors and their workmen.

**TROPHY HALL A GEM**  
Trophy hall makes a beautiful background for the exposition exhibits housed there. Particularly attractive is the showing of the Bon Marche Co., occupying the entire north end of the hall. Silk draperies and hangings have been used here with telling effect.

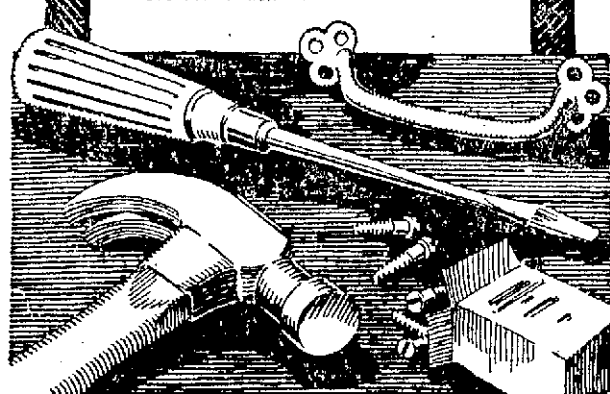

One may pass through Liberty hall and well believe he is within a sumptuously furnished suite of rooms. Several furniture dealers have pooled their resources here to transform this hall into a most attractive floor plan.

## The Right Place To Buy Hardware

Summer, no doubt, finds you—Mr. Home Owner—in need of many little odds and ends in the line of hardware. Handles for the screens, hinges, screws or perhaps a new hammer, a chisel or a screw-driver.

Then this is the right store to come to. No matter what your needs are, we can supply you.

## Attractive Five-Room Home

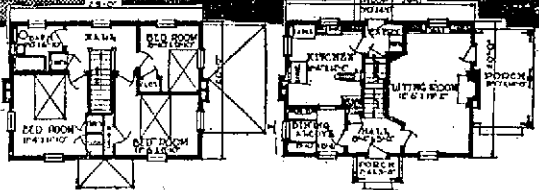

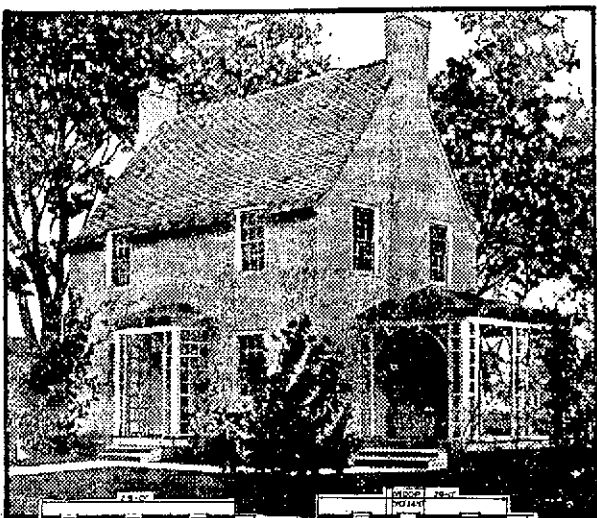

PHOTO AND PLANS, FURNISHED BY THE CURTIS SERVICE BUREAU, CLINTON, IA., FOR A FIVE-ROOM HOME.

linery materials are used in stock sizes. Even the woodwork is in stock designs that harmonize with the development of the whole building. Success is generally considered an economical matter for construction and requires almost no upkeep. Notice the plain outlines of the house and the roof. These considerations make for weather-tightness and economy.

### Paneled Wainscot

A vestibule and boxed stair increase the winter comfort and the year-round privacy of the house. The long living room occupies the right side of the house adjoining the porch. An outstanding feature of this room is its paneled wainscot of stained oak. This is a wall treatment that is not exorbitantly expensive and never needs replacement.

The living room cannot help being homelike, even when vacant, for it also has a roomful of bookcases and window seat, and a honey fireplace, opposite which is an interesting alcove on the inside wall.

### Light Kitchen

There is a large, light kitchen, with windows on two sides to keep it cool and free from odors and steam, and there is plenty of space for sink, range, dressers and work-table. Only a closed opening separates it from the dining alcove, where five people may be seated.

Upstairs, the three-corner bed-rooms are supplied with clothes closets, and one also has a built-in tray case, replacing a chiffonier in that room.

### MINIATURE COAL POCKET

The miniature coal pocket installed in the exhibit of the Horne Coal Co. is a novel feature. Herb Horne has just returned from the coal mining regions and knows all about the depths from which the black diamonds come.

### MUSIC IN THE AIR

Music from Steinbeck's and The Song Shop filled the air with harmony yesterday afternoon and evening and made a happy adjunct to the exposition. Many persons stopped to listen and enjoyed this feature thoroughly.

## THOMPSON HARDWARE MEETS EVERY TEST

Samuel H. Thompson, head of the Thompson Hardware Co., is one of Lowell's best known and influential citizens. For years he has been vitally interested in the city's prosperity and advancement and in many ways has assisted it along the highway of successful achievement and favorable reputation.

This personality Mr. Thompson infuses in his business and his own unflinching integrity certainly is reflected in the high measure of esteem and confidence in which his concern is held by the general buying public.

As everyone knows the Thompson Hardware Co., like the Bartlett & Dow concern, is a firmly established Lowell business house dealing in light and heavy hardware, retail and wholesale. Located in Merrimack street the store attracts thousands of persons interested in the construction of homes and a well varied and complete stock of goods is on hand for selection. Hardware, paints and oils, farming implements, furnishings for fire places and in fact, everything an up-to-date store of its kind ought to have on its floors and shelves may be found there.

The Thompson Co. has enjoyed a great measure of success in its sales of farming tools and implements and Mr. Thompson will make every effort to get any piece of agricultural machinery that does not happen to be in stock at a particular time.

The Thompson Co. display at the exposition holds something of interest to every visitor.

## DECORATIONS OF QUALITY FOR ALL OCCASIONS

Whether it relates to exterior or interior decoration, Charles F. Young will have a helpful suggestion to offer and is ready at all times to put such suggestions into actual operation if you wish him to. No one will gain say that Mr. Young is Lowell's leading decorator. His handiwork has been on exhibition so many, many times that many people now take it for granted that decorations for most any occasion came out of his work shop.

It was only natural then that Charles F. Young should be called upon to look after the decorations at the Home Beautiful exposition, which he has done with exceeding good taste and effect. He has the happy faculty of visualization, so necessary to successful decoration, and his display and inventory keeps his decorative scheme perfectly in harmony with an event.

On many occasions Mr. Young and his men have transformed the city streets into exciting lanes of riotous color and his interior decorative efforts have maintained the same high standard of design and propriety. Although Mr. Young has his booth at the exposition, his work will be before the viewing public for general inspection.

## Duplex Five-Room Home

CERTIS SERVICE BUREAU, CLINTON, ILL. HAS DESIGNED THIS DUPLEX HOME. PLANS BELOW SHOW FIRST FLOOR LAYOUT, RIGHT, SECOND FLOOR, LEFT.

This duplex home will appeal to many home-builders, because it has the appearance of a large single residence. A moderate amount of ground space is pooled and yet two comfortable, even luxurious, five-room apartments are provided for.

The exterior is in brick and tile for the first story, with half-timbers and stucco above. Clipped gables are an interesting feature. The steep chimney roof makes possible a splendid attic, which is equally accessible to both apartments and which may be finished off into extra rooms.

The arrangements of the stairs is a noteworthy feature. Besides the separate front stair leading to the second floor home, there is a hall at the rear which provides access with privacy for the occupants of both floors, from basement to attic. Notice, too, the privacy of the two living porches on the first floor.

**Little Difference**  
The plans are practically identical for each suite. The first floor has a coat closet off the entry and a closet near the bathroom, both of which are impractical on the second floor. The second floor living room has the dormer rather than casements to afford light from the second side. Casements are used through the building and are an essential factor in the excellent appearance of the building.

The sizes of the rooms are excellent. A fireplace in each living room is a feature that appeals to everyone, more especially since it is usually considered

dispensable in a duplex or two-family house. French doors are attractive between living room and dining room.

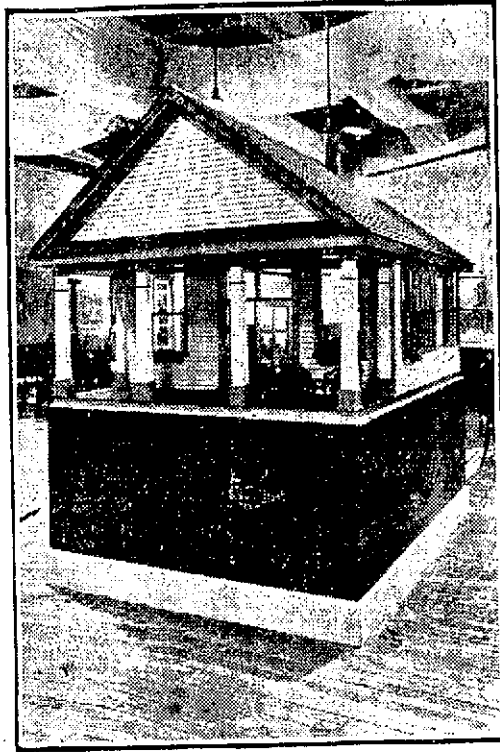

Housewife hearts can well rejoice at the compact square kitchen, with its abundance of built-in conveniences. Across one side of it are two kitchen dressers, with sink and drainboard between, under the casements. There are built-in shelves in the separate entry.

#### FURNITURE SHOULD ALWAYS BALANCE

The arrangement of your furniture depends upon conditions of room size, wall spaces, built-in features, your particular use for the piece and its intended position. For instance, cabinets, bookcases, large consoles, and commodes are wall pieces and so easterly corner arrangement is wrong. Similarly, daybeds, tables, desks must be against a right proportioned wall space or at right angles to it. These pieces, limited in placing, one should arrange first. Chairs one may generally arrange informally, though related to a group, but there are some wall chairs which must be placed against the wall. One should group furniture for conversation, reading, writing, depending upon one's habits. Light must come over the left shoulder for reading or writing, from the side or sides for dressing, and not in the eyes when sleeping. Something high must balance with something high.

**"You Can Do It Better With Gas"**

## A Most Interesting Gas Exhibit

We feel that the Home Beautiful Show is a real progressive step in the life of our fair city—made possible by foresight and hard work on the part of the Lowell Contractors' Association with the magnificent Auditorium as the centre of activity.

This company, as one of the integral parts in the construction of the Home Beautiful, is most pleased to lend its support to an exhibition that will do so much for the advancement of the home life of the City.

As the feature of the Gas Exhibit, which will occupy Rooms No. 54 and 55, there will be shown the remarkable

### Model Bungalow

with its Miniature Gas Appliances that created so much attention at the Home Beautiful Show in Boston the last two weeks.

There will also be a demonstration of the proper methods of using and adjusting gas burners; the correct way to read meters, and a display of the latest types of Gas Appliances.

In passing from the full-sized fully equipped Bungalow on the stage to the Exhibit of Furniture in Liberty Hall, you will of necessity pass through the rooms occupied by the Gas Exhibit.

Salespeople will be there to give expert advice on your Gas Appliances.

## Protect Forests To Save Future Business

Is Plea of Charles Lathrop Pack

A forest fire leaves a trail of waste. Look what otherwise might have been used to build some substantial houses. Inset is photo of Charles Lathrop Pack, president of the American Tree Association, one of the foremost leaders in the work of forest conservation.

(By N.E.A. Service)  
WASHINGTON, May 10—This, Forest Protection Week, is in reality Future Business Insurance Week, says Charles Lathrop Pack, president of the American Tree Association, who points out the tremendous importance to the business life of the country of having a steady flow of forest products going to our manufacturing centers.

"And that flow of forest products must originate closer to the centers of manufacturing," adds Pack, in a statement for The Sun on the importance of Forest Protection Week.

"Forest Protection Week as proclaimed by President Harding, serves to turn the attention of the people to one of the greatest economic problems now facing our country," says Pack. "The week might well be called Future Business Insurance Week for our entire economic life depends upon forest products."

"We Have the Land"

"We must have forest products close to the point of consumption and I might say close to the factory door. That situation is not impossible for there are eighty-one million acres of idle land in this country. It is far more than growing trees. Much of that land is east of the Mississippi river where the bulk of our manufacturing plants are established. That idle land must be put to work growing trees."

"The center of the lumber industry is fast approaching the Pacific coast. That means long hauls and high freight rates for forest products to keep our factories going. When I say factories I mean everything from automobiles to the making of egg crates."

"New York, New England, Pennsylvania, Michigan, once exporters of lumber and having enough for their own uses besides, are now importing forest products from distant points. We are using or destroy by fire every year fifty-six billion board feet of timber. The annual growth is at a rate of less than one-fourth this consumption and destruction. No private business can continue on that basis and neither can the business of the country as a whole."

Educating the People  
"The people are turning to tree planting as never before because of the educational campaign of the American Tree Association. We are educating the people to the value of tree as a method of preparing the groundwork for bigger things."

"When the senatorial forestry committee now holding hearings in Washington makes its report we will have millions of people more keenly interested in the subject of trees than ever before. They will be able to better understand the discussion that will follow the committee's report. When the people come to a better understanding of those things we will hear a nation-wide demand for increased forest protection and reforestation and not before."

### RARE JEWELRY DISPLAY AT HAMBLETT SHOPPE

Harriett W. Hamblett, for many years associated with the jewelry business, has a most attractive and charming shoppe in the Wyman's Exchange building, where she displays with rare good taste a wonderful collection of fine jewelry, diamonds and watches, also an extensive line of table silver both in sterling and high grade plate.

Welcome is the greeting to every gift seeker who enters her shoppe whether or not a purchase is made or even intended. The size and variety of her stock cannot fail to give valuable suggestions for many gift problems.

Miss Hamblett is an expert judge of diamonds and always gives to her customer the benefit of her advice and broad experience in this particular branch of her business.

During the Fashion Show at the House Beautiful tonight Miss Hamblett will loan the jewelry worn and displayed by the Cherry and Webb Co.'s models. Miss Beatrice Plimora who has direct charge of the fashion

### O'HEIR'S FURNITURE HAS DISTINCTIVE MARK

The O'Heir Furniture Co. in Third street claims its well stocked, well lighted and admirably laid out store constitutes a "Home Beautiful" day in and day out and while it has no exhibit at the show, it nevertheless is vitally interested in proper furnishings for Lowell homes.

The O'Heir Co. takes justifiable pride in its scale of prices and gives this feature of its business wide circulation through advertising channels. Many of its customers have been such for years and satisfaction given them reflects in the new business which continuously comes knocking at the door. Furniture for every room may be found in this store and a courteous sales force is ever ready to show stock at the shopper's convenience.

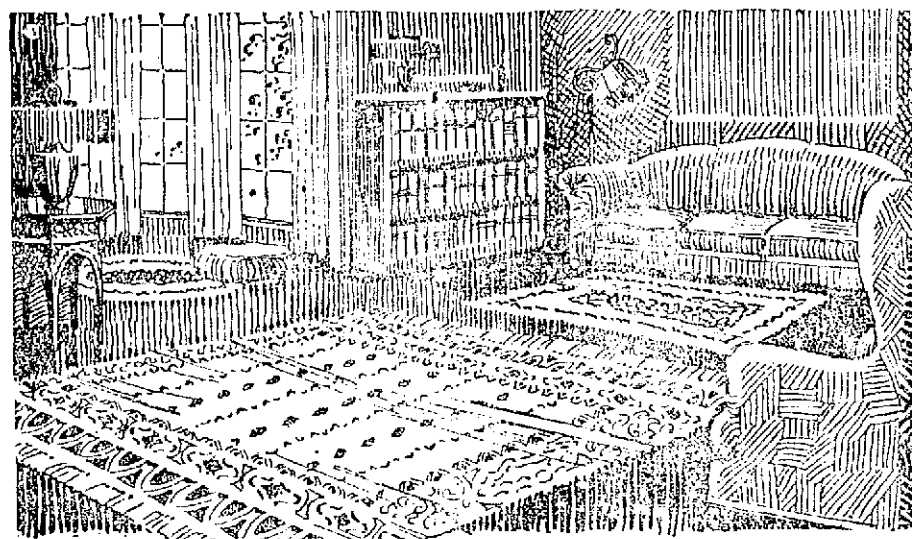

If a building boom gets under way in Lowell this summer, local contractors truthfully may say, "it pays to advertise."

show, will wear a very wonderful diamond and platinum necklace and bar pin valued at \$2000.

## VISIT ATHERTON'S BOOTH - - - - NUMBER 63 AT THE HOME BEAUTIFUL EXPOSITION

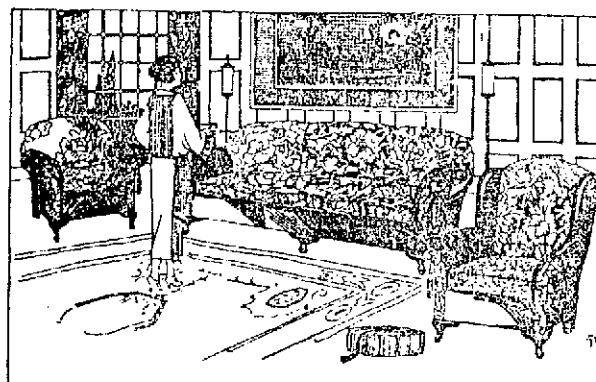

and visit Atherton's Store in Chalfoux Building. To help make the Exposition a complete success we are going to offer to the people of Lowell, for the entire week, many special values that will make it possible to realize your dreams of a better home. ## Ex-Federal Conciliator Dead

MIAMI, Fla., May 10.—John J. Walsh, 40, of Indianapolis, Ind., who served as a federal conciliator during the world war in the adjustment of labor differences, died here today of heart trouble.

## Unfilled Orders of Steel

NEW YORK, May 10.—Unfilled orders of the U. S. Steel Corporation on April 30, made public today, totalled 7,288,609 tons, a decrease of 114,823 tons under those at the end of the preceding month.

## Violation of the "Blue Sky" Laws

BOSTON, May 10.—The public utilities commission today cancelled the brokerage registration of the United Realty & Construction Service, Inc., of Lawrence, on the ground that its conduct of a brokerage business constituted a violation of the "blue sky" laws.

## DEATHS

**GELINAS**—Mrs. Josephine (Lajoie) Gelinas, widow of Emil Gelinas, died last night at her home, 770 Moody street, aged 68 years. She was a resident of Lowell for the past 32 years, and was well known in the Pawtucket section where she had resided for many years. She leaves three daughters, Mrs. Sister Gelinas of the Sisters of Providence of Montreal, Mrs. Sylvie Garon of Lowell and Miss Alice Gelinas, also of this city; two sons, Henri Gelinas of Lowell and Hector Gelinas of Newmarket, N. H.; three sisters, Mrs. Edward Perron of Montreal, Mrs. Maxine Ballew of Wild Rice, N. D., and Mrs. Isale Brunelle of Fargo, N. D. and one brother, Hector Lajoie of Fargo, N. D. She was a member of St. Anne's sodality of St. Jean d'Acre church.

**KEYES**—John A. Keyes died yesterday at Sacred Lake, N. Y. He died after a long illness for about a year. As a boy he attended St. Patrick's school and later graduated from the Lowell high school. For the past 12 years he had been connected with the Garden City hotel in New York city. He leaves his wife, Alice Keyes of Sacred Lake, N. Y.; his mother, Mrs. Winnifred Keyes of Lowell; a brother, Henry Keyes of this city, and two sisters, Mrs. Theodore Lester of Providence, R. I., and Mrs. Thomas Sheehy of Lowell. The body will be brought to Lowell and taken to the home of his sister at 21 Edison st.

**DEHABRAHAMIAN**—Levon Dehbrahamian, a student of the Colburn school died this morning at St. John's hospital, aged 14 years. Deceased was playing baseball with schoolmates when in some manner received an injury to his leg. Boy-like he refrained from informing his parents of the injury until too late. He is survived by his parents whose home is at 83 Lawrence street, two sisters and two brothers. His body was taken to the funeral home of Undertakers James P. O'Donnell & Sons.

**EMERY**—George S. Emery died Tuesday in Bethel, Vt., aged 60 years, 8 months and 16 days. He is survived by his wife, Dorcas A. Emery, two daughters, Mrs. M. F. Winslow of Ocean Park, Calif., and four sisters, one brother and eight grandchildren. Mr. Emery was a past commander of Admiral Farragut camp, 78, Sons of Veterans, of this city.

**POMERLEAU**—Mrs. Georgianna (Durand) Pomerleau, wife of Albert Pomerleau, died last night at the home of Miss Rose Duquette, 88 Salem st., aged 83 years. Besides her husband she leaves three brothers, Arthur, Irene and Edward Durand, all of Canada. The body was taken to her home, 134 Colburn street, by Undertakers Napoleon Bilelean & Son.

**HIGSON**—Joseph Higson, a resident of North Billerica for many years, died last night at Northboro, aged 78 years. He leaves two daughters, Mrs. M. H. Warner of Northboro and Mrs. Arthur Swartz of North Billerica, and two sons, Joseph Higson, Jr. of North Billerica and Charles Higson of Denver, Col. The body will be brought to the home of his daughter in North Billerica.

**GOMES**—Manuel Gomes, son of Mr. and Mrs. John Gomes, died yesterday at the home of his parents, 21 Bradford street, aged 1 year, 8 months and 1 day.

## FUNERAL NOTICES

**GELINAS**—The funeral of Mrs. Josephine (Lajoie) Gelinas will take place Saturday morning at 9 o'clock from her home, 770 Moody street. Solemn high funeral mass will be sung in St. Jean d'Acre church at 9 o'clock. Friends are invited to attend. Burial will be in the family lot in St. Joseph's cemetery. Arrangements in charge of Funeral Director Joseph Albert.

## FUNERALS

**MEDINA**—The funeral of John Davis Medina took place this morning at 8 o'clock from his late home, 9 Cherry street, and was largely attended by sorrowing relatives and friends. The funeral cortege proceeded to St. Anthony's church where, at 9 o'clock, a high mass was sung by Rev. John Perry. The choir under the direction of Miss Marie O'Donnell sang the Gregorian chant, the solos being sustained by Mrs. Evelyn Donnelly, Mrs. Nana Gallagher, Leahy, Mrs. Rose Ramon, Mrs. Wilkins and Charles Patton. Miss Marie O'Donnell presided at the organ. There was a profusion of beautiful floral offerings. The following delegation represented the Lowell Aerie No. 228 Fraternal Order of Eagles and also acted as bearers: Walter C. Osgood, Fred Laraway, George Lunderville and Antonio C. Picasso. Burial took place in St. Patrick's cemetery. The funeral arrangements were in charge of Undertakers M. H. McDonough Sons.

**PEARSON**—The funeral of John Pearson took place yesterday from Saunders funeral home, 27 Appleton street. Services were conducted at the grave in the Edson cemetery by Rev. P. E. Nordgren, pastor of the Swedish Lutheran church. The funeral arrangements were in charge of Undertaker William H. Saunders.

## CARD OF THANKS

We, the undersigned, wish to thank our relatives, friends and neighbors, who by their acts of kindness, words of sympathy, offerings of floral tributes and spiritual benedictions helped to lighten our sorrow in the death of our wife, daughter and sister, Loretta Dawson Vasey. To each and every one we are deeply grateful and will ever remember their kindness.

MR. FRANK L. VESEY and Family.  
MR. AND MRS. JOHN J. LANSON and Family.

## WILL ATTEND FUNERAL

The following delegation of city councilors, headed by Mayor Donovan, will officially represent the city at the funeral of Miss Sarah McGraw, a sister of Councilor Cosgrove, which will take place tomorrow morning at 7:15 o'clock from her home, 492 Gorham st. Chairman James J. Gallagher, John W. Daly, Frank K. Strauss, Fred A. Sandler and Arthur Genest.

## THE INFLUENCE OF THE PUBLIC DANCE HALL

Miss Susan Driscoll of Boston, secretary of the New England district of the International Policewomen's association, addressed a large gathering of social workers in a room at the Public Dance Hall at a place in the Community. She was introduced by Edmund J. Cheney, agent of the Massachusetts Bureau of Protection and spoke in part as follows:

"In the first seven weeks of my work in Boston," she said, "there were 1840 girls picked up on the Boston common, questioning soldiers at Camp Devens as to where they had met certain undesirable girls, we were told they picked them up in the public dance halls."

"I used to say to men who ran the dance halls that I could run one and enforce the regulations and make money. You must talk in terms of money to men who are running things for money. They will not listen otherwise. Some make money the right way, but will close their eyes when they are making it the wrong way."

"When I opened my dance hall there a young man and woman used to say that it would never go. I heard, but I managed to run my dance hall with the regulations enforced."

"In my experience, however, with the public dance hall, I will say that it is no place for the unprotected girl. You may go into the hall and all looks well, the dancing is being conducted all right and there are no improper positions. There will be nothing in the least wrong with the dance, but I will say that the real problem is not with the dance. The dancing you can see and you do not have to worry about what you can see. It is the things you cannot see that you need to worry about."

"You will hear talk of improper, indecent dancing, but that is not the real evil. Why don't you good women go to the dance hall, sit down and watch and see what is going on other than improper dancing?"

"I, too, wonder sometimes what is expected by proper supervision of the public dance hall—in what possible way it must be carried out. The floor director walks about. What do you expect him to do? Also, do you expect the ticket agent to turn away people when it means money to let them in? Is it reasonable to expect a man to get evidence who is paid by the man making the money or running the place?"

"Do not think the things causing the trouble can be supervised. The dance will look well, the music be very good, the young man may dance with a refined looking young woman and when he is in conversation with her in the dance hall will prove anything but what would be anticipated. It is the conversation in which much harm may be done. Then the little girl going to the dance hall will be told by her friends to go to the dance hall and have been boys and girls go out and have followed them and brought no such evidence. I trust you do not allow the poor system. But there are ways in which this law is overcome. The rule should be enforced that those entering the hall cannot leave until the dance is done."

"Another thing I urge for the protection of your little girl in the public dance hall is that of having women matrons, women who will keep proper supervision. Matrons who will meet the girls, go into their dressing rooms and generally overlook them."

"The regulation of not allowing girls under 17 years of age to enter a public dance hall should also be rigidly enforced. We should interfere ourselves in the work of prevention. We should seek to prevent the trouble arising in the first place. It is something in which a community and citizens should interest themselves. We should seek to protect the morals as well as the health. A healthy body with a corrupt mind is a serious matter. Such a one has a tendency to young with tuberculosis. The morals should be guarded in our young."

"In my experience, however, with the public dance hall, I will say that it is no place for the unprotected girl. You may go into the hall and all looks well, the dancing is being conducted all right and there are no improper positions. There will be nothing in the least wrong with the dance, but I will say that the real problem is not with the dance. The dancing you can see and you do not have to worry about what you can see. It is the things you cannot see that you need to worry about."

"You will hear talk of improper, indecent dancing, but that is not the real evil. Why don't you good women go to the dance hall, sit down and watch and see what is going on other than improper dancing?"

"I, too, wonder sometimes what is expected by proper supervision of the public dance hall—in what possible way it must be carried out. The floor director walks about. What do you expect him to do? Also, do you expect the ticket agent to turn away people when it means money to let them in? Is it reasonable to expect a man to get evidence who is paid by the man making the money or running the place?"

"Do not think the things causing the trouble can be supervised. The dance will look well, the music be very good, the young man may dance with a refined looking young woman and when he is in conversation with her in the dance hall will prove anything but what would be anticipated. It is the conversation in which much harm may be done. Then the little girl going to the dance hall will be told by her friends to go to the dance hall and have been boys and girls go out and have followed them and brought no such evidence. I trust you do not allow the poor system. But there are ways in which this law is overcome. The rule should be enforced that those entering the hall cannot leave until the dance is done."

There will be nothing in the least wrong with the dance, but I will say that the real problem is not with the dance. The dancing you can see and you do not have to worry about what you can see. It is the things you cannot see that you need to worry about."

Miss Susan Driscoll of Boston, secretary of the New England district of the International Policewomen's association, addressed a large gathering of social workers in a room at the Public Dance Hall at a place in the Community. She was introduced by Edmund J. Cheney, agent of the Massachusetts Bureau of Protection and spoke in part as follows:

"In the first seven weeks of my work in Boston," she said, "there were 1840 girls picked up on the Boston common, questioning soldiers at Camp Devens as to where they had met certain undesirable girls, we were told they picked them up in the public dance halls."

"I used to say to men who ran the dance halls that I could run one and enforce the regulations and make money. You must talk in terms of money to men who are running things for money. They will not listen otherwise. Some make money the right way, but will close their eyes when they are making it the wrong way."

"When I opened my dance hall there a young man and woman used to say that it would never go. I heard, but I managed to run my dance hall with the regulations enforced."

"In my experience, however, with the public dance hall, I will say that it is no place for the unprotected girl. You may go into the hall and all looks well, the dancing is being conducted all right and there are no improper positions. There will be nothing in the least wrong with the dance, but I will say that the real problem is not with the dance. The dancing you can see and you do not have to worry about what you can see. It is the things you cannot see that you need to worry about."

## Veteran Justice Gives Tanlac Credit For His Restoration

C.J. McARTHUR

"My sticking to Tanlac. I got what I was looking for—perfect health," says Cornelius J. McArthur, 55 Williams street, Cambridge, Mass., contractor and builder for the past 40 years. Mr. McArthur is also justice of the peace and one of the city's best known and most influential men.

"In 1913 I was operated on and afterwards had a long, tedious sickness from blood poisoning. I couldn't regain my strength or work for a long time. My appetite was gone, and was caused awful pain in my stomach and made breathing difficult. A bad taste, disagreeable breath, nervousness, headache, dizziness, backache, sharp pains around my heart, and other troubles too numerous to mention kept me in continual misery."

"There is nothing too good I can say for Tanlac and the Tanlac Vegetable Pills, for the combination has ended all my suffering and built me up 20 pounds besides. I'm now in the pink of condition and feel fine in every way."

Tanlac is for sale by all good druggists. Accept no substitute. Over 21 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.—Adv.

## DOAK MAKES APPEAL

Urges Business Men to Help R.R. Owners and Employees Put Roads on Feet

NEW YORK, May 10.—An appeal to American business men to help railroad owners and employees put the nation's transportation system back on its feet, was uttered before the chamber of commerce of the United States today by W. N. Doak, vice president of the Brotherhood of Railway Trainmen.

"Railroad labor does not favor federal ownership, control or operation of the lines," Mr. Doak asserted. "It is interested in seeing them successfully operated by private owners, and put on a sound financial basis, so that the worker will know he is secure in employment, that his wages will be fair, his conditions of employment wholesome, that he is secure in his opportunity to lay away something for sickness or old age."

"We are so much interested in the financial welfare of our transportation industry that we came to you with an appeal for business justice," he said. "Let us learn to live and let live, by being fair to capital, fair to labor, by being fair to ourselves. Be not deceived into the belief that we can starve the railroads, speculate in them to the dangerous degree, wreck their credits, pay inadequate wages to management and employees, and expect a healthy transportation system."

He said one reason rail unions did not want government ownership was because it would bring the total government payroll to 4,000,000, representing 20,000,000 persons. Thus, said Mr. Doak, each five persons in the country would be supporting one federal dependent, and "adding to an already overburdened profession."

Government regulation through commissions boards and committees was derided by the speaker. The railroads suffered, he said, and so did their employees.

Walter W. Head of Omaha, Neb., first vice president of the American Bankers' association, assured the chamber that the financial credit of American roads would be re-established by continued increasing efficiency of management and continued stability of regulation by the government and public opinion.

Walter W. Head of Omaha, Neb., first vice president of the American Bankers' association, assured the chamber that the financial credit of American roads would be re-established by continued increasing efficiency of management and continued stability of regulation by the government and public opinion.

## AMUSEMENT NOTES

### MERRIMACK SQUARE THEATRE

Only a few opportunities remain for Lowell photoplay lovers to see Douglas Fairbanks in "Robin Hood," now playing at the Merrimack Square theatre. This big classic attraction will run to a close Saturday. Hundreds of Lowell people have already witnessed it and have expressed their amazement at its lavishness, its realistic portrayal of the events related in the famous story and the wonderful acting of Fairbanks. Beginning next Sunday and continuing for four days the feature attraction at the Merrimack Square will be "Hunting Wild Animals in Africa," perhaps the most thrilling, hair-raising picture that has ever been brought to Lowell. It is now playing Boston at \$150 prices but will be shown at the Merrimack Square without any deviation from the regular admission schedule.

### LOWELL OPERA HOUSE

Capacity audiences are the rule at the Opera House this week and it isn't any wonder why. With a combination of some new faces and the voices of the usual popular members of the Al. Lutteringer's Lowell Stock Players and Guy Bolton's big Broadway success, "The Nightcap," it isn't any wonder that the management of this popular playhouse is enjoying its last reward.

Mr. Victor Browne, new leading man for Mr. Lutteringer, is displaying to Lowell theatregoers that he is a very capable leading man and one who can play almost any kind of role that may be assigned to him. In "The Nightcap" he plays a very difficult role, a combination of a very dramatic role, a comedy role, and he does it in such an capable manner that leaves no doubt in the minds of his audience that he is an actor in every sense of the word. Miss Olga Hanson, new leading word, Miss Olga Hanson, new leading word, Miss Olga Hanson, new leading word.

KIDNAPPED BOY ADOPTS DOG

Vernor Alexanderson, six, of Schenectady, N. Y., photographed shortly after he was found after being kidnapped. He has adopted the dog, shown here, which his abductors gave him to keep him quiet. Mrs. H. D. Grenell, 67, of Alexandria Bay, N. Y., shown here, says she was hired by the kidnapers as housekeeper for the boy but did not know the boy had been kidnapped.

## CHANGE OF LIFE LOSES TERRORS

For Women Who Rely upon  
Lydia E. Pinkham's Veget-  
table Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me. I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 55 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are sincere expressions from women who describe as best they can their feelings before and after taking this well-known medicine. Many times they state in their letters their willingness to answer women who write them. It is an offer dictated by gratitude and a desire to help others.

## SUMMARY OF EARLY MORNING A. P. NEWS

Albert Schlegel, convicted of sabotage by French court martial at Dusseldorf and sentenced to death, the first death penalty for sabotage since French entered the Ruhr, Dusseldorf advises say.

J. Ramsay MacDonald, leader of British labor party in house of commons, has declined a privy councillorship, London report asserts.

Correspondence read in the Daily Herald confirms impression that negotiated peace between Free State and republicans is impossible, at this time.

At least 15 men are killed in oil well explosion near Corsicana, Tex.

New York Episcopalians with Bishop Manning's counsel, adopt resolution asking Gov. Smith to avoid signing bill repealing state prohibition law.

Railroad shippers on several roads are demanding wage increases for an hourly rate of 30 cents instead of 26 cents, proposed advances involving at least \$50,000,000, the New York Herald declares.

New York Telephone Co. announces that work of \$11,000,000 new home will be postponed because of high building costs and \$30,000,000 in new construction in New York has been already halted this month, building trades employers declare.

## GIRL SCOUTS HOLD MOTHERS' NIGHT

A "Mother's night" was conducted Tuesday night by the members of Troop 6, Girl Scouts, the affair being in charge of Capt. Grace F. Stokham, and Lieut. Ellen McLeod. The affair was largely attended and proved very enjoyable. The program was as follows: Regular Scout opening by Troop 6; violin selections, Miss Doris Hanger, accompanied by Corporal R. Heaney; sketch, Patrol Leaders Stansfield and Miller; Corporals Stansfield and Heaney; Scouts Wyatt and Ringer; vocal selections, Patrol Leader Swanwick. There were also the presentation of second class badges to Scouts Swanwick, Miller, Heaney, Stansfield, Wyatt, Falcow and Ringer, the presentation being made by Miss Marion M. Hill, commissioner of Lowell Girl Scouts. The latter was presented a bouquet of flowers by Patrol Leader Swanwick as a mark of appreciation from the troop. At the close of the evening a social hour was enjoyed during which refreshments were served.

## FRATERNAL NEWS

Delector Elmer G. Willey occupied the chair at last evening's meeting of Lowell lodge, 613, Loyal order of Moose, which was held in Odd Fellows' building, Middlesex street. Several applications for membership were received and it was announced that plans for the big class initiation to be held May 28, were completed. It was stated that the 12th anniversary of the organization will be observed with a free concert and dance in Associate hall on the evening of May 17, and the following officers have been chosen for the event: Edward Goodson, general manager; Edgar S. Malloux, assistant; William Booth, floor director; Henry J. Paulan, assistant; Arthur H. Marble and Leo Cryan, chief aids.

Vice-President John Davies presided over the regular meeting of Lowell command, British Great War Veterans of America, which was held Tuesday in the Free church. The invitation of the Grand Army to participate in the Memorial day exercises was accepted and the following committees were appointed for the day: Comrades Chase, Dawson and Robinson, graves; Comrades Chase and Jackson, flag bearers; Comrades Fairbairn and Robinson, color bearers; Comrade Smith, aid to the chief marshal; Sgt. Major Dawson, officer in charge of parade. Routine business was transacted and at the close of the business session a social hour was enjoyed.

## BILLIARD CHAMPION MAY ISSUE CHALLENGE

By N. E. A. Service  
SPOKANE, Wash., May 8.—Imagine a champion of the ring proposing a match with a logical contender on a winner-take-all basis!

Yet this is exactly what Ralph Greenleaf, youthful pocket billiard champ, proposes to do when he recovers from the effects of the strenuous tour of the Pacific coast, which he has just completed. Repeated cries

of Frank Taberski, former pocket billiard champion, for a match are bearing fruit.

Greenleaf says he will make Taberski a proposition to play under practically any terms Taberski demands, save only that the play be on a winner-take-all basis.

"If Taberski is sincere, this winner-take-all proposition will interest him," says Greenleaf. "If he is merely talking, he will ignore it as he has ignored all previous attempts to bring about a meeting between us, and I will ignore him henceforth."

Greenleaf entertained hopes for a time this spring that he would be given the opportunity to settle the wall from Schenectady when Charles Kline, years old at the first defeat. Time has given the champion poise, confidence, and strengthened nerves; his play has

match the purse to be split any way the contestants desired. Greenleaf immediately accepted, but Taberski demurred, the champ says.

When Greenleaf puts the proposition this time, it will be up to Taberski to accept or "forever hold his peace," the former thinks.

The champion entertains no thought of defeat at the hands of Taberski or any other exponent of the pocket game, and his record does not make any other exponent of the pocket game, and his record does not make any other exponent of the pocket game, and his record does not make any other exponent of the pocket game.

improved and he is veteran of several tough campaigns.

The last meeting between Greenleaf and Taberski took place in 1917 at Wilmington, Del., and the 17-year-old youth emerged victor over the wily veteran. Since which time Greenleaf charged Taberski with studiously avoiding anything that looked like a meeting.

Greenleaf is only a slim boy now. His appearance at the table before a strange audience invariably draws comment as to his youth. Only the confidence that is the heritage of a champion distinguishes him from dozens of other youths in the billiard parlors where he plays. He shoots rapidly, calling a shot before his last one declares.

His marvelous control of the cue ball robs his play of much of the spectacular to the layman because he rarely shoots a "loose lay."

Greenleaf holds the tournament high run record with 106—a mark that has never been approached, and he holds the record in exhibition play with a string of 155. He is constantly improving his play.

It is highly improbable that Taberski will accept Greenleaf's proposition. If he does not, Greenleaf may turn a deaf ear to future walls from Schenectady.

King George is slightly indisposed as result of extreme heat in Rome and unaccustomed cooking, London Times declares.

# FRIDAY THE TREASURES OF WOMEN'S FINE APPAREL ASSEMBLED

FOR OUR ANNIVERSARY SALE WILL BE OPENED TO THE PUBLIC

It Will Be a Great and Useful Event—The Greatest We Ever Held in All Our 15 Years of Business.

THE UNITED CLOAK & SUIT CO. has come to have a definite good meaning to Lowell—A living, breathing institution, as the late Elbert Hubbard would say: "THE STORE WITH A SOUL"—with an object infinitely more significant than mere mercenary gain. The retrospection is gratifying. We find the original aims and ideals of this store the same today as at the beginning. Every day in every way we are getting nearer, drawing closer to our goal—Doing more—Giving more—Serving more. A most eminent and acknowledged fact is

THE UNITED CLOAK & SUIT CO. is actually UNDERSELLING the city with DEPENDABLE GARMENTS—That's why this store is sweeping ahead by leaps and bounds. Progressing every year, we have worked harder to make the realization come closer to our ideals—Building business—with WORTH-WHILE goods—SELLING AT EXTREMELY LOW PRICES—Friend making, rather than profit making is our main object of this great sale, and that means—THE GREATEST SELLING EVENT in the history of this store. I thank you—  
HARRY BASS.

PLAYS LEADING ROLE IN  
"THE WITCHING HOUR"

Miss Hilda Noonan, very prominently known in Lowell, especially in connection with amateur theatricals, is playing a leading role in "The Witching Hour," to be presented by the Lowell Knights of Columbus in the Opera House, on Monday evening, May 21.

Miss Noonan played with the Lowell Opera House stock company in the "Parish Priest," recently, and received high commendation for her dramatics. In "The Witching Hour" she plays Mrs. Helen Whipple, the mother of Clay Whipple, who accidentally murders a man and is sentenced to death. The interpretation of a mother's anguish and anxiety while her boy is being tried for murder, the joy of his

acquittal through her pleadings and ingenuity will be admirably portrayed by Miss Noonan. Then, besides the demonstration of a mother's love, Mrs. Whipple must also present an inward love and yearning throughout all her trouble for one Jack Brookfield, the leading man of the play, who will be William Thornton of the Lowell school department, from whom she had been unfortunately separated by an ill-matched marriage earlier in life. All in all she has many emotions and characteristics of a woman going through a critical time in her life to dramatize.

"The Witching Hour" is a four-act drama which has had a very cordial and enthusiastic reception on the stage, not only in this country but in Europe, written by Auguste Thomas. As presented by the Lowell Knights it will be according to the original production in the Harkett theatre, New York, in 1907.

## R. R. Shopmen Demand Wage Increase

NEW YORK, May 10.—Wage increase demands by union shopmen aggregating about \$50,000,000 annually have been presented to three big roads through the railway employees department of the American Federation of Labor, preparatory to taking the case before the United States Railroad Labor board, the New York Herald said today. The roads affected are the Pittsburgh & Lake Erie, Baltimore & Ohio and New York Central. The employees have asked for an increase of 20 cents an hour, from 70 to 90 cents, "for all machinists, boilermakers, blacksmiths, electricians, sheet metal workers and carmen." For helpers in the included trades, a new minimum of 67 cents an hour was asked.

## Mantle of Snow Covers Buffalo

BUFFALO, N. Y., May 10.—This city awoke today to find a mantle of snow about an inch deep on the ground and the temperature at freezing point.

## Soviet Yields to Japan, Rupture Averted

TOKIO, May 10.—(By the Associated Press)—Permission of Japanese fishermen to operate in Siberian waters, denial of which by the Soviet government threatened to cause a rupture with Tokio, has been granted, according to an extra edition of the Asahi today. Moscow is reported to have acceded to the personal appeal of A. A. Joffe, the Soviet envoy who is in Tokio. It is understood that the passports of Japanese fishermen would be valid for Siberia.

## Artist Completes New Portrait of Harding

WASHINGTON, May 10.—A new portrait of President Harding just completed by Howard Chandler Christy, was placed on exhibition at today at the Corean Gallery of Art. The portrait is to be placed on the reconditioned steamship Leviathan.

## Freckles

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails. Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement. Some of the freckles are vanishing entirely. Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee. —Adv.

WHAT A PITY!

It isn't a cloudburst. It's a flood of booze. Hundreds of Los Angeles citizens sadly looked on as county officials poured more than 5000 gallons of confiscated liquor into the sewer.

### Says Captives Having Wonderful Time

SHANGHAI, May 10.—(By the Associated Press)—All the foreign captives held by the Szechuan bandits are well, having a wonderful time and expect to be released soon, according to written messages received from four of them by relief workers near Linching, which were relayed here tonight.

### Approve Issue of \$3,000,000 Capital Stock

BOSTON, May 10.—The state department of public utilities today approved an additional issue of \$3,000,000 capital stock of the New England Power Co., to be used in extensions of its plant and business in connection with its construction of a storage reservoir at Wittingham, Vt., and a 75-mile power transmission line to Millbury, Mass.

### HELD IN CONNECTION WITH PAYROLL HOLDUP

FRAMINGHAM, May 10.—A young man giving the name of Jack Stearns of Howard street, New London, Conn., was arrested on the Worcester road in this city today on suspicion of being one of three men who earlier in the day held up the paymaster of the state hospital at Westboro and robbed him of \$3000. The men left the scene of the robbery in an automobile and members of the state police patrol are searching for the other two.

Chief of Police Holbrook, assisted by a patrolman and a telephone lineman, arrested Stearns at apartment. They found in his possession two revolvers. One was fully loaded and one bullet had been fired from the other. Stearns denied any knowledge of the holdup but the police said his appearance tallied with the description of one of the men concerned in it. No money was found on his person.

### Took \$3000 and Fled

BOSTON, May 10.—Details of the robbery of the paymaster at the state hospital at Westboro this forenoon were telephoned by officials to Dr. George M. Kline, state commissioner of mental diseases. Dr. Kline said he had been informed that two men entered the paymaster's office and one of them, who had worked for a time as an attendant at the hospital in February last, asked Miss Carrie Nelson, the paymaster, if there was any mail for him.

Miss Nelson had some pay envelopes in her hand which she estimated contained about \$3000. As she turned to look for the mail one of the men grabbed the envelopes and both rushed out. They escaped in an automobile which was driven by a negro.

The state constabulary were notified and later found the car in Southboro. The two robbers had disappeared but the negro was still in the car. He was arrested by Sergeant Joseph O'Connor, the constabulary officer who recently shot and killed the bandit, Webster Grant.

Capt. George H. Parker, of the state constabulary, received word later that shortly after the robbery, two men had stopped a man driving an automobile in Westboro, placed in his hands some pay envelopes later identified as part of those stolen, ordered him out of the car and jumped in and drove off in the direction of Boston.

The man who had worked at the hospital gave his name at that time as John Shirley of Nogales, Ariz.

### Progress in Austrian Loan Conferences

PARIS, May 10.—(By the Associated Press)—Progress was reported today in connection with the Austrian loan conferences which have been held here since Monday between Thomas W. Lamont of J. P. Morgan & Co., and an Austrian commission of three. It is proposed to negotiate a loan for Austria by June 1, of £27,000,000 to mature in 20 years. A further conference was arranged for this afternoon.

### Two Americans Remain in Running

DEAL, England, May 10.—(By the Associated Press)—Two Americans remained in the running for the British amateur golf championship at the completion of the fifth round this afternoon. They are Francis Quinlan of Boston, former American champion, and winner of the St. George's challenge cup and Douglas Grant, American-born but for some years a resident of London.

## After Every Meal WRIGLEYS

"A bite to eat—a bit of sweet"

After a substantial meal, the children naturally want to top off with a bit of sweet.

Give them WRIGLEY'S, the great American Sweetmeat.

It combines the enjoyment of sweet with many BENEFITS. It cleanses the teeth, removing food particles that lodge in the crevices. It neutralizes the acids of the mouth, soothes the throat, and lastly—

WRIGLEY'S helps the stomach by supplying saliva to aid in digestive work.

Made clean, kept clean, sealed tight in a wax-wrapped package.

## A New Name DAIRYLEA

A new label but  
no other change

THE name of Dairymen's League Evaporated Milk has been changed to Dairylea. The milk itself remains the same—the richer, creamier evaporated milk.

The new simplified name, Dairylea, is easier to say, easier to write, easier to remember.

The new label is brighter, more attractive on the shelf in the store and in your pantry.

### A surface change

But inside are exactly the same purity and richness that you have been getting when you bought Dairymen's League Evaporated Milk. If you haven't known this creamier milk under its old name, meet it now as Dairylea.

You will find that it is a richer, thicker, better evaporated milk. You will like its creamy color, its creamy smoothness, its creamy flavor.

Ask your grocer today for one or two cans of Dairylea and convince yourself.

## DAIRYMEN'S League

CO-OPERATIVE ASSOCIATION, INC., New York

## BRUTALITIES IN CAMP

Investigating Committee, to Decide Whether to Call Additional Witnesses

TALLAHASSEE, Fla., May 10.—The joint legislative committee investigating the alleged brutal treatment of prisoners in the private lease camp operated by Senator T. J. Knabb, convened today to decide whether to call additional witnesses.

Great surprise was expressed in legislative circles when it became known yesterday that the committee was considering ending the investigation.

Senator John P. Stokes, chairman of the committee, declared that the committee had reached the crest of its authority, having recommended the abolition of the lease system and corporal punishment, the dismissal of certain county officers, the expulsion of one doctor from the Florida medical fraternity and the discharge of a prison supervisor. He contended that no further good could be accomplished by going any further into the investigation of the Knabb case.

There is some talk of seeking to expel Senator Knabb from the state legislature. Senator W. H. Spencer, in discussing that, declared "if no evidence is brought forward to contradict the story by Mrs. Franklin—and no one has yet been produced to contradict it—I do not see how the senate can fail to vote for Mr. Knabb's expulsion." He declared his intention of voting for Senator Knabb's expulsion if the testimony of Mrs. Franklin is not contradicted. Mrs. Franklin told of numerous deaths in the Knabb camp.

Senator Knabb declared yesterday that he was in no position to present a statement showing his side of the case.

## GERMAN WORKERS ACT

Ready to Collaborate in Payment of Reparations "to Limit of Possibility"

BERLIN, May 10.—The executive council of the German trade unions have issued a manifesto proclaiming the readiness of the German workers to collaborate in the payment of reparations "to the limits of possibility," but asserting that passive resistance will continue in the Ruhr so long as the "illegal" state of affairs exists there.

As a protest against the sentence of the Weimar court martial, the Essen local trade union committee has appealed for a complete cessation of work tomorrow, requesting that shops and restaurants close and that all street traffic be suspended.

ICE LEAVES MOOSEHEAD LAKE

BANGOR, Me., May 10.—The ice left Moosehead lake today and steamer service was resumed between Greenville and the head of the lake.

## To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

take Organic Iron; not metallic iron which people mistake for pure organic iron—Suxated Iron—which is like the iron in spinach, lentils and apples. One dose of Suxated Iron is equivalent to the iron content of eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Suxated iron is partially pre-digested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is not just as it comes from the action of strong acids on small pieces of iron filings.

Over 1,000,000 people annually are using Suxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Some money will be refunded by the manufacturers if you do not obtain satisfactory results. Beware of substitutes. Always insist on having genuine Suxated Iron. Suxated Iron looks like the letters "N" on every tablet. Sold by all druggists.—Adv.

**NUXATED IRON**  
For Red Blood, Strength and Endurance

## Do Your Feet Hurt?

When shoes pinch or corns and bunions ache, get a package of Allen's Foot-Powder, the antiseptic, healing powder to be shaken into the shoes. It takes the sting out of corns, bunions and callouses, and gives instant relief to Smarting, Aching, Swollen feet. At night when your feet ache and burn from walking or dancing sprinkle some Allen's Foot-Powder in the foot-bath and you will solve your foot troubles. Over 1,000,000 pounds of powder for the feet were used by our Army and Navy during the war. Sold everywhere. Trial package and a Foot-Powder Walking Ball sent free. Address Allen's Foot-Powder, Lowell, N. Y.—Adv.

## A DULL PAIN IN THE BACK

This Lowell Woman Tells How She Found Relief by Building Up Her Blood

"I had a steady, dull aching pain in the small of my back all of the time," says Mrs. E. Grady of No. 44 Elm St., Lowell, Mass. "and no liniments helped it at all. Whenever I would get up from a sitting position the pain would be terrible. I had a pain in the left side and the left leg also. My stomach was disordered and I was troubled with gas and had smothering spells."

"I got a package of Dr. Williams' Pink Pills at the drug store and soon noticed that they were benefiting me. The pains left me and my general health was better. I took four boxes and am feeling good now. The pills also helped my stomach trouble. I have great faith in them and have recommended them to my friends. My niece has also taken them with benefit."

The blood goes to practically every part of the body and if it is rich and red it carries health and strength to every organ. The digestion is toned up, the nerves are strengthened and aching muscles are made strong. Dr. Williams' Pink Pills are especially useful to run-down women who worry about their daily tasks and duties. The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are for this reason an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after effects of the grip and fever. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

"Building Up the Blood" is a booklet full of useful information. Every mother and every growing girl should have one. It is sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 60 cents per box.—Adv.

## MISSING WARD-PETERS WITNESS FOUND

NEW YORK, May 10.—Albert Stewart, a war veteran, wanted as a witness in the state's inquiry into the slaying of Clarence Peters by Walter S. Ward last May, has been located. It was announced today at the office of the attorney general.

Stewart, who had been out of town, read in the newspapers that he was being sought and communicated with authorities.

He was one of the three men stalled in an automobile near the scene of the shooting on Kensico highway road. The trio previously said they had heard no pistol shots. He will be called during the day.

## MUSIC AND PRESENT DAY EDUCATION

Miss Grace C. Pierce, supervisor of music in the Arlington schools, talking to the students of the State Normal school yesterday afternoon, explained the position of music in the curriculum of the schools of today. Miss Pierce's lecture was the last of a series of six spring lectures on the general theme, "Changing the Curriculum to Changing Social Needs," and her particular topic was, "The Place of Music in Present-Day Education."

Miss Inez Field Damon, supervisor of music at the Normal school, introduced Miss Pierce to the students, and the student body itself furnished one of the most attractive features ever put on at the school when, at the close of the lecture, they sang that old Southern melody, "Swing Low, Sweet Chariot," with Miss Edna Lawrence sustaining the solo. This song alone exemplified the importance of music education in the schools.

Miss Pierce explained the method by which she taught music and its appreciation in the Arlington schools and showed a number of drawings and read several poems that had been submitted by pupils in a prize contest. Several of these, compiled and edited by the pupils, are to be published. She also explained how she taught the lives of the composers of the selections she taught and matters pertaining to the land, politically, historically and geographically, from which these writers came.

She dismissed the idea immediately that singing was to be taught by merely singing a few songs, and she criticized the old method of teaching singing by which a pupil learned nothing but the words and tune of a song in the whole of the time spent in school. She explained the method used in Arlington whereby all the teachers assisted in the teaching of music by incorporating it in their studies and teaching it in connection with their classes. "Music," she said, "makes one think quickly and accurately. By teaching music we are helping children to establish standards and no matter what they come in contact with in entering the outside world, it must come up to the standard set. By this you will not have to worry as to what will happen to jazz."

Miss Pierce also explained how she taught music appreciation by making the students familiar with the music as they became familiar with their friends' faces. In regard to teaching by the broken music method, she said, "Some musicians do not believe in this. This type of music is connected with story-telling and I have found that children will listen to music if a story is told rather than from its own beauty. Children, too, will quickly realize that music really tells stories."

In conclusion she said, "We cannot really appreciate music until we realize the beauty in art, the beauty in literature, the beauty in history, and the beauty in geography. You must know every subject from the beauty it is filled with, for music brings out its beauty. There would be no world without music for, as Carlyle says, 'The very planets make music in their spheres.'"

BRIG. GEN. WILLIAM D. CONNOR  
Commander of the small detachment of United States troops stationed at Tien-Tsin, who may lead American soldiers in chase of bandits.

## Series of Earth Shocks Rock Town

ROME, May 10.—The town of Sebenico, Dalmatia, has been visited by a succession of violent earth shocks during the past week, says a telegram from Zara. The inhabitants are said to be leaving and many of their houses have been levelled to the ground.

## NO TRACE OF BODY

Parishioners Would Bury Remains of Mgr. Butchkavitch With Honors

PETROGRAD, May 10.—The clerical associates of Mgr. Butchkavitch, who was executed in Moscow early in April, are in the dark as to what became of his body.

If the body could be delivered to his associates and parishioners, it would be buried with all the honors due a saint. Members of the parish seldom mention his name, but they have a silent way of paying tribute to his memory by kneeling before his door in the parish house of St. Catherine's.

Colleagues of Mgr. Butchkavitch, whom the Associated Press correspondent saw in Petrograd, said he thought the trial would be only a meaningless formality. It was not even placed under arrest until a few days before the proceedings began. With his associates who were sentenced to prison, the prelate was merely summoned to Moscow for trial, leaving Petrograd in good spirits on the tenth of March.

Today, the little room in the parish house on the Nevsky, which Mgr. Butchkavitch occupied for many years, is locked. Other rooms, occupied once by Archbishop Zepinski, and the other priests, who are convicted, also are locked, and the church itself is closed. But through the corridors of the parish house daily tramp hundreds of men and women, who kneel before a crucifix that has been fastened to the door of the Butchkavitch room, and silently mutter prayers.

## MATRIMONIAL

Mr. Harold G. Worth, of this city, and Miss Delight Tuthill, daughter of Rev. and Mrs. C. J. Tuthill of Attleboro, N. H., were married Tuesday at the home of the bride, by her father, Rev. Margaret Tuthill of Quincy was bridesmaid, while the best man was Mr. Harvey Worth of New York. The couple will make their home in New Rochelle, N. Y.

Funeral—Rogers. The marriage of Mr. Leo Frawley and Miss Mary A. Rogers took place here yesterday afternoon at St. Patrick's rectory, the ceremony being performed by Rev. Dr. James A. Supple. Miss Margaret J. McLaughlin was bridesmaid, while the best man was Mr. Frank D. Frawley. The couple will make their home at 1067 Bridge Street.

## HARDING NOT TO ATTEND

WASHINGTON, May 10.—White House officials said today that unless there was a last minute change in plans, President Harding would not go to New York to deliver an address tonight at a testimonial meeting for General and Mrs. Ballington Booth, arranged by the Volunteers of America.

## Rheumatic Neuritis

Says His Prescription Completely Banishes All Rheumatic Pain and Twinges—Is Guaranteed...

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-Four Hours

Every druggist in the country is authorized to say to every rheumatic sufferer that if a full bottle of ALLENBURY, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinges of rheumatic pain, he will readily return your money without comment.

ALLENBURY has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and chronic and where the patient was helpless.

Mr. James H. Allen, the discoverer of ALLENBURY, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless ALLENBURY decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. All druggists can supply you.

Adv.

## FRUIT MEDICINE FOR RHEUMATISM

Proof Positive of the Value of "Fruit-a-tives"

The Medicine Made From Fruit Juices

If you suffer with Rheumatism or Lumbago, you know that ordinary remedies and liniments give only temporary ease at the best.

But "Fruit-a-tives" rid you completely of this trouble. It is only by relieving the pain and reducing the swelling, that cleanses the system of the disease.

Mr. D. McMillen of Hudson, N. Y., says: "I was so badly crippled I could not work or even dress myself. 'Fruit-a-tives' relieved me of Rheumatism in my back and shoulder and now I am well equipped at all times."

Get a box, 6 for \$2.50, from Fruit-a-tives, Ltd., at dealers or from Fruit-a-tives, Ltd., 101 Broadway, N. Y. Adv.

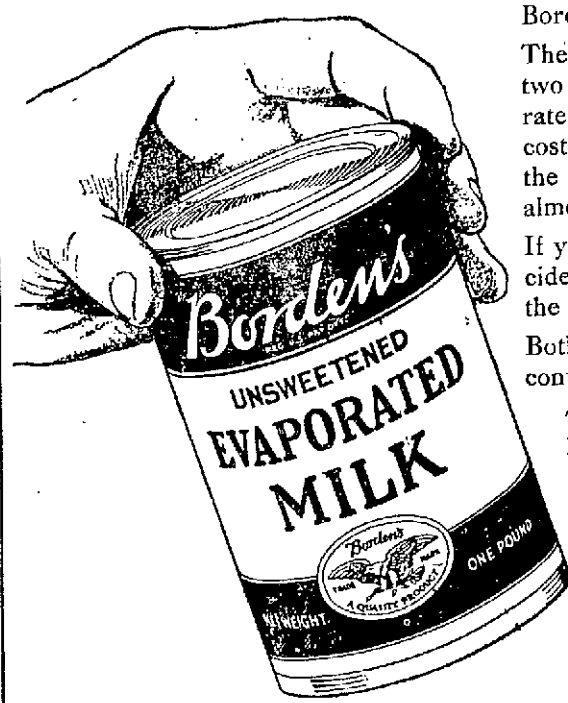

## GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion

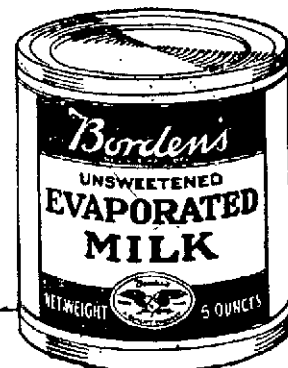

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Excessive acid stimulates the stomach, leading to gastritis accompanied by serious stomach distress. Food is not properly digested, creating the acidic conditions which distend the stomach and lampers the normal functioning of the internal organs, often affecting the heart.

It is the worst of errors to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get the only drug that a few ounces of dissolved Magnesia and take a teaspoonful in a quart glass of water right after eating. This will drive the gas, soothe the blood right out of the body, soothe the stomach, neutralize the excess acid and prevent its formation and thus, in the form of powder, dissolved Magnesia (in powder or tablet form) is liquid or milk) is harmless to the stomach, inexpensive to take and in the form of Magnesia for stomach distress. It is used by thousands of people who enjoy their meals with a mere fear of indigestion—Adv.

# Two cans but the same milk

with the cream left in

MANY women ask us if we put up small cans of Borden's Evaporated Milk.

The answer is yes. There are two sizes of Borden's Evaporated Milk. The larger size costs about twice as much as the smaller size, and contains almost three times as much milk.

If you use lots of milk it is decidedly more economical to buy the big cans.

Both have been planned for your convenience.

THE BORDEN COMPANY  
Borden Building New York

## STORMY TIME AHEAD FOR BRITISH GOVERNMENT

LONDON, May 10.—(By the Associated Press.)—Between the controversy with Russia and the situation created by the success of Art O'Brien's appeal for a writ of habeas corpus, the government is clearly in for a stormy time. The laborers, most of the liberals—both Lloyd Georgeans as well as Asquithians—and even some of the conservatives. It is said, disapprove of the ministry's handling of the dispute with Russia and it is predicted in some quarters that next Tuesday's debate in the house of commons may prove awkward for the ministers. They are unable to get the solid support of their followers on that occasion.

The Liberal press, which did not comment yesterday on Lord Curzon's

note to Moscow, today strongly condemns its tone and its "provocative" demands. These newspapers agree that Great Britain had solid and important grounds of complaint, but they condemn the threat to terminate the trading agreement as worse than a blunder. They also regard the note as "disgraceful to make it difficult, if not impossible, for a self-respecting government to make a temperate, diplomatic reply."

## HIGH SCHOOL SENIOR CLASS REHEARSAL

Students of the graduating class of the high school had it firmly impressed upon their minds yesterday that graduating time is drawing near. For Fred C. Blunt, instructor of music, held the first rehearsal of the senior class in the school auditorium, then. Rehearsals will be held two or three times a week from now on so that the

singing this year will be up to the standard set in previous years.

The officers of the class and the class committee chairman are as follows: Edward Martin, president; Arthur McQuaid, first vice president; Winifred Lester, second vice president; Margaret Shugrue, secretary; Donald Hilton, treasurer; gift committee chairman, Edward O'Brien; ring and pin committee, Walter Nestor; social committee, John McManmon; motto committee, Edward Anglin; color committee, Joseph Busby; senior day committee, Norbert L. O'Brien.

## Queens began it

The use of palm and olive oils to cleanse and beautify the skin began with the queens and princesses of ancient Egypt.

Now the modern women, who are the queens of today, find them just as valuable combined in the smooth, creamy, lotion-like lather of Palmolive. This perfected modern luxury costs only 10c a cake.

Palm and olive oils—nothing else—give nature's green color to Palmolive Soap

Volume and efficiency produce 25-cent quality for 10c

Over 55 million packages of this new kind of soap were used last year

For every washday method  
soaking—boiling—in washing machines

Already used literally by millions of women. And yet it was only three years ago that it was first brought out.

You wonder what is the secret of this remarkable growth. For just consider what a tremendous force of habit Rinso had to meet. It had to gain the confidence of women trained for generations to the long-drawn-out methods of a bar soap washday.

Mothers, grandmothers and great-grandmothers had rubbed and scrubbed to get clothes clean—rubbing soap on all the soiled places and then rubbing the heavy wet clothes on the washboard.

Is it any wonder then that when Rinso came into women's lives it swept everything before it? For Rinso spares you the hardest part of that age-old drudgery of washday—the constant backbreaking rubbing. That is why millions of packages of it are used every month.

#### Soaking takes the place of rubbing

Just soaking with this new kind of soap gently loosens all the dirt. Harmful rubbing is done away with.

You are not only saved from weary, back-aching work but also your clothes are protected from the wear and tear of hard rubbing. Rinso dissolves instantly and sends its soapy suds through every thread and fibre, flushing out all

the dirt. Only spots where someone has actually ground in the dirt—neck bands, cuff edges and the like—will need a light rubbing with a little dry Rinso.

#### Has already taken place of bar soap

You will find that Rinso is ideal for any washday method you use. You do not have to change any of your usual steps—just use Rinso where you used to use bar soap.

If you like to boil your white cottons Rinso will give just the safe cleansing suds you need in the boiler. If you use a washing machine follow the advice of the big washing machine men—use Rinso.

Rinso takes the place of bar soap for all these different washday methods. It does the whole job.

#### As wonderful for the family wash as Lux is for fine things

Rinso is made by the makers of Lux to be just as remarkable for the regular weekly wash as Lux is for silks, woolsens and all fine fabrics. With these two soaps—Lux and Rinso—the worst of your laundry problems are solved—you need never again do any hard rubbing.

However you do your wash, make it easy by using Rinso. Get it at any grocery or department store. It comes in two sizes—the regular size and the big new package. Made by the largest soapmakers in the world. Lever Bros. Co., 164 Broadway, Cambridge, Mass.

#### Follow the advice of leading washing machine manufacturers

—use this new kind of soap in your machine

Apex, Bluebird, Coffield, Gainaday, Getz, Haag, Horton, Laun-Dry-Ette, Meadows, "1900" Cataract, One Minute, Rotarex, Sunnysuds, Surf, Trojan, Voss, recommend Rinso for best results.

#### COFFIELD WRITES:

"Tried out over a period equivalent to seven years' weekly use, Rinso did not corrode or injure the machine in any way. It can be used with absolute safety. Garments were not weakened by prolonged washings with Rinso."

#### GAINADAY SAYS:

"Rinso suds stand up permanently. They penetrate the water so that every garment is saturated with Rinso solution."

#### LAUN-DRY-ETTE WRITES:

"We found no little soapy particles floating around in the water in our tests with Rinso as we did with some of the other soaps. Twelve minutes was the average operating period with Rinso and not a single article had to be hand rubbed."

#### "1900" CATARACT SAYS:

"In solution it permeates the water so evenly that its cleansing action reaches every garment. Consequently we found that we were not obliged to do any rubbing either before or after operating the machine."

#### ROTAREX SAYS:

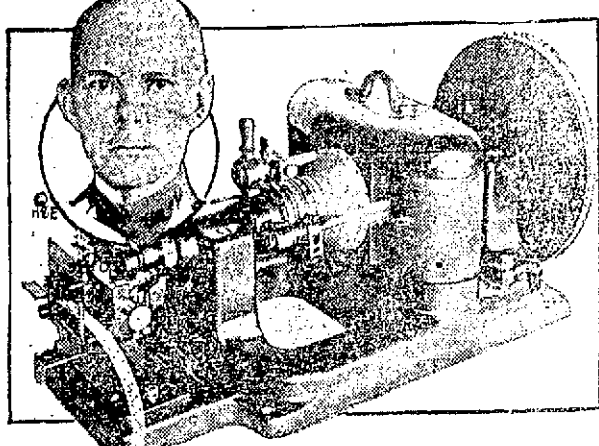

"We have tried out Rinso and other soaps—many of them good—in our machine, but for all round satisfaction we recommend Rinso."

You don't need to bother  
with bar-soap any more

# 

New Code Almost Triples  
Speed of Transmission

GENERAL GEORGE O. SQUIER AND THE NEW TELEGRAPH INSTRUMENT HE RECOMMENDS FOR FAST TRANSMISSION.

WASHINGTON, May 10.—A new universal telegraph alphabet, proposed by Maj. Gen. George O. Squier, chief signal officer of the army, will make possible the transmission, either by radio, cable or land lines, of more than two and one-half the volume of traffic it is possible to handle by transmitting with the old Morse code.

Instead of dots and dashes, utilized by Morse, Squier's alphabet is made up of hills and valleys. This is made possible by the use of alternating current of varying intensities, unknown in Morse's day. An interval of high intensity would correspond to a dash in the Morse code. An interval of intermediate intensity would replace the dot. A low intensity would represent a space. Yet the high intensity or the low, representing dashes or spaces, would be made now requiring from three to five times

the time necessary to register a dot, would require no more time than the intermediate intensity, representing a dot.

When transmitted by machine, the message is more easily decipherable than Morse, being more compact and the spacing of letters and words more easily followed.

## Read by Sound

By giving to each intensity a high, intermediate or low tone, the operator who receives by ear could read the messages by sound as readily as he now picks out the dots and dashes.

The formula for the old Morse code is that a dash shall equal three dots in time-length, that the time between any two elements of a letter shall be equal to the duration of one dot, that the interval between the letters of one word shall equal three dots, and between two words it shall equal five dots.

By the Squier system, dots and dashes, represented by high or low intensity, are of equal length and the space between letters and words can be shortened. Thus the time of mechanical sending and the length of the tape carrying the message are reduced by more than one-half almost two-thirds.

Adoption of the new system, especially for cable and radio work, will be considered at the next international conference on communications which probably will be held within the year.

It leads directly particularly to relieving cable congestion and to meeting the difficulties of finding enough long-wave-lengths for long-distance radio communication. By multiplying the number of words it is possible to send hourly, the same result is obtained as if the number of available wave lengths had been doubled.

## RECEPTION AND BALL

Given by

MISS L. BLANCHE PERRIN

Teacher of Dancing

Lowell Memorial Auditorium, Wednesday Evening, May 16, at 7:30

Beautiful Costume Dances

General Admission, 10c to 12c. m.

After 10 p.m. orchestra.

Admission \$1.10. Tax Paid

## MISS DEE'S PUPILS

### HOLD ANNUAL PARTY

The second annual party of Miss Alice Dee's dancing pupils was held last night in Associate hall and proved to be more successful even than the first appearance of the class a year ago. The hall was well filled with interested friends and parents of the performers who thoroughly enjoyed the program from beginning to end and were unflinching in their applause of each of the numbers.

The program opened at 8 o'clock with a grand march by the pupils dressed in fancy costumes for their later appearance in specialty numbers. The rest of the program follows:

Violin solo, Helen Shea

Cow Girl, Irene Mitchell

La Secret, Alice Dee

One of the features of the program was "La Pupille" by Miss Lorraine Montmarquet. Attired in a suitable costume, Miss Montmarquet truly personated this beautiful butterfly dance number and the audience was not slow to reward her for her efforts by enthusiastic applause. She performed again on the program with Miss Helen Cronin in a "Waltz Fantastique" and in this piece proved that she could dance the latest ballroom dances as well as the classical.

At the completion of the entertainment program, Miss Dee was presented a beautiful bouquet of roses and a heart watch by the pupils. Following this event, general dancing was enjoyed until midnight.

## DISABLED VETERANS

### OF THE WORLD WAR

Disabled American Veterans of the World War who are soliciting advertising and donations for the 3rd annual state convention to be held in the Memorial Auditorium on May 23, 24, 25, are requested to cause high school children on Thursday, May 17, to prepare a program of songs and dances to be given at the convention. The main purpose of which is to raise the funds to defray the cost of their travel, food, and other expenses, and state their difficulties concerning compensation, etc. Charles H. Collins, 40 Market street, will give any information desired concerning the campaign now in progress.

## MINERS HONOR HIM

Union miners are perpetuating the memory of John Mitchell, their former international president. This memorial is being erected at Scranton, Pa. The city of Scranton donated the site. The monument will be dedicated October 29—"Mitchell Day."

BRIEF BUT IMPORTANT  
WIRE DESPATCHES

**BOSTON, May 10.**—The Walker grand prize of \$1000 conferred at intervals of three years by the Boston Society of Natural History for scientific services, has been awarded this year to Dr. Leonard Stebbins, head curator of biology at the National Museum at Washington.

**BOSTON, May 10.**—Judge Crosby of the supreme court today dissolved a

Kidney Trouble  
Disturbed His Rest

Is Now Able to Lie Down and Sleep Soundly—His Kidney and Bladder Trouble All Gone. Read His Statement.

"I was a sufferer for several years from kidney and bladder trouble and had to get up many times each night on account of the condition that I was in. I was induced to try Dr. Carey's Marshmallow Prescription No. 777 and to my great surprise and satisfaction I was able to lie down and sleep undisturbed. I can truthfully say that I am entirely cured and would advise any who are suffering from this terrible disease to try Dr. Carey's Marshmallow. Signed C. H. Riccio, Elmira.

What is Dr. Carey's Marshmallow? It is Dr. Carey's own prescription known as No. 777, for many years used by him with remarkable success in the treatment of kidney and bladder troubles. It consists of roots and herbs that have a direct and specific action only on the kidneys and urinary organs. It can always be obtained at Fred Howard's, 137 Central street, and all good druggists the country over.—Adv.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating the into natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c. Adv.

## THREE YANKS SURVIVE

Quimet, Willing and Grant Win Their Matches in 4th Round of Tourney

**DEAL, May 10.**—(By the Associated Press)—Three Americans, one of them not a member of the Walker cup team, survived the fourth round play this morning and therefore entered the fifth round of the British amateur golf tournament this afternoon.

Francis Quimet, of Boston, regarded as the chief American hope, retained his right to compete at the expense of his teammate, John F. Neville, of San Francisco, 3 up.

Dr. O. F. Willing of Portland, Ore., and Douglas Grant, American by birth but a long resident of England, also won their matches in the fourth round. In the fifth round Quimet meets C. Bretherton, of Hantsworth, and Dr. Willing plays Roger Wethered, the Oxford star.

Thirteen Britishers and three Americans make up the field for the fifth round.

George V. Rolan, of Houston, Tex., was defeated by W. L. Hope, of Turn-

**BURNHAM, Somersetshire, May 10.**—Mrs. Alan MacBeth defeated Miss Joyce Wethered, the titleholder, in the semi-final today of the British women's open golf championship tournament, 2 and 1.

Roger Wethered, Worpleston, defeated G. O. Manford, Luffness New, 4 and 3.

Dr. O. F. Willing of Portland, Ore., defeated R. W. Crumack of Lancashire, 2 and 1.

Douglas Grant, American resident of England, defeated Dr. H. D. Gillies of Woking, 4 up and 3 to play.

W. B. Torrance of Edinburgh, who played at Southampton, L. I., in the Walker cup matches, last year, defeated his younger brother, T. A. Torrance, of Sandy Lodge, 4 and 2.

Cyril Tolley, Rye, defeated Captain G. N. C. Marlin, Royal Port Rush 1 up.

## Hundreds Flock to Tragic Scene

Continued

which rose, filled and hid the oil-soaked derrick.

L. C. Cook, head derrick of one of the crews, was seen to dash away and jump into some water nearby. He died on the way to the hospital.

Confusion is everywhere. Steady, unbroken streams of automobiles keep coming. While operations in the oil field have not been suspended, hundreds of workers have crowded to the tragic scene.

Steam to Extinguish Flames

Some of the workmen were hurled flat on the ground, others seemed but to creep vainly away from the merciless spread of the fire, although they actually were running through the oil-drenched vigils as fast as legs could go.

J. K. Hughes, head of the development company, was being informed over the telephone that the well had come in Tuesday night when the fire started.

"Well, I wish it had been a dry hole," he remarked ironically.

Steam will be used today to extinguish the flames. Hotters and fire-fighting apparatus are being sent to the scene.

When you feel like this

"Acre" Monument Drive  
Important Notice

The Committee in charge of the "Memorial to the Boys of the Acre District" has decided that the names of all residents of the district who "paid the Supreme Sacrifice" in the late war, (17-19), should be in their hands before May 12th in order to allow sufficient time for inscribing the same on the memorial. The committee will be grateful to those sending in names if they will write or print the same carefully to avoid possibility of errors. The Acre District as laid out contains all that territory which is bounded as follows: Beginning at the southerly side of Fletcher street where it crosses Dutton and running in a southeasterly direction along Fletcher to Middlesex; thence in a westerly direction along the right side of Middlesex to Branch; thence in a westerly direction along the right side of Branch to Middlesex; thence in a westerly direction along the right side of Middlesex to its junction with Pawtucket; thence in a northeasterly direction along both sides of Pawtucket to Merrimack; thence southeasterly along the right side of Merrimack to Dutton; thence southwesterly along said Dutton to point of beginning.

## HERE GOES MORE OF THE TOWN!

This is taking religion to the people. This church was moved from Jennings, Mich., to a point just outside of McLean, Mich. Joseph Karcher, the contractor who handled the job, shifted seventy-five houses from Jennings to Cadillac last fall.

MAY BLIZZARD BRINGS  
SNOW, SLEET AND COLD

**CLEVELAND, May 10.**—More gas was used here yesterday than during the coldest day of the winter, gas company officials reported today, because of the untimely May blizzard weather which brought snow, sleet and cold.

**GLOVERSVILLE, N. Y., May 10.**—Gloversville and Johnston and all parts of Fulton and Hamilton counties were covered with snow this morning.

**NEW YORK, May 10.**—Warnings against a frost tonight which might damage early crops in the vicinity of New York was issued today by the weather bureau. Warmer weather was predicted for tomorrow.

**PITTSFIELD, May 10.**—Mountains in this vicinity are snow-capped as the result of a heavy fall of snow during the night. The mercury registered as low as 23. There was such a heavy hail storm at Pentecost lake this morning that the water could not be seen from a distance of 40 feet. Snow fell at various times this morning.

BRICKLAYERS TO  
GET \$1.25 AN HOUR

**PITTSBURGH, May 10.**—Contractors decided to grant the demands of bricklayers for a wage increase from \$1.10 to \$1.25 an hour yesterday, after a conference between Walter A. Wiley of Wiley & Fox and George Thornton, vice president of the International union. Two contracting concerns, C. H. Cunningham and Son of Lynn, builders of the new R. F. Brown, Jr., high school, and George A. Fletcher and Co., had previously granted union demands.

Portuguese laborers have been imported from Providence to take the place of bricklayers' helpers who are on strike after a demand for an increase from 65 to 85 cents an hour. Two concerns have granted that increase but the other contractors are standing firm in their refusal.

**NEW YORK, May 10.**—The General Motors Corporation today announced the resignation of Henry S. Du Pont as president and chairman of the executive committee. Alfred P. Sloan, Jr., was elected as his successor.

BUSINESS MAN  
OF PITTSBURGH  
PRAISES "DRECO"

Says a Sluggish Liver, Constipation and Stomach Disorders Had a Hold on Him. Feels Great Now.

Many days of suffering could be avoided if people only realized how important it is to keep the liver and bowels active. When there is a lack of bile flowing from the liver, the stomach fails to digest the food and constipation is a sure result. Dizzy spells, headaches, foul breath, bad taste in the mouth, spots before the eyes and poor sleep are positive signs of a lazy liver.

"I am glad to make a public statement concerning the benefits I have obtained by taking Dreco for it is a wonderful medicine," says Mr. H. M. Bennett, secretary-treasurer of the Auto Information Machine Co., with offices in Jenkins Arcade, Pittsburgh, Penna.

"I had a severe illness which left me in bad shape and nothing I took seemed to straighten me out. My liver was sluggish which caused a dizzy feeling, headaches and spots before my eyes. My bowels were so badly constipated that I had to take medicine all the time for them. I felt below par generally.

"Two bottles of Dreco have made me feel like a different person. My bowels are as regular as a clock. I never feel dizzy or have a headache. I eat whatever I want and suffer no ill effects for my digestion is much better since taking Dreco.

"I don't believe there is a remedy today that can equal Dreco, and I say this after giving it a fair trial."

The good old-fashioned roots, herbs, barks and leaves which form Dreco have been the best remedies for the stomach, liver, kidneys, bowels and blood. Dreco is made from 12 herbal plants and its action is prompt and pleasant for man, woman or child.

DRECO was introduced to the people of Lowell by Green's Drug store. Call on them, and let them tell you of the merits of this wonderful remedy. They will honestly tell you whether or not they think DRECO will benefit you. Also Dreco is being sold in Nashua by Nashua Pharmacy Co., 175 Main st.—Adv.

BILL IN EQUITY  
ASKS ACCOUNTING

**BOSTON, May 10.**—A bill in equity asking an accounting of assets and profits was filed in the superior court today by the American Agricultural Chemical Co., and three of its subsidiaries against Hugh J. Robertson of Newton and Edward J. Murphy of Woburn. The plaintiffs assert that Robertson, formerly president of the Eastern Oil and Rendering Co., of Boston, and Murphy, former president of the Brown Co., Inc., of Philadelphia, diverted assets and profits of these two subsidiaries and of the Millenbach Brothers Co., of Detroit, to themselves and others by fraudulent means. Judge Wait issued process of attachment on bank funds of the defendants. An order of notice was made returnable tomorrow.

## Wholesale Smash of Air Records Puts U. S. First in World Race

LEFT TO RIGHT: ABOVE, LIEUTENANTS HAROLD HARRIS, JOHN A. MACREADY, OAKLEY KELLY AND LEIGH WADE; BELOW, LIEUTENANTS L. J. NAITLAND, R. L. MAUGHAN AND ALEX. PIERSON. ALL ARE MCCOOK FIELD MEN.

MCCOOK FIELD, Dayton, O., May 7.—The world's airplane record—24 miles an hour—was held by Brigadier General William Mitchell.

World's altitude record—40,500 feet—has been established by Lieutenant John A. MacReady.

World's endurance record—36 hours, 5 minutes and 20 seconds—was held by MacReady and Lieutenant Oakley Kelly.

The same two pilots have established the world's non-stop distance record—2609 miles.

Lieutenant Lester J. Naitland has established the world's one-hundred-mile speed record—244.97 miles an hour.

Lieutenant Russell L. Maughan holds official speed records for 100 and 100 kilometers.

Lieutenant Alex. Pierson has broken the French speed record for 100 kilometers by more than one hour, while Lieutenant Harold H. Harris has topped almost two hours of the previous French record for 100 kilometers.

To establish these records and to bring America into first place among the nations contending for air supremacy the young record-holding men—all stationed here—have continually run the risk of being killed in a mass of tangled wreckage or of being crippled for life.

To what end?

The present epidemic of record making and breaking to some appears foolish but the officers of the United States air service reply by saying that every flight made and every record attempted is done to test or prove some scientific fact.

This is true of the work going on at both McCook and Wilbur Wright fields.

Value of Records

Every record made by these men, who one day will be recognized the powers of the air service, has a predetermined military and commercial value.

In the altitude work, for instance, it is pointed out that in case of war the highest flyer always has a distinct advantage over his adversary, as events on the west front showed during the world conflict.

Carrying along the same argument as applied to commercial aviation it is claimed there are certain trade winds at great distances above the earth of such velocity that a transcontinental trip could be reduced to a few hours.

It is known that when MacReady attained his "ceiling" was the highest point any given machine is capable of reaching is known, he made

observations of incalculable value to the air service along these lines.

Speed Trials

Speed trials have their military and commercial value as well.

The speed boats, the Martin bombers, the 101's and the great Baring bomber, now in secondary stages of assembly are all direct results of the world race in the science of aviation.

The last named ship is without question the largest bomber that has ever been constructed. It was designed as the forerunner of a greater airplane and it is pointed to as another direct result of competition in the world for air supremacy.

And the object of an endurance flight is not merely to determine who can stay in the air the longest. It was designed primarily to determine what effect long endurance flying would have on the motor and component parts of the plane. To develop plans laid down by the air service, all weaknesses which must be overcome and show up defects to be eliminated the army, the navy and commerce.

One Practical Result

Airplanes and pilots were recently subjected to the cotton belts to wage a fight against the destructive boll weevil. The cotton plants will be sprayed with a poison powder, which will destroy the weevil but not affect vegetation.

This is said to have been direct result of a summer by Lieutenant MacReady, who sprayed cotton groves, threatened with total destruction by swarms of caterpillars.

Again the successful operation of the aera mail service, speedy dispatch of passengers between Cleveland and Detroit in 30 minutes are suggested as other phases indicative of the work being done by the pioneers.

The epidemic of record breaking flights this year is in line with the development plans laid down by the air service, all weaknesses which must be overcome and show up defects to be eliminated the army, the navy and commerce.

## Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results

ANY FAMILY MAY TRY IT FREE

IT is not necessary to take a violent physic for so simple an ailment as constipation. Yet many thoughtless parents give mercury in the form of calomel, and constipation in the form of phenol when a natural vegetable compound like Dr. Caldwell's Syrup Pepsin will do the work equally well and without danger. People should realize that mercury may subvert and in certain cases loosen the teeth; that phenolphthalein, by whatever name known and however disguised in candy, may cause dermatitis and other skin eruptions; that salt waters and powders may concentrate the blood, dry up the skin and cause lassitude.

You can take Dr. Caldwell's Syrup Pepsin yourself or give it to a babe in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints. A teaspoonful will relieve you over night even if the constipation has been chronic for years. Dr. Caldwell's Syrup Pepsin is a compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not cramp or gripe. Every druggist handles it, and bottles are so generous that the cost amounts to only about a cent a dose. You buy it with the understanding that if it does not do as claimed your money will be refunded. The names of all the ingredients are on the package.

Mrs. A. Arceneaux of Orange, Texas, suffered from constipation for six years and found no relief until she took Dr. Caldwell's Syrup Pepsin. Mrs. Gus Anderson of Hall, Kans., corrected her bowel trouble so that she now eats and sleeps normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin into your own home and let the family use it for constipation, biliousness, wind, gas, headaches, flatulency, and to break up fevers and colds.

TAKE DR. CALDWELL'S SYRUP PEPSIN  
The Family Laxative

## HOME-RUN VOGUE IS STILL POPULAR

By BILLY EVANS

The business of making home runs is going to continue to thrive during the season of 1923.

During the winter it was rumored that the ball would be changed a trifle. It has proved to be a mere rumor. The ball is as lively as ever, and the home-run vogue will probably be wider than ever. The fans seem to like it, so why worry?

I am convinced that the public that pays the way likes to see the slugger in action. The attitude that punts the punch in any sport is the popular hero. Never was this fact demonstrated more clearly than in the opening game of the season at the new Yankee stadium in New York. Before a crowd of 23,000, Luke Ruth in his initial debut as a comeback hit a home run with two on that broke up the ball game.

Ruth's wallop was one of those terrific wallops for which he is justly famous. The ball traveled on a line far into the right field bleachers. I was a real home run, worthy of the name.

I have seen many a player cheered for some noteworthy feat, but never for some noteworthy feat, but never

have I seen a player acclaimed as was Ruth that day by the record-breaking crowd. It seemed as if every person present joined in the demonstration.

In most cases, censure for the home runs should be laid to the small-sized parks rather than the lively ball. The fans like to see the ball travel. The lively ball makes possible that desire. However, it is to be regretted that more playing territory is not available on many of the parks. More territory would offer the opportunity for brilliant work by the outfielders. Restricted space naturally places a limitation on the possibilities of the outfielders.

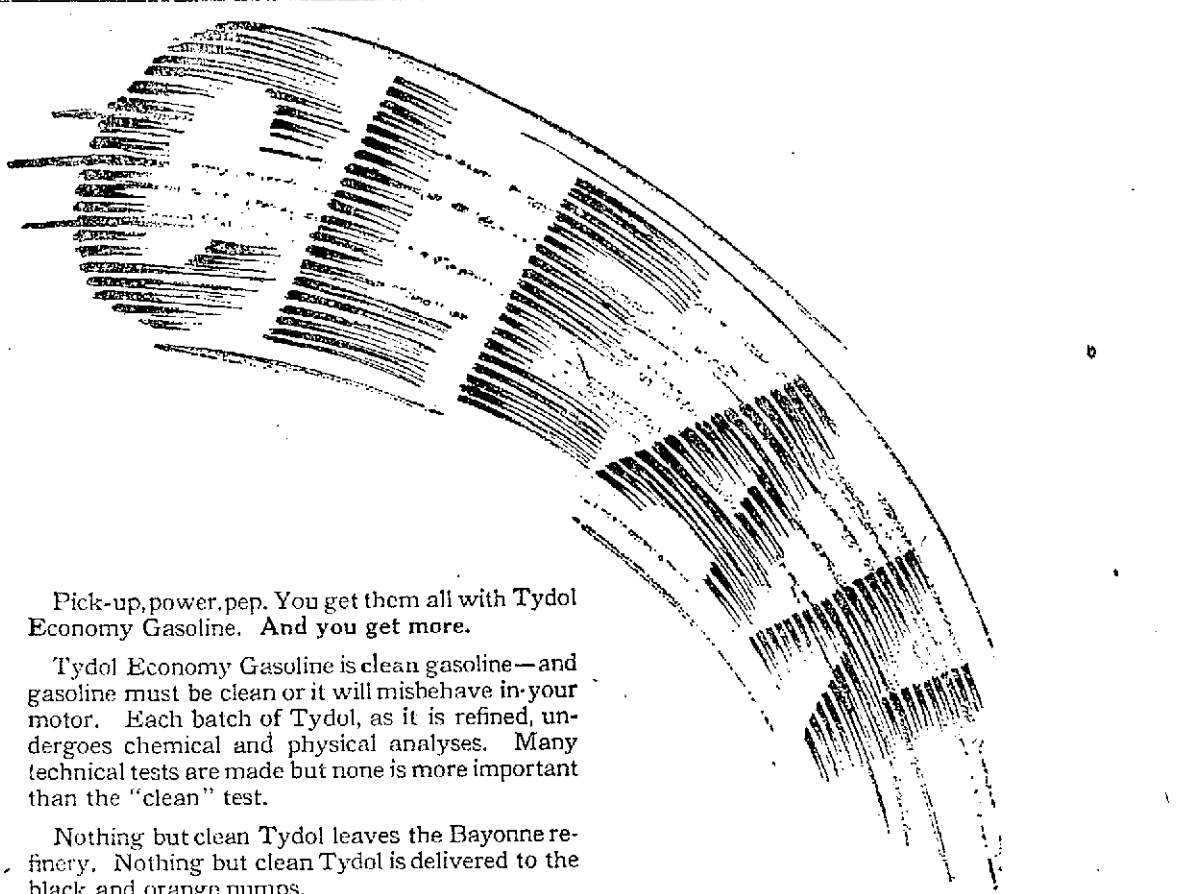

The other day in discussing the home-run vogue, Frank Chance of the Boston Red Sox gave vent to some interesting opinions on the subject.

"Players of today do not hit the ball any harder than the sluggers of 25 years ago," said Chance. "The athletes are no huskier, neither do they swing harder. It's all in the lively ball."

If Dan Brouthers, Ed Delahanty, Jack Freeman, Frank Schube and other hard hitters of yore were back, could we scented the lively ball now in use, all of them would have died of this mark.

To my way of thinking there never was a greater slugger than Delahanty, and I feel sure he would have placed his mark at better than 60.

Home runs are going to continue just as long as the fans enthuse over them.

Pick-up, power, pep. You get them all with Tydol Economy Gasoline. And you get more.

Tydol Economy Gasoline is clean gasoline—and gasoline must be clean or it will misbehave in your motor. Each batch of Tydol, as it is refined, undergoes chemical and physical analyses. Many technical tests are made but none is more important than the "clean" test.

Nothing but clean Tydol leaves the Bayonne refinery. Nothing but clean Tydol is delivered to the black and orange pumps.

That's why clean Tydol insures a clean feed line, a clean carburetor, a clean needle valve. A clean needle valve insures a proper proportion of gasoline and air—the lean economical 15 to 1 mixture. And that means full mileage and full power from every drop of Tydol.

Drive up for clean Tydol at the black and orange pumps. They are everywhere.

TIDE WATER OIL COMPANY  
P. O. Box 1007, Manchester, N. H. 6000 Sts. Lowell, Mass. (Phone Lowell 505)

# TYDOL

## ECONOMY GASOLINE

For full Tydol economy use Veedol motor oil

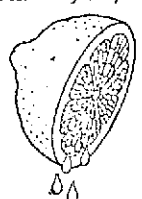

Ask the man at the black and orange pump for a copy of the new Tydol book, "My Sixteen Foot Journey."

More air—less gas

With low grade gasoline 8 parts air to 1 part of gasoline	With TYDOL Economy Gasoline 15 parts air to 1 part of gasoline

for all liver and kidney trouble, bladder ailments, and an excess of acid in the system. Relieves promptly. Look for a "Red Mill" on the package. Take no other. At all leading druggists. Trial size 30 cents. H. PLANTEN & SON, Inc., BROOKLYN, N. Y.

# Big Year Ahead For Local Amateur Ball Teams

## BALL TEAMS REPRESENTING ALL PARTS OF CITY LOOKING FOR GAMES

**Big Inter-Church Series Opens Tomorrow Afternoon—Four Junior Teams to Compete for Handsome Cup—Games on South Common and Morey Field—Other Notes of Interest to Amateur Sport Followers**

The opening games in the four-team inter-church baseball series to determine the winner of a handsome cup, donated by a friend, will be played tomorrow afternoon, after school.

The participants in this series of games are junior teams from four of the Catholic parishes of the city, namely the Holy Trinity, St. Peter's, St. Margaret's and St. Patrick's. All with the exception of St. Margaret's are parochial school clubs. In this parish there is no parochial school, hence the team will be made up of altar boys.

It is the intention of these organizations to play the series during the season with a view of having a parochial school league next season.

Tomorrow afternoon at 4:30 o'clock the Holy Trinity team will play the St. Peter's team on South Common, while on the Morey field at the same hour, the St. Margaret's and St. Patrick's teams will play.

Hitting the ball freely, the Rangers came away with the Warren A.C. by the score of 13 to 2 yesterday. The winning lineup: Nelson, C. Cameron, J. Duffy, 1b; McElroy, ss; John Fox, 2b; Joe Fox, 3b; Albert Lee, 4th; Lambert, cf; Gagne, p. Games are wanted with 12-15-year-old teams. Call 6223-Y and ask for "Tim."

The Cadet Juniors, a 12-14-year-old aggregation, wants games with fast ball outside, the Moody school team preferred. Answer through this paper.

The International A.C. defeated the National A.C. on the Walker street playground Tuesday by the score of 9 to 5. The following players are requested to report for practice tonight: Corcoran, Smith, Brooks, Davenport, Latham, Sullivan, McDuffy, W. Sullivan, Walsh, Coffey. Games are wanted with 12-15-year-old teams. See Capt. Smith at corner of Stevens street.

The Aero Juniors would like a game with the Young Broadway Tigers Saturday. Answer through this paper.

The Seaside Juniors would like to arrange a twilight game with any fast 12-15-year-old team in Lowell. This outfit has just won a series from the St. John's team. Answer through this paper.

The Broadway Juniors are out for games with 10-year-old aggregations. The lineup is as follows: Gillick, cf; Mitchell, 1b; Roark, 2b; Frank Scott, 3b.

## CUBS POUNCE UPON GIANTS

Come From Behind to Take Sixth Game Champions Have Lost This Season

But One Game Played in Am. League — Browns Rout Athletics 10 to 5

NEW YORK, May 10.—The Philadelphia Athletics lost a game to the Boston Red Sox yesterday afternoon by the score of 10 to 5. The Athletics were behind 10 to 0 in the eighth inning, but rallied to win the game. The Athletics' lineup was: Egan, p; Egan, 1b; Egan, 2b; Egan, 3b; Egan, cf; Egan, lf; Egan, rf; Egan, c. The Red Sox' lineup was: Egan, p; Egan, 1b; Egan, 2b; Egan, 3b; Egan, cf; Egan, lf; Egan, rf; Egan, c.

May Trade Carlson  
PITTSBURGH, May 10.—Carlson, a pitcher for the Pittsburgh Pirates, was traded to the Boston Red Sox yesterday. Carlson was a promising pitcher and was expected to be a valuable asset to the Red Sox.

## ALLEGED BREACH OF CONTRACT CASE

The case of the alleged breach of contract by the Boston Red Sox was heard in court yesterday. The case involved a dispute over the trade of Carlson from the Pittsburgh Pirates to the Boston Red Sox. The court ruled in favor of the Red Sox, stating that the trade was a legitimate business transaction.

## Do you know Baseball?

QUESTIONS  
ONE—In trying to dodge a badly pitched ball, and ball comes into contact with the bat and the ball is hit. Is it a foul ball?  
TWO—When a batsman catches a ball in which he does not suppose he can catch it, is it a foul ball?  
THREE—When does the batsman actually become a runner?  
FOUR—Two are out, batter strikes, runner is out, batter is out, runner is out. How is the play scored and ruled on?  
FIVE—A base runner slides into a base, the catcher is in the way, the runner is out. Is it a foul ball?  
SIX—A base runner slides into a base, the catcher is in the way, the runner is out. Is it a foul ball?

THIRTEEN STARS COMPLETE  
WASHINGTON, May 10.—The thirteen stars of the American flag were completed yesterday. The stars were placed on the flag by the children of the American Legion, who were assisted by the American Legion staff.

## Loy Molumby Now Looms As "Rickard of the West" Love of Game Made Record Possible

By N.E.A. Service  
GREAT FALLS, Mont., May 10.—A new name has appeared on the horizon of the sports world.

Loy J. Molumby, 28, of Great Falls, Mont., will prove to be the "Rickard of the West."

Word comes that Molumby has succeeded in getting the consent of Jack the Giant Killer Dempsey to fight him. The fight will take place at the Great Falls arena on July 4.

It has been two years since Jack fought for his title. Two years to the day since he fought through the ropes at Bayville, N.J., against the champion of the world, Georges Carpentier.

Everyone knows about Jack, however, so here's some dope on Molumby.

Is Legion Commander  
He is the state commander of the American Legion of Montana, and has been elected to this position by the members of the legion.

He is a native of Iowa, and has been in Montana for several years. He is a well-known figure in the community, and is respected by all.

Molumby's Triumph  
The reason the local sports post (Montana's) called all the posts of Montana and all the posts of Montana, was because of Molumby's triumph.

Not much over a year ago Tommy Gibbons was generally regarded as the logical contender for the heavyweight title. He was a native of Iowa, and had been in Montana for several years.

Gibbons was a native of Iowa, and had been in Montana for several years. He was a well-known figure in the community, and is respected by all.

LEFTY GROVES

By EVERETT SCOTT  
Star Shortstop of New York Americans  
How did I play 100 consecutive games?

Well, now that it is all over and I have passed that figure, I don't really know that I can explain, other than by saying that I love to play, base ball.

Records have never meant a thing to me. So back on June 24, 1916, when I started my long run I didn't feel the slightest idea that I was on the way to a record.

I have always loved to play baseball. I have always tried to give the best effort. The fun that I get out of playing, plus the desire to serve my country to the best of my ability, is responsible for my record for consecutive games.

Perhaps no player on the infield is more liable to injury than the shortstop. In the last eight years I have suffered a number of injuries. Several of them threatened to put me out of the running, but somehow I always managed to respond to the bell the next day.

Week Nearly Spotted Feet  
A railroad wreck came closer to spoiling my long run than any of the injuries I have suffered. It happened last season. The New York club jumped west to open at Chicago. I was permitted to stop at my home in Chicago, Ill.

Leaving there the next morning for Chicago, my train was held up by a wreck at Gary, Ind. When it became certain that the train wouldn't get me into Chicago in time for the game I grabbed my grips and sought the aid of a taxi.

The ride of Paul Berens had nothing on my dash from Gary, Ind., to Chicago. It cost me \$25.00 in real money. I arrived at the park in the seventh inning.

LOWELL-LAWRENCE GAME  
The Lowell high-Lawrence high school game, postponed yesterday on account of the rain, will be played tomorrow afternoon, weather permitting. Coach "Limbo" Lison plans on using the same lineup given for yesterday's game.

# Lowell Twilight League Season Opens Tonight

## CENTRALVILLES AND Y. M. C. I. PRY OFF LID ON SO. COMMON TONIGHT

### Mayor Donovan to Pitch First Ball in Formal Opening of Lowell Twilight League Season—Game Scheduled to Start at 6 O'clock—Amount of Collections to Be Announced

With Mayor John J. Donovan and Sup. of Parks John W. Kernan as pitcher and catcher respectively, the first game of the local 1923 Twilight League will get under way on the South common at 6 o'clock this evening. Despite the fact that tonight's clash will mark the initial encounter of the season, both teams are in good shape and anxious to make their debut an auspicious one. Much of the material of a year ago has been retained by the managers of the rival teams, as a glance at the following averages will show:

Centralvilles—W. Foye, Poulton, Tarant, Connors, Allen, Cawley, Bradbury, Buckley, Fure, McVey, Reynolds, R. Foye.

Y. M. C. I.—J. Linton, Ed. Cawley, Lynch, McGowan, Poulton, Gath, R. Linton, Murphy, Resmond, R. Linton, Olanian, O'Day, Marren, Conson, Smith, Gleason, McHale and Hobson.

**To Erect Bleachers**

As yet the proposed bleachers for the summer street slope have not been placed in position, but a substantial plan has been appropriated by the park department for this feature and it is expected that the stands will be erected within a week or two.

The diamond is in tip-top shape, the infield and outfield having been rolled by park department employees. Foul lines have been marked off and the pitcher and catcher boxes reconstructed according to regulations. This latter improvement is regarded as most needed since many of the high scores of the past two seasons have

been attributed to the unsatisfactory conditions of these positions.

**To Announce Collections**

An added feature of this year's program is the plan to announce the amount of collections each evening. Contrary to the opinion of several hundred fans, the Twilight League is not a gold mine. Last year, there were occasions when players were considered fortunate to receive more than a half dollar for their participation in some of the games. The largest amount was \$191 and that was gathered on the opening night. As a general rule, the season's donations averaged \$35 to \$50 per game.

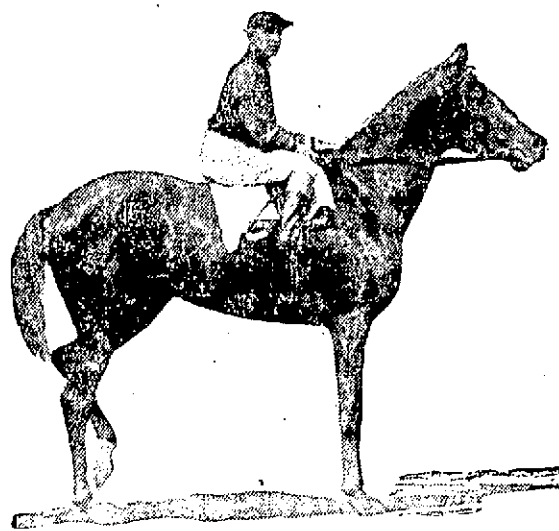

**Ganley and Grady Come**

"Boo" Ganley and "Nedso" Grady are booked for the arbiting this evening. Both are experienced men, impartial, and inclined to give impartial satisfaction. The umpires will see to it that tardy players who are responsible for delaying a game, receive a stipulated fine. According to rules adopted at a recent meeting, all games must begin not later than 6:15 o'clock. An endeavor will be made to start tonight's contest at 6 o'clock sharp.

**Second Game Tomorrow**

The second game of the season will be played tomorrow evening between the South Ends and the Broadwayers. Commentaries with respect to these two old-time rivals are unnecessary. Suffice it to say that they will renew their spirited rivalry tomorrow evening. Highland Daylights and K. of C. will do the honors on Monday evening and the remainder of the schedule will be announced shortly.

## Bo McMillin Is Strong Derby Candidate

BO McMILLIN

LOUISVILLE, Ky., May 5.—Kentucky holds a good hand in the next Kentucky Derby deal, but it lacks the real trumps of the effete east's band of candidates for that stake. The strongest of the western contenders appears to be Bo McMillin and Donges Bo is a sturdy youngster who won five races in 1922 and more than \$11,000, while Donges, in whose veins flows the blood of Bessie Melton, one of the most famous of all English mares, and of other famous English racers, won the Cincinnati Trophy last year and five other races. Altogether he won more than \$35,000. He, too, likes a distance and will carry weight. Other Kentucky horses which have a good chance in the Derby are Sheexiz, Sandy Hatch, Bright Tomorrow, Betty Beal, Prince K., and Aspiration.

THIS SEXTET NOW HOLDS BOWLING TITLE

The 1923 national bowling champs are none other than the famous Nelson Mitchell team of Milwaukee. They hold the world record of 3139. Starting at the top, and going around the circle to the right, the members are: Wilson, Caro, Manager Nelson, Clark, Somers and Keegan.

## AVILA MEETS FORMIDABLE FOE IN HERMAN

Johnny Herman of Allentown, Pa., who is on the program to swap punches with Louisville's leading welterweight, Johnny Avila, in the main event of the Moody club card at the present risk tonight, is without a doubt the most formidable performer the local boy has been called upon to face.

Herman is well known in this vicinity, though tonight will mark his initial visit to this city. Only last week he fought and won over Jack Thomas the Canadian welterweight in Boston. Previously he appeared in London in two sensational bouts with Paul Doyle. He also points to decisions over Jack Perry, conqueror of Eddie Shavlin, likewise Herman claims victories over the famous Lantz brothers, Pete and Steve. He's a hard hitter and is fairly clever at long range work.

While realizing the importance of the bout and the big contract he has on his hands, Avila is not worrying over the result. He is down to weight, and with no superior flash to carry around, he expects to give the Pennsylvania a merry battle. Avila trained under the direction of Chick Hayes, who conditioned him for the Flaherty bouts, and both pugilists and trainers look upon tonight's bout with confidence.

Kid Mercer of Salem and Frankie Bull of Charleston are listed for the semi-final. They are an aggressive pair and their offering ought to be an interesting one.

**Main Event Saturday**

Manager Conna Lynch of the Olympia boxing club announces that Young Manly of New Bedford, who is to meet Billy Murphy of this city for the featherweight championship of New England in Associate hall next Monday night, has given him positive assurance that he will arrive here Saturday afternoon and put the final touches to his training period in the local Y.M.C.A. and K. of C. Murphy has come to Boston for his work-around here during the final week of his training, and a number of friends who are in great physical trim for the go.

A large crowd of New Bedford residents has signified intentions of accompanying their favorite to Lowell. With the expected large Murphy following in this city, and the added attraction from the Irish city, Associate hall will, no doubt, witness one of the largest mobilizations of spectators on record. A good card of preliminary and a snappy semi-final will precede the main bout.

## Kinks-o the Links by "PRO"

Player drives his ball into a sand trap and finds that the ball is completely covered by the sand. Has the player the right to remove the sand, so as to get the correct location of the ball or must he play the ball as he finds it?

If a ball is completely covered by sand, the player has certain rights in order to determine the location of the ball before playing another stroke. He has a right to remove only so much of the sand, however, as will enable the player to see the top of the ball. No penalty is incurred if the ball is touched in removing the sand.

A ball being moved on the fairway is permitted by one of the employees to remain almost on a direct line from the teeing ground to the cup. A player's first shot falls a considerable distance after striking the ground and comes to rest on the edge of the hole, making it impossible to play the ball. What is the proper procedure in such a case?

The player has a perfect right to remove the sand, because of the position of the ball. He has a perfect right also to hit the ball in order that the ball be moved. There is no penalty in hitting the ball, but it must be dropped at or near the hole, where it lay but not nearer the hole before being played.

## JOHNSON'S SPEED BIG FACTOR

With Youth, Aggressiveness and Dash Backers Look to Him to Beat Willard

Saturday's Bout Will Make or Break Iowan's Championship Aspirations

NEW YORK, May 10.—Speed will be Floyd Johnson's answer Saturday to Jess Willard's bulk and hitting power when the pair clash in their 15-round match at the Yankee Stadium. Johnson's training program has been largely devoted to developing footwork.

Besides the knowledge that the outcome of his fight with Willard will make or break his championship aspirations, the youthful Iowan has an added incentive in the desire to atone for his comparatively poor showing against Fred Fulton, in a 12-round bout at Jersey City, recently. Johnson was declared the winner by newspapermen, but he was slighted in the last round Fulton had him tottering.

Johnson to date has failed to show the type of punching ability that wins championships. But under expert tutelage, his hitting has improved to a marked extent. In the opinion of observers, his backhand and leading punches are now powerful enough to overcome the 40-year-old Willard, to whom he will concede more than 40 pounds in weight, five inches in height and eight inches in reach.

The young westerner gained his present place in the heavyweight spotlight chiefly by his defeat of Bill Brennan, in a 15-round bout early this year. Previously he attracted attention by knocking out Bob Martin, former A.E.F. champion, in 10 rounds. Johnson, who was born in Des Moines, and is nearing his 23rd birthday, has had about 30 professional boxing engagements, of which he has won half by knockouts. He has been defeated but three times.

The card of bouts for the milk fund at the Yankee Stadium has been completed as follows:

Four rounds, Joe McCann, Newark, N. J., vs. Harry Drake, England.

Six rounds, Jim Herman, Omaha, Neb., vs. Al Releh, Newark, N. J.

Four rounds, Jess Willard, former champion, vs. Floyd Johnson, Iowa.

Fifteen rounds, Luis Piro, Argentina, vs. Jack McAuliffe, Detroit.

Fifteen rounds, Joe Willard, former champion, vs. Fred Fulton, New York.

## Trunks Add Speed to Girl Athletes

LEFT TO RIGHT: HELEN BARKLEY, KITTY LENTZ, HELEN MEIR, BETTY SCHENKEL, ALL OF PHILADELPHIA GENERAL OFFICES, PENNSYLVANIA RAILROAD SYSTEM.

Whether girl track stars of the Pennsylvania Railroad system should wear old-fashioned bloomers or should adopt the modern, although abbreviated, running trunks, has apparently been settled in favor of the trunks. At least this is the word from Pittsburgh, Chicago and St. Louis, the Pennsylvania Railway center, whose girl sprinters blamed their defeat in the last Pennsy athletic meet to wind-catching bloomers.

The Philadelphia girls, appearing for the first time in the slightly and almost weightless running trunks, captured first places with winning times. Especially was Betty Schenkel, the most famous girl athlete on the Pennsylvania railroad, a consistent winner. Pennsy's future athletic meet meets are almost certain to present the spectacle of a solid delegation of girl track event entries clad in running trunks.

Miss Rosa Zarobsky, the Pittsburgh girl who lost the system cup and championship by a step in the last meet, attributed her losing the 75 yard dash to her heavy bloomers. She has adopted running trunks.

Not only to possible adverse comments on girl employees wearing the running trunks, there is cited the word of hundreds who attended the last athletic meet that in the past crowd of 4000 spectators not one remark was heard indicative that the Philadelphia girls' attire was unsuited or improper.

On the contrary, wives and sisters of railroad men who composed a great section of the crowd were enthusiastic over the girls' adoption of running trunks and said that nerve and grace had been added to the athletic meet.

# Novelty and Completeness of The Home Beautiful and Own Your Own Home Exposition Strikes Responsive Chord

BUNGALOW BUILT ON 'AUDITORIUM STAGE BY CONTRACTORS' ASSOCIATION

COMPOSITE VIEW OF MAIN FLOOR BOOTHS AS SEEN FROM BUNGALOW STEPS

**T**OMORROW evening at 8:15 o'clock in front of the bungalow that sits on the stage of the Memorial Auditorium as the crowning feature of the Home Beautiful, Own Your Own Home Exposition, Mr. William Albert Holland and Miss Agnes M. Anderson, both of Dorchester, will be united in the bonds of matrimony. Their names were made public today by the committee in charge of this novel event in connection with the show. The wedding ceremony will be performed by Rev. Caleb E. Fisher, D.D., pastor of the First Universalist church of Lowell.

As the future Mrs. Holland stands at the side of her prospective husband, who may be pardoned for wishing their married life might be begun in that very bungalow. And, who knows, perhaps their friend husband will bid it in when it goes under the auctioneer's hammer Saturday night. That would be particularly fitting and a splendid climax for the exposition and the Hollands, as well.

The gift of the Lowell Contractors' association to the couple will be a check for \$100 and this afternoon members of the general committee were making a tour of booths to solicit other gifts. It is expected the future Hollands will receive a perfect shower of most attractive presents and useful ones as well. Some one of the exhibitors may toss in a ton of coal just for good measure.

After a most successful opening day yesterday, during which hundreds of visitors circulated through the Auditorium and found much of interest in the many exhibits, the exposition reopened at 2 o'clock this afternoon, with everything in first class condition and with increased crowds anticipated afternoon and evening.

With the closing of all stores this afternoon hundreds of persons were waiting to enter the building when the doors opened and the exhibitors looked forward to one of the busiest days of the exposition.

## WHEN CAPITAL AND LABOR JOIN HANDS GREAT GOOD RESULTS

Capital and Labor joined hands in Lowell this week for the commonweal

Nine Lowell contractors conceived the idea of the erection of a full-size and completely furnished and equipped bungalow home on the Memorial Auditorium stage. The proposition was placed before the men of local trades unions and immediately, without comment or debate, these men offered their services and their best efforts without thought of fee or compensation. They asked for none.

It was a perfect exemplification of the idea of co-operation that cannot help but mean much in the future for Lowell, and contractors and tradesmen went to work and gave to the exposition its crowning feature.

It was a physical impossibility to have every exhibit fully in shape yesterday, but today the exposition is a finished work of art and makes one of the most attractive displays ever put together in the city. In the first place, it is a new idea and that in itself creates a great amount of interest. But beyond that is the fact that the show really has been put on along pretentious lines and no expense has been spared to make it an unqualified success.

The several features of the exposition in this afternoon was a fashion show begun at 8:15 o'clock under the direction of Miss Beatrice Fillmore, of the Cherry & Webb Co. The models are Mrs. Anna Boone, Miss Marion Boyle and Miss Mary Hayes, of Cherry & Webb's, Miss Rose Courtney and the Misses Leslie and Mahoney of New York city and for the showing of children's costumes, the Misses Alice Brown, Mary Mahoney, Alice Mahoney, Margaret Joyce, Dorothy Mahoney and Master Paul R. Lancelot.

Hats worn were from the shop of

Zeena Clark Craig, shoes were furnished by Monahan, jewelry from the Hamblitt Shoppe, a wax and clocks from Cherry & Webb's and sporting attire from Blockman & McQuade.

Bogans Military band gave a most enjoyable concert last evening and again will be a feature tonight. Also, this evening coffee and sandwiches will be served at one of the booths in the rotunda.

Of particular interest in connection with this evening's entertainment is the announcement that John J. Hogan, at his radio booth, will pick up and amplify an address to be given in New York by Pres. Warren G. Harding.

The bungalow on the stage is the main attraction for all visitors and its attractive rooms were thronged with people last night. There was general and unstinted praise accorded the nine Lowell contracting firms that contributed toward its erection and the due co-operative spirit shown by the tradesmen who gave freely of their time and energy in the actual building of it.

## FAVREAU BROS. WIRE E. A. WILSON CO. BOASTS HUNDREDS OF HOMES OF GREAT PLANT

Favreau Bros. aptly termed the "electrical quater" of Lowell have shown their rapid growth that an organization of master workmen supplied with materials and fixtures of worth need never want for employment, for builders and home owners are quick to take advantage of a firm that always assists, notices and estimates at any cost.

All of the brothers can be found at the beautiful electrical exhibit which they are conducting at the Home Beautiful Exposition where they will be only too glad to give personal attention to visitors. Arthur Favreau, the manager of the firm, has had a very active part in arranging the lighting of the various booths at the exposition and the splendid results attained are proof that his firm is composed of expert electricians.

In 1922 Favreau Bros. wired more Lowell homes than any other electrical contractor.

## DEPOT CASH MARKETS ARE BODY BUILDERS

There are four food supply stations in Lowell that are so ably managed from the purchasing of foodstuffs to the selling of them that hundreds of thrifty women make it a point to always do their marketing at one of them. These stores are called the Depot Cash Markets and are owned and conducted by the Bordenoff Bros., with Philip Bordenoff as the general manager. This company has centrally located its markets so as to make convenient shopping places in your sections of the city, thus enabling their patrons to have all the advantages of the neighborhood store combined with low prices.

Another thing this live concern does is to publish each week in The Sun a list of special low priced goods so as to allow purchasers on Friday and Saturday an opportunity to make substantial savings.

## FITCH FURNITURE CO. HAS MANY ADMIRERS

Middlesex street long has been the home of the Fitch Furniture Co., carrying a complete line of household and office furnishings and equipment. The firm ever has been noted for its reliability and is willing to guarantee every stick of furniture taken out of its store.

Any home may be fitted out from cellar to attic after a shopping trip through the Fitch salesrooms and although it may not be in mind to purchase on the spot the company's officials are only glad to show their goods and trust to their appearance and quality to sell themselves.

It is a wideawake store, up to the minute in furniture style and with always a large stock from which selection may be made at the shopper's own convenience.

When the high school was being built vast quantities of masonry supplies were needed and the E. A. Wilson Co. supplied them. Again, when the Memorial Auditorium was being erected, masonry supplies were needed in a hurry, the absolute need of rapid delivery was never more urgent—E. A. Wilson filled the bill. And so one might go on, citing instance after instance where this well known firm has justified its stability and prominence in the mercantile field of Lowell.

More than 60 different masonry supplies are always on hand in the big yards of the Wilson Co. and for this reason almost instantaneous delivery is possible. And to this an extensive delivery equipment and one finds a perfect combination in the interest of service, spelled with a capital S.

While the office of the company is situated in Palace street, its yards are in upper Broadway and it is there that the real heart of the business is to be found. Here also are the coal yards, for the company perhaps is best known in its role of dealer in high grade anthracite and bituminous fuels.

No better exemplification of the Wilson Co.'s conception of the meaning and importance of service can be found than by recalling the winter just gone, during which the firm went the very limit in an effort to keep fuel in the bins of hundreds of Lowell families. What is more, success crowned their efforts and a record was set up of which the company may well be proud.

The Wilson exhibit at the exposition is just to the right of the main aisle leading to the door of the Auditorium proper and shows many articles of interest for the company perhaps is best known in its role of dealer in high grade anthracite and bituminous fuels.

## STURDY MATERIALS FROM SUBSTANTIAL FIRM

For many years the D. T. Sullivan Co. has held a prominent place among Lowell business concerns and for the same length of time the worth of its products has been shown in the construction of many of the city's best known buildings.

There is nothing particularly attractive about masonry supplies, you will say, but without a good foundation no building can long endure. The stability and reinforced strength of the Sullivan Co. products therefore, are its stepping stones to success, although dealing in other lines also has had a share in the firm's advancement. For instance, D. T. Sullivan specializes in artistic bricks for fireplace construction. The measure of comfort a fireplace adds to a home is beyond the pale of debate. It is accepted as a permanent stability beyond comparison and the Sullivan bricks add immeasurably to the appearance, actual usefulness and long life of a fireplace.

high Valley is without a peer. This is the type of cement D. T. Sullivan handles exclusively and satisfied users of it are legion.

The Sullivan Co. also deals in a large extent in coal, a commodity hard to get at times, particularly during the winter just gone, but it was gratifying for the company officials to realize that the fuel customers were only too willing to co-operate during the shortage and in retaliation every possible service was rendered.

When he is not actively engaged in directing the affairs of his company Daniel Sullivan may be found at his beautiful home on North Tuckersbury hill, where farm life makes for a happy diversion, although in his case, agriculture has been worked out upon a basis equally as successful as that which forms the foundation of his regular business.

**RUNELS CONSTRUCTION  
CO. WELL ESTABLISHED**

Although somewhat new in the local contracting field the Runels Construction Co. has firmly established itself upon actual performances. Its officers are Ralph E. and Chester Runels,

brothers and Lowell boys, well known in the city. Both are technology graduates and engineers of ability and tackle any sort of a job with so much vim that its success is assured at the very start.

One of the outstanding accomplishments of the company was the reconstruction of the canal bridge in Central street for the Locks and Canals Corp., a job that required accuracy and haste, but unerring accuracy and the fact that it was "put over" without a hitch, speaks well for the ability of the Runels boys.

The Runels Co. is equipped to take any kind of an engineering construction job, power plants, bridges, dams, mill work or private buildings. One of the best examples of the work this company does is seen in the new golf building at the Vesper Country club, of beautiful and sturdy construction and indeed a credit to the company.

The company's office is in the Hildreth building and its plant is located in West Adams street.

The Lowell Contractors' association was quick to realize the ability of the Runels boys and presented upon Chester Runels to take the presidency, which he now holds. In this position he has worked tremendously hard in connection with the Home Beautiful exposition and his fellow-members are only too glad to give him unstinted praise for his efforts.

## THE HOME IS UNFINISHED WITHOUT PLANTINGS

Better an inexpensive little home with a garden, some trees, or some vines and bushes, than the finest kind of a mansion bare of anything that grows.

Unfinished is the home that has not good plantings round about. The right sort of trees and shrubbery, properly grouped, make one's property grow more valuable each year. But, just as the furniture for the home itself must be chosen with care and with due regard for the style of the house, and in respect to the lines of the rooms in which it will be placed, so also must the plantings for your out-of-doors be chosen and planted with the best possible general artistic effect in mind. A heterogeneous mixture of things without is just as bad as a conglomeration of gewgaws and useless ornaments within the home.

Your doorway style will decide, to a large extent, what shrubs or flowers or vines must surround it to give the right effect. Some doorways can stand a veritable mass of shrubs and rose vines until they almost resemble the overgrown tangled portal of the palace of the sleeping beauty! For the little old-fashioned cottage a vine of Dorothy Perkins roses on a doorway trellis and a ragged border of perennials leading to the gateway is all that is needed. Sometimes a wild mass of rhododendrons makes a lovely setting to the door of home. If the distance between the door and gateway be very brief, an evergreen planted on each side of the gateway may be all that is needed.

A flagged foot-path is charming with a bordering of box-sandra and ground juniper, and as a background to a wealth of azalea bushes nothing is finer than masses of evergreens.

To separate the vegetable garden from the other part of the grounds, or as a fence between you and your neighbor, a row of sturdy evergreen trees is a happy choice. Sometimes the house, the orchard, the stable or the garden must needs be protected from the winds that blow, and pines, spruce or firs will give one very quickly a windbreak that is as useful as it is beautiful.

Large clumps of evergreens greet one at the gates of many big estates, and even in the small home place, one or two each side of the entrance are very charming.

In a really, truly garden there will, of course, be a spot where birds may congregate—one of the pretty bird baths of terra cotta or Italian cement, set on a pedestal or almost upon the ground. Sometimes a very striking bird bath is of oblong shape and harbors water lilies or other plants, as well as inviting all of the feathered creatures.

Lovely wrought-iron stands support dishes of ferns and trailing plants, and are a pleasant change from some of the more formal and heavy urns and vases which are seen in gardens. Wrought iron, too, makes elaborate gateways, in modernized patterns of olden times, with grotesque dogs or other animals perched upon the old stone gateposts.

There are so many delightful garden places to be had today: seats and urns and window boxes, tables and chairs and drinking fountains for the more elaborate home. Some of the flower boxes are of cement and covered with elaborate designs of peacocks, animals and scrolls, until one wonders if they would not almost detract from the beauty of the flowers to be planted within.

But no matter how small or how modest the home may be some kind of a garden may be had, even if only many window boxes filled with geraniums and petunias.

## VARNISH AS PROTECTOR FOR LINOLEUM

The housewife who treats with busy step over the surface of her kitchen floor newly covered with linoleum, notices within a month or two that it is beginning to show signs of wear. Parts of the pattern are wearing away, the color may be changing or the surface is spotting, somewhat depending upon the frequency with which it is scrubbed.

What might have been done—if anything—to preserve the linoleum? According to the Institute of Paint and Varnish research of Washington which has recently reported on a series of tests the entire difficulty may be overcome by the use of varnish. Either a high-grade interior varnish or an all-purpose varnish should be used. A smooth, glossy finish is obtained by the application of two coats, allowing two days for drying between coats.

Linoleums thus treated were rubbed at thirty different times with various soap powders. Each sample was entirely unaffected, and the conclusion is inevitable that proper varnishing of linoleums should by no means be neglected. The varnish should be applied immediately after the linoleum is laid unless it is first desired to have it stretch to its permanent form on the floor.

## ADVICE AS TO USE OF FURNITURE POLISHES

Don't use furniture polishes, oils or varnishes on upholstery leather. They will cause it to become sticky and to lose its lustre. When leather is in need of cleaning, use a damp cloth and a little castile soap. Rinse with another damp cloth and dry with a clean dry cloth—returning the original lustre by rubbing briskly.

Don't forget that moths will lay eggs under slip covers. When using them, remove them occasionally and brush the furniture thoroughly.

Don't use a carpet beater on upholstered furniture. The frequent use of the vacuum cleaner and the whisk broom will serve to remove all objectionable dust.

Don't fail to remove the loose cushions occasionally and run the hand in the space between the seat and the back. The usual collection of keys, coins, pencils, etc., that this practice will divulge will do the furniture no harm, but one often finds foodstuffs that are subject to decay.

Don't sit on spring arms, stand or kneel on spring edge seats. Although this practice will show little effect on a well built piece of furniture, it constitutes an abuse and should be avoided.

Don't use the vacuum cleaner on down-filled cushions, as it has a tendency to pull the feathers through the covering. A careful brushing will suffice.

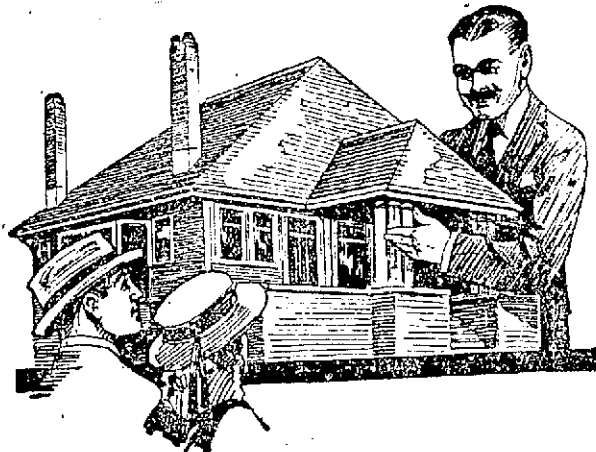

Don't allow household pets to lie on upholstered furniture. They may not only soil it, but cats, especially, will ruin the cover with their clawing.

May 1923

## A "Rectangular" Home

CURTIS SERVICE BUREAU, CLINTON, IA., PLANNED THIS BUILDING ALONG RECTANGULAR LINES.

The home pictured here is an example of modern small-house building at its best. It has all the elements of economical construction and the quality of excellent appearance.

There are seven large rooms with an abundance of closets and built-in features. Yet it is not too large to be placed on an ordinary city lot, leaving room for a drive way to the garage.

The layout of rooms is rectangular, an arrangement of which Charles E. White, Jr., a leading architect of the country, has said: "Rectangular houses permit a better arrangement of rooms than square houses."

## Sheltered Hall

The stair hall is sheltered by a vestibule, containing a coat closet. The living room occupies one side of the house, with windows on three sides, and a fireplace in the center of the long outside wall. Under the window which overlooks the rear garden is a built-in window seat, with bookcases in the corners at each side.

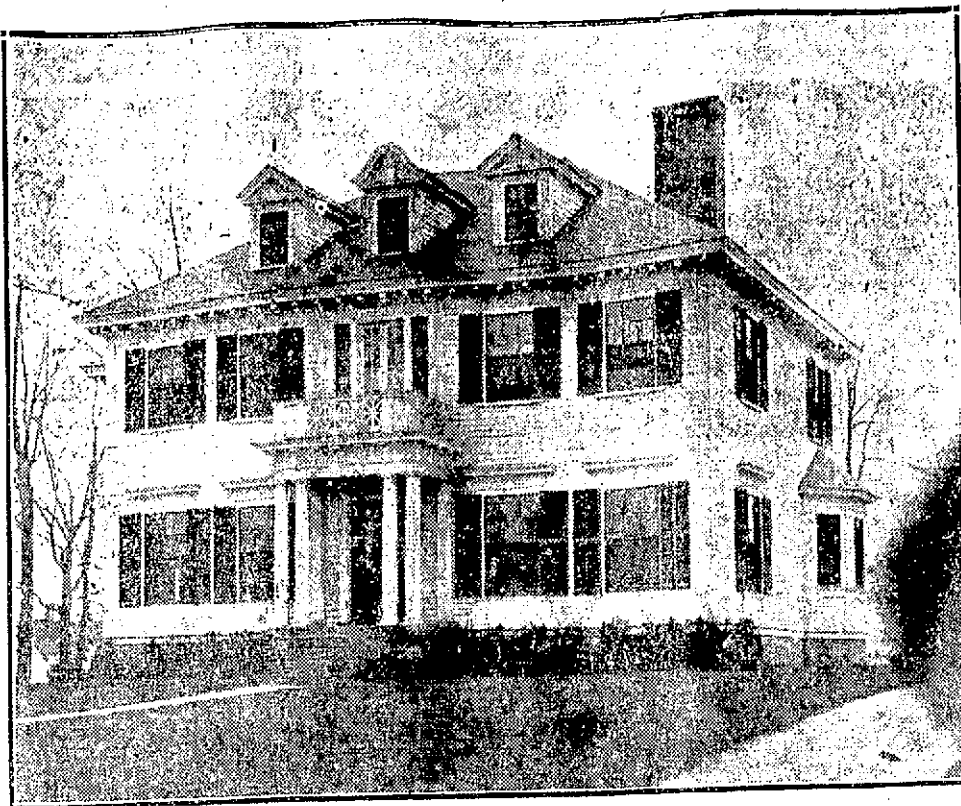

At the front of the other side of the hall is the light, cheerful dining room.

This home can be built for \$5040, including heating, wiring and plumbing, according to Curtis Service Bureau, Clinton, Ia. Its designers. The price may vary slightly in different localities.

A pair of corner china closets give it a quaint charm, and a fireplace across one corner adds to its hospitable air. The fourth corner is also cut across by the kitchen door, giving the room an unusual and pleasing shape.

**Kitchen Aids**  
In the kitchen there are numerous built-in conveniences. A separate rear entry with a window in it is provided for the refrigerator. From this entry the basement steps are accessible, so that laundry and ashes may be taken out of doors without intrusion into a spotless kitchen.

Each of the four bedrooms upstairs has a corner location, with windows on two sides. Each has a clothes closet, and one has also a built-in tray case. Near the bathroom there is a linen case built-in.

WILLIAM E. ROWLANDSON RESIDENCE  
By Thomas W. Johnson Co.WEAVER ROOFS COVER  
MANY BUILDINGS

If one were able to fly over Lowell in an airplane and come down near enough to the tops of buildings to catch a good view of scores of roofs, he could get a fair conception of the amount of work done in the city by Frank L. Weaver & Son, roofers, for it is safe to say, no other local roofing concern can boast of such an amount of business.

The present Weaver concern is hereditary, being formed by Samuel H. Weaver in 1871 and now continued by his son and grandson. Every mill in Lowell is of that roof construction, and many of them are Weaver roofs.

some put on years and years ago and still going strong. S. H. Weaver entered the roofing field at a time when many of the textile corporations changed the construction of their buildings from pitch to flat roofs and the business connections formed then have been perpetuated by the present owners of the company.

The Weaver business success was founded upon personal relationship between man and man, enhanced by a real interest in the job at hand and in the conduct of the company.

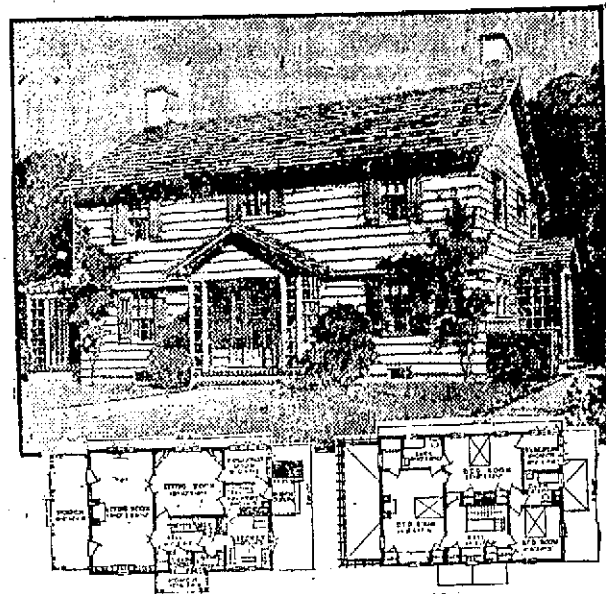

Alvah H. Weaver, junior member of the company, has played a prominent part in the Home Beautiful exposition and gave so much of his time to the arrangements that his own exhibit entirely was forgotten until just before opening time yesterday. He was chairman of the committee on decorations, heating, lighting and general layout. That's all there isn't any more.

COMPANY WILL BE 100  
YEARS OLD IN 1928

The Thorndike Coal & Grain Co., successor to the Livingston Co., is conducting a business in Lowell well in keeping with the reputation built up by the former owners. Fuel, grain and mason supplies are carried in extremely large quantities and the company is splendidly equipped to handle large orders at short notice. It is established at the old Livingston location in Thorndike street, which is a familiar place to thousands of Lowell house owners.

The William E. Livingston Co. was established in 1823 and the business now being carried on by the Thorndike Coal & Grain Co. will reach a full century of life five years hence. That is a record of business difficult to match and places the company upon a solid foundation in local mercantile circles.

## Western Type Home

PLANS FOR THIS SIX-ROOM HOME WERE DESIGNED BY SERVICE BUREAU, CLINTON, IA.

Three architectural achievements are typified in this six-room home of the western type. It is distinctive, without being extreme; its design bears the test of good taste and right principles; and it combines a maximum of convenience with economy of material.

It is so planned that standard sizes and lengths of standard materials can be used throughout. There is just the right amount of relief in the shadow of the open eaves, the projecting upper story, the divided light windows with their louvered shutters, the lattices on each porch and the simple, inviting entrance.

This is a home for a good sized family. Convenience is the keynote. The kitchen, for instance, has as pleasant a location as any room in the house, being on a front corner.

## Easily Accessible

From it one can reach the vestibule to answer the front door, the upstairs, the basement and the downstairs lavatory, all without passing through any other room. The pantry may be left as a chest for storing various things.

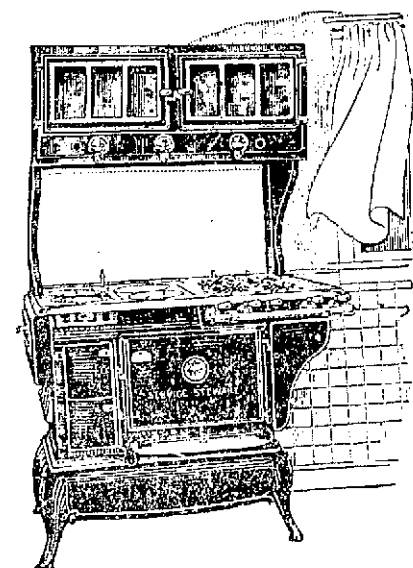

**CLEANSSES CLOTHES FOR HOME BEAUTIFUL**  
Just across the street from the Memorial Auditorium and the present Beautiful exposition is the workshop. Home Beautiful exposition is the workshop of the Dillon Dry Works, noted for its ability to beautify clothing that has become soiled through long usage.

**Privacy for Guests**  
Guests are provided for in the sleeping quarters, too. Any one of the three bedrooms upstairs can be grouped with a private bath, since there are two excellent bathrooms.

Among the second floor features that catch the eye of the good housekeeper are three hanging closets, two tray cases, a built-in dressing table, a large store closet, a broom closet, linen closet, medicine cabinets and a window seat in the hall which can also be used as a chest for storing various things.

This company is under the active and capable management of Miss Mary E. Dillon, a member of leading local associations and one of the city's most successful business women. The Dillon establishment makes a specialty of cleaning, darning and household furnishings, which fact is of particular interest just at this time, when spring cleaning is in full swing. The Dillon works are conveniently located and reasonable prices, and quick service are other assets.

## Isn't This Truly a Beautiful Range?

What an attractive design, nice lines, convenient arrangement, sturdy construction and fine finish---

**SERVICE STEWART**  
De Luxe Combination Coal and Gas RANGE

In Blue or Gray all Porcelain Enamel finish with White Enamel and Nickel trimmings, it is unusually BEAUTIFUL.

## We Strongly Recommend This Range Because—

- 1—It is built with 90 years' experience—every feature that has proven practical included.
- 2—It is so attractive, so well balanced, so compact and convenient.
- 3—It has such large capacity for cooking and baking, THREE ovens and EIGHT Cooking holes for Coal and Gas.
- 4—Its Coal section and Gas sections are entirely separate so that BOTH do perfect work.
- 5—Every person to whom we have sold this range is highly pleased with it, and very proud of it.
- 6—Because it is built for lifetime service, and we install it in your home and guarantee it in every way.

**ELMER E. FITCH CO.**

160 MIDDLESEX STREET

FOOD FOR RADIO FANS  
AT HOGAN BOOTH

Not so long ago a new store was opened in Central street, under the ownership of John J. Hogan. It featured electrical supplies. Along came the radio to become a part of every well equipped home and Mr. Hogan grasped the opportunity as he attempted to pass by and today is able to show a shop equipped from stem to stern with radio apparatus and its multitude of appliances and features.

It is a shop abreast of the times, for nothing in recent years has gained such a foothold as this self same radio and the future is even more alluring than the past, for its accomplishments are but in their infancy. Radio sets of all sizes are on display at the Hogan shop and complete and personal instruction as to installation is yours for the asking, in fact, it goes with every sale.

Recently Mr. Hogan had added a department given over exclusively to sporting goods and trade in this new line has been brisk.

At Mr. Hogan's booth at the exposition a radio receiving and sending set is in constant operation. Stop around and listen in.

HORNE COAL CO. SELLS  
FUEL FOR WARMTH

No one will deny that coal is a most important adjunct to every home, in fact, without it, a home is no home at all. It takes on the aspect of a barn.

For years the Horne Coal Co. has been acknowledged to the fuel wants of Lowell house-holders and their patrons are counted by the hundreds. Fred Horne and his son, Herbert, make up the company and no local business firm is better or more widely known.

In connection with the Home Beautiful exposition, the Horne Co. will show samples of its coal and at its booth on the main floor of the Auditorium may be seen a coal pocket in miniature, a novelty that is sure to attract to little amount of attention.

Although anthracite fuel is handled by Horne and his sons, the company has a large stock of bituminous coal, which is sold by the company daily. Many home owners with bituminous fuel and the company is always ready to handle a large order without delay.

The big pockets of the company are at the Lowell Terminal Co. in Tanner street, but the office is handy by downtown Lowell, at the Wymann's Exchange building.

Coal means warmth, comfort, health and cheerfulness. The Horne Co. plays a noble part in making these things a reality for all.

**CHINA LEARNED BY MAIL**  
TIENTSIN, China, May 10.—For the first time in Chinese functional history, correspondence schools have been started here. They are in connection with the new school of civilization opened by the Chung-Ching, eminent Chinese scholar.

**NERVOUS BRIDEGROOMS**  
TUNSTABLE, Mass., May 10.—Bridgrooms are coming. The Tunstable church here a cross-bow outlay in pens. Every fourth pen has had to be replaced, due to the nervousness with which the grooms are taken.

Just another indication of the great place the Memorial Auditorium is taking in the life of the city, declared one visitor. His remark was repeated a thousand times.

For Fine Homes

Coburn's store carries a full line of Du Pont Paint Products. They are easy to apply and their quality will insure durable, pleasing results. You can learn more about these products for home decoration at the Auditorium, booths 40 and 41. Du Pont Prepared Paint, Regular Shades, Qt. \$1.03; 1/2 Gal. \$1.95; Gal. \$3.75.

The products of Chas. H. Gillespie & Sons have been handled at Coburn's for over 40 years. Gillespie's Monolac is being featured in Coburn's exhibit this week. It is a wonderful finish for woodwork, floors and fine furniture. Monarch Bull Dog Paint and Varnish Remover, liquid and cream, is another Gillespie article to be shown by the Coburn Co. Monolac, Qt. \$1.45; Paint and Varnish Remover, Qt. 70c.

U. S. N. Deck Paint has been sold and recommended at Coburn's for 30 years. It combines to a remarkable degree beauty of finish with extreme durability. This good paint will occupy a prominent place in the Coburn Exhibit at the Auditorium. U. S. N. Deck Paint—Regular Shades, Qt. \$1.25; 1/2 Gal. \$2.20; Gal. \$4.15.

Barreled Sunlight is not only adapted for use in the home, but for any interior surface where a pure white, light reflecting finish is desired. Get descriptive literature on this tile-like finish at Coburn's exhibit. Barreled Sunlight, Gal. \$5.35.

Mapaz Zinc Oxide is a paint paste. It is made from the New Jersey Zinc Company's French process "Green Seal" Zinc Oxide, ground in refined linseed oil. Its value in paint will be fully explained in Coburn's booths at the Home Beautiful Exposition.

"Deter" is the name of a cleaning agent which makes all water delightfully soft. It is especially good for cleaning woodwork, and its uses in the home are numerous. Let us tell you about "Deter" at our booths in the main Auditorium.

## Two-Family House Popular

PLANS FOR THIS TWO-FAMILY HOUSE WERE DRAWN BY GEORGE S. BROWN, ARCHT. PLAN. FIRST FLOOR PLAN AT RIGHT, SECOND FLOOR PLAN AT LEFT.

Two family houses are enjoying a rapid rise in popularity, one reason being that it is a "home that buys itself" for the rent from the apartments will produce income to repay the investment at the same time that the owner is enjoying his own home in the other apartment.

There are two different types of such houses. The two-family house, in which similar apartments are located side by side, and the duplex, where the apartments are up and down.

**Separate Entrances**  
Such a house may be just as attractive from the exterior as a single residence; but in general, more care has to be taken in the choice of a plan to insure this. Most people prefer a style having the general appearance of a single large house, yet which has separate entrances and porches.

The two-family type, pictured here, is a splendid example of Colonial architecture. With stables, green bands, 12 light windows, Colonial entrance and narrow corridors, carry out the refinement and simplicity characteristics of the best Colonial models.

The apartments on each side of the house are identical, but reverse. Each entrance admits to a main stair hall, which is also directly accessible from the kitchen. French doors are used between the hall and living room and between living room and dining room.

**Basement Divided**  
In each of these apartments there are two bedrooms and a slightly smaller sewing room, with bath-room, built-in linen closet and medicine cabinet. There is a stair to the attic, which may be used by both tenants.

The basement is divided into two, and each family has its own basement space off the kitchen and under the main stair. Separate heating plants and laundry rooms are provided.

Light in the rooms makes the interior attractive and convenient. There is a pair of entrance closets in the living room, between dressing and workrooms, and a medicine cabinet.

The overall dimensions of this house are 15 feet by 30 feet, so that only a half-sized lot is required. Yet each apartment contains all the necessities and conveniences of a modern one-room house.

## GALLAGHER WIRES SCORES OF LOWELL HOMES

On many of the new dwelling houses being erected in the city, one may see this sign: "Electrical Work by Gallagher." The builder of the house knows that this sign means good work, fair prices and expert workmanship. Gallagher, electrical contractor, has his office and shop at 53 Humphrey street and truthfully says he has no downtown rentals to meet as a portion of his overhead expenses. Better prices to customers result.

Gallagher wires scores of homes every year and the fact that his business shows and maintains a steady and healthy growth is evidence well of his ability and the character of his work.

## ATHERTON CO. FEATURES NOVEL PURCHASE PLAN

A very attractive exhibit at the exposition is that of the Atherton Furniture Co., occupying three floors in the Chaffoux store. Because the Atherton Co. are manufacturers as well as dealers, it is possible for them to quote prices that are bound to stand up under the searchlight of comparison. An unusually liberal buying plan also is a feature of this company's business and officials on duty at the exposition will be only too glad to explain it to any person interested.

Joseph H. Martin, long associated with Chaffoux's, holds a responsible position with the Atherton Co. and because of his wide acquaintance in the city has proved a most valuable man in his place.

Furniture to suit all needs and pocketbooks is included in the large assortment on display on the three floors the company occupies at Chaffoux's. In fact, it is one of the largest and most complete stocks to be found anywhere in this vicinity. The fact that these truck loads of new furniture arrive almost daily is indisputable evidence of the company's success.

Many women who passed through the bazaar joyfully exclaimed at the attractiveness of the layout, but were forced into the use of superlatives when reaching the snow white kitchen. It struck a responsive chord.

It struck a responsive chord.

## 30 YEARS OF SERVICE BEHIND JOHNSON CO.

The Thomas W. Johnson Co. has been in the contracting business in Lowell for more than 30 years and now is operated by Tom, the father, and John and Harry, the sons. They comprise a combination difficult to match and in the matter of business set a dizzy pace.

During this 30 years of activity the company has developed an organization that now moves with efficiency, speediness and extreme thoroughness and many of the present workmen connected with it have received their training from no other quarter.

John Johnson, the active manager of the company, has liberal investments in the success of the exposition and his firm has given generously of its time and material to this end. He is also prime mover in the Contractors' Association.

No company can successfully exist for 30 years without a reason and a good one for competition is undoubtedly an asset and has been to the Johnson Co. for many years. The Johnson Co. has never lost its reputation for speed and efficiency in the handling of the most difficult work. Any job, big or little, will be handled without charge for out of this opportunity to handle many contracts result.

The Johnson Co. is prepared to undertake any type of contracting work and has covered a wide range of construction in the city. In the building of the new club house at the Y. M. C. A. country club the Johnson Co. has the subcontract of all the plumbing, which went into this splendid building.

In connection with the contractors, the Johnson Co. has part in the erection of the new building which features the finest and most expensive.

## PROPER PLASTERING OF VITAL CONCERN

When a home is being prepared for occupancy, the owner's own occupancy, the contractor's purpose is to provide the best possible environment for the family. The first of these is the proper plastering of the walls and ceilings.

Mr. Gallery, and his associates, regard the plastering of the walls and ceilings as the most important part of the construction of a home. They will not allow a home to be occupied until the plastering is complete and the walls and ceilings are in perfect condition.

## CHARMING BEDROOMS

Wall Paper That Enables  
Exact Achievement of the  
Desired Effect

They are simply irresistible—bed-  
rooms.  
They are the innermost sanctuary  
of the house.  
They are the rooms for confidences.  
They are the rooms for dreams.  
They are, of all rooms, nearest the  
heart.

What woman does not thrill with  
joy when she has the chance to "do  
over" a bedroom—perhaps a drab, bor-  
ing room with no meaning or life or  
personality.

There are literally hundreds of deli-  
cious wall papers for her to choose  
from—for designers have excelled  
themselves for bedrooms. She can have  
exactly the kind of bedroom to suit  
her individuality—and a bedroom must  
suit, for late at night, when one is  
tired one does not wish to be jarred;  
and early in the morning it is tragic  
to be irritated.

There are sunny yellows that the  
grayest mornings in the world can-  
not discourage.  
There are papers where flowers bloom  
so sweetly that the blackest winter  
morning can't be cheerless.

There are such quiet old patterns  
straight from revolutionary walls that  
even if a trolley jangles by outside it  
seems unreal and far away. And if  
you are one of those people like the  
man who said he could bear "anybody  
but a person who smiles before break-  
fast"—there are quiet papers of digni-  
fied elegance that fit no matter what  
mood.

And what they all express is a deep  
peace that brings "innocent sleep,  
sleep that knits up the ravell'd sleeve  
of care."

There was a time when people made  
bedroom papers with realistic figures—  
birds that never alighted on flowers  
half an inch away from them—and  
other unattractive pictures that drove  
the one who had to lie in bed and  
watch them into a mild insanity. And  
then the day of good taste dawned and  
one counted and counted again in all  
directions while one gradually went  
mad.

But those times are past—and the  
newer papers for bedrooms are real-  
istic, peaceful, quiet—papers that never  
annoy as one sees them day after  
day.

For the children's bedroom and the  
nursery there are the most fascinating  
papers. There is an all-over pattern  
where the figures represent toys—  
wooden houses, wide-eyed dolls, prae-  
rie horses, toy soldiers—changing fig-  
ures to arouse the child's imagination  
and amuse him—lead him to "make up"  
stories about them for himself. And  
there are no end of absolutely deli-  
cious papers each one a happy fairy  
story in itself. When these are placed  
about half way up the wall where the  
little child can easily see them, the  
nursery can never again be a dreary  
room. For if the figures of the  
fairy are large enough to be seen  
readily, place it under the eaves,  
where the little one can watch them  
from his crib, and gently dream of  
them in those moments of sweet fancy  
between waking and sleeping.

MIRRORS AND MIRRORS  
AND MORE MIRRORS

In the furnishing of home, mirrors  
should be given a great deal of  
consideration. Many people hardly re-  
alize what wonderful things a prop-  
erly placed mirror can do. If your room  
is just too narrow for anything, hang  
a mirror on one of its sides and see  
the effect. At once your walls seem to  
stretch out and the stuffy, oppressive-  
ness of the room's narrowness is gone.  
It sometimes will require a mirror of  
some size, of course, to accomplish so  
big a result as this, but even a smaller  
one will at least help.

If the lovely outlook from your win-  
dow is too pretty to miss when one's  
face is turned the other way, hang a  
mirror opposite the window which will  
reflect at all times the favorite out-  
look. If doors are set too close  
together for good effect, hang a narrow  
panel mirror between them to break  
their lines. If the hallway is dark, a  
mirror or two will brighten things con-  
siderably. And what is a real draw-  
ing room without at least one mag-  
nificent mirror reflecting in the ceiling  
and reflecting all the beauty of the  
room and the many happy events which  
take place therein?

One good mirror will give a better  
effect than several pictures of doubt-  
ful value. And to the woman of ar-  
tistic skill the mirror's frame may  
give an opportunity to create some-  
thing unusual and original in the way  
of decoration. An ordinary wooden  
frame may, with the use of good pa-  
per and the right kind of paint, be-  
come the replica of an antique.

Cord and tassels are used a good  
deal today to hang the mirrors of ex-  
cellent type. And candlesticks used in  
conjunction with mirrors are always de-  
lightful.

One can scarcely hang too many mir-  
rors in the home and even in the small  
apartment there should be at least one  
certain glass to insure the proper ar-  
rangement of the family's attire.

THE IRIS HAS MANY  
GLORIES OF ITS OWN

The possibilities of the iris is some-  
thing to be reckoned with in the plant-  
ing of the home flower garden. Not  
only for the ease with which one may  
obtain a lovely carpet of them, but for  
the variety of coloring which they  
possess.

From earliest May to mid-July they  
will give you all the color brilliancy  
you may wish—vivid, yellow, white,  
red, deep purple, bronze, or claret  
color. From Tennessee, about small  
crested iris, and California gives us  
a more delicate affair which does not  
grow so easily as the hardy variety  
so prevalent in our own New Eng-  
land swamps.

Even the slender gray and green  
blades of foliage make pretty clumps of  
color when flowering time is over. And  
by breaking apart the tube-like rib-  
bons and separating them late in the  
summer you are assured of larger  
patches of gay coloring in the spring  
that is to come.

A maximum of color with very little  
effort is the prime practical asset of  
this hardy little plant.

Aside from their glory of coloring  
their intricate markings and wonder-  
ful textures necessitate close inspec-  
tion in order to enjoy them to the  
fullest.

A clump of iris growing hard by a  
bush of lilacs, with a background of  
evergreens, is a combination "devout-  
ly to be wished."

## FUEL SAVING CLAIMS BY VICTORY FURNACE

An opportunity to cut fuel bills 50 per cent is being offered homeowners of Lowell by William H. McElholm, a Westford street plumber. Mr. McElholm is the authorized dealer in this district for the Williamson Heater Co. of Cincinnati, manufacturers of the Victory pipeless furnace and other new heating plants.

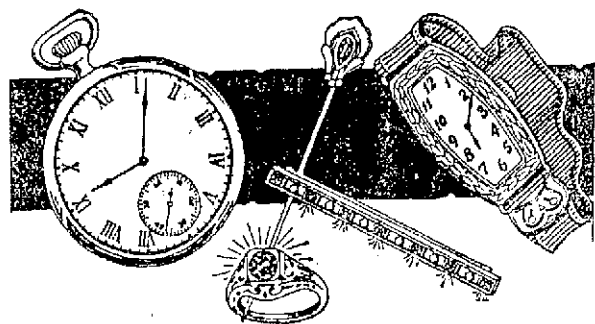

## New Life Cleanliness!

That's what Spring demands of the furnishings you're particular about. Blankets made fluffy. Comforters made downy. Small Rugs, Velours and Tapestries restored to their original color.

WARNING—High class cleansing is a complicated process. It can be done PROPERLY only by highly skilled people with costly machinery and equipment. Be careful in the selection of your cleanser.

## For the Bride's Home Beautiful—

In selecting gifts for the bride you are sure to please her if you choose some attractive yet useful article for her new home. As, for instance, these:—

- Nut Bowls
- Tea Sets
- Silver Chests
- Sandwich Plates
- Cheese and Cracker Sets

For wedding presents our Cut Glass is always popular, and the new gold line stem ware is also much in favor.

Other appropriate gifts for the bride's home will be found in our complete line of Universal Home Needs including Electric Toasters, Electric Popcorners, and Electric Chaffing Dishes.

Clocks are always welcome. We have them for the parlor and for the kitchen.

## LARGEST ELECTRICAL SUPPLY HOUSE FREDERICK F. MELOY A ROBERTSON CO. STANDS BUILDER OF HOMES ON ITS RECORD

The biggest local supply house for electrical fixtures is without doubt the New England Electrical Supply Co. with its two stores, both in central locations, one in Dutton street and the other in Central and Prescott streets. Here the home builder can obtain at reasonable prices anything or everything from wiring to the furnishing of artistic fixtures for lighting and appliances for cooking, heating, etc.

Henry Collins, the director of this business, is one of the city's real promoters and is noted for putting into practice every idea that will tend to give the customer better merchandise for less money. He has taken several European business trips to ascertain methods employed in electrical houses in England, Scotland and France.

In another part of today's Home Beautiful section is a full page advertisement prepared by Mr. Collins and containing many special offers in fixtures, in keeping with the home building programs planned by a great many people.

Frederick F. Meloy, general contractor, is one of the nine builders who had a part in the conception and erection of the bungalow at the exhibition. He has been engaged in the worth while occupation of building homes and industrial plants in Lowell for a number of years and is considered one of the foremost men in the city in this type of business.

He believes fully in the statement that the prospective home owner places his happiness in the hands of the man who builds it and fully realizes that the responsibility is the contractor's. It is this possession of a personal sense of responsibility and a reputation at stake that has contributed to the success of Mr. Meloy's successful business career.

Contractor Meloy is equipped to do carpentry, brick or concrete work and careful estimates on all jobs are freely given at all times. One also may rest assured that a Meloy job will be done as economically as possible, with the thought always in mind that the home builder is the man who is paying the bills and deserves and demands people.

The Robertson Furniture Co. long has been associated with thoughts of the best there is to be had in house furnishings. Pride in the character of goods sold, prompt service, a willingness to allow people to shop in the store as they will and an anxiety to please are some of this company's attributes.

Not only is the Robertson Co. a representative concern, but its establishment in the city came many years ago and upon the foundation laid at that time has been built a business of extensive proportions.

This week, in connection with the Home Beautiful exposition, the Robertson Co. has made special offers in bedding, draperies and gifts. A year or two ago the Robertson Co. opened a gift shop at its Prescott street store and this feature has become one of the most attractive departments of the business.

practical service in return for his expenditure.

Mr. Meloy's office is 621 Wyman's Exchange.

## The People That Live In It Make "The Home Beautiful"

Not only will there be harmony in personal intercourse, but there will be harmony in their surroundings. The furnishings, the carpets, even the kitchen, will be made beautiful with the most beautiful cooking apparatus manufactured—a Crawford Combination Gas and Coal Range (either in smooth black castings or enamel), which gives good health with perfect cooking that is essential to happiness. The dining room, with a tasty American Black Walnut or a Mahogany Dining Room Suite, will make their meals more enjoyable. The living room will be fitted up with comfortable chairs that induce relaxation of nerve tension which the daily tasks bring and lead to pleasant thoughts and conversation. The piazza will be screened with Acroulux Porch Screens, that insure privacy, even outdoors. The bed room will be fitted with a Period Suite that denotes elegance and the spring and mattress will be so comfortable that they will give healthy repose at the end of a perfect day. And all these furnishings and perfect satisfaction can be had at

GEORGE A. TAYLOR RESIDENCE  
By Thomas A. Johnson Co.

## BUILDING LOCOMOTIVES E. W. DOUGLAS OFFERS

Interesting Talk by a Pioneer  
of the Locomotive Industry in Lowell

Edwin R. Clark, a pioneer of the locomotive industry in this city, addressed the members of the Lowell Historical society at the quarterly meeting of the organization, held last night in Memorial building on "Early Locomotive Building in Lowell." This industry at one time a big factor among New England enterprises, was described in an interesting and entertaining manner by the speaker, who did much to establish the Boston and Lowell railroad and the Lowell Machine shop.

President Alfred J. Sawyer presided. It was reported that several towns had donated valuable collections of records and historical data to the society. Members present expressed a hope that efforts to add to these treasures would be made by the town committee. Arthur G. P. had a charter member of the society was unanimously chosen to represent the society at a conference of delegates to discuss tabular and discussions of all World war heroes in the Auditorium. Edward S. Sherman was elected to membership by the executive committee.

The summary of Mr. Clark's talk is as follows:  
The first start in forming a railroad for general traffic in the United States was taken by the Baltimore & Ohio railroad in 1827, said the speaker. The road, however, was not open for business until three years later. The proprietors of the Manchester & Liverpool railroad appeared before the English parliament in 1825, facing much opposition to their plans for a road, but finally getting the necessary permission. The possibilities of the steam locomotive were appreciated early in the 19th century but as a commercial enterprise steam traction power was used only in the coal mines of England where it was meeting with indifferent success. It developed low speed and the maintenance costs were excessive.

George Stephenson, a man of humble birth revolutionized the industry with a machine possessing greater flexibility and power than any other locomotive shown in 1813. Stephenson's type of engine with four drive wheels and later has been followed by engine builders down through every stage of this industry. His type was adopted by the Locks and Canal company of Lowell. The value of the locomotive began to be appreciated and in 1820 the first Stephenson engine was imported into this country. Matthias Baldwin, one of the pioneer engine builders of America, made a minute study of this first imported John Bull, for detail in building his first engine. His plans were instrumental for the convenience of the heavy loads and the engine was too slow for the demands of increasing commerce. The locomotive industry which started simultaneously in England and America, apparently filled the need of commerce. Naturally a number of organizations came into existence to meet the demand for equipment.

Southern ship in South Boston turned out the first locomotive in New England. Shortly after this the Locks and Canal company of Lowell, in 1821 entered the field on account of the prostration of their canal operations. Due to the rapid strides of the railroad industry, the company adopted the Stephenson "Planet" type of engine and built a large number, mostly for New England railroads. Shares of the Locks and Canal company having been acquired by the Merrimack Manufacturing company in 1823, the affairs of both companies were merged, and operated together for two years. The canal company was an outgrowth of the combination in 1825.

Patrick J. Jackson, who visualized the advantages of the canal worked out the organization plans for the Boston and Lowell railroad. When the locomotives for the Lowell road were built, contracts were accepted for the building of engines for other New England roads. In 1844 the Lowell machine shop was incorporated, which purchased the machine equipment of the Locks and Canal company. The first engine built weighed about 7 tons had 11 inch by 10 inch cylinders, which developed about 30 horse power. The power was applied to the rear wheels. The engine had no cab, the crew being protected with a brass railing. Both steam locomotives were built in Lowell from 1828 to 1845. The Lowell road began absorbing the making of textile machinery and gradually abandoned the locomotive field.

## E. W. DOUGLAS OFFERS YEARS OF EXPERIENCE

The expert workmanship that marks the contracts carried by E. W. Douglas, contractor, may be seen in scores of Lowell homes, for he has erected many of them of the better sort. His local building contractor is better known, favorably known and when the contractors' association selected him to take a prominent part in the arrangements incidental to the Home Beautiful exposition, a man was picked who was fully able to carry out his assignment.

Business expansion, brought on and developed through successful accomplishment, has resulted in a large and effective organization with the Douglas company, which now is capable of handling any contracting job of whatever magnitude.

"Security to the home builder" is

the Douglas motto and this means only one thing—a personal responsibility on the part of the contractor to see to it that the home under construction has put into it everything that will tend to make it a comfortable place in which to live and enjoy the happiness which comes with family life.

If you are planning a new home, a business building or an industrial structure, E. W. Douglas will place his experience and resources at your disposal.

## MERCURY DROPS TO 34 AT SPRINGFIELD

SPRINGFIELD, May 10.—The mercury dropped to 34 here today but the prevalence of wind during the night prevented frost formation except in a few localities hereabouts. Farther north of the Connecticut valley much frost was reported. Railroad men coming from the north reported the coldest May morning in their experience. Snow fell in Bellevue Falls, Vt.

## Pola Negri "Getting Along Nicely"

LOS ANGELES, Cal., May 10.—Pola Negri, motion picture actress, who underwent a surgical operation last Saturday, "is getting along nicely" and soon will be fully recovered, it was said at her home today. Miss Negri has been suffering from a throat trouble and after a fall while at work at a motion picture studio, which forced her to stop work, the operation was found necessary.

## Plea For Amicable Trade Relations

OTTAWA, May 10.—A plea for amicable trade relations between Canada and the United States was made last night by the progressive leader, Robert Forke, at a complimentary dinner to the former progressive leader, Hon. T. A. Creer. "I am British," said Mr. Forke, "but I believe that for weal and woe, the prosperity of Canada is largely bound up with that of the people of the United States. We cannot go our own way and pay no attention to that people."

BEAUTIFUL DISPLAY OF  
BON MARCHE CO.

The Bon Marche Co. stands out so prominently in the minds of all Lowell

people that it is hardly necessary to say that it is possible to add here very much that already is not known about this splendid department store. Merchandise of universally high grade may always be found on the store counters, ready to be shown and sold by a corps of efficient clerks. The rare beauty of the window displays which now are a distinct feature in connection with this store are somewhat reflected in the appearance of the company's exhibit at the exposition. It is located at the north end of the city hall and is so constructed and put together that it attracts and holds the eye incessantly. Bell cases hang from an exotic background and four cast-iron lions guard the entrance. While the exhibit does not intend to show the vast and varied stock of the store, it is symbolic of the distinction which marks it and

Although the Bon Marche store long has been recognized as a store of the Lowell institution and a credit to the city, its expansion in recent years has placed it upon a cosmopolitan plane until today it stands side by side with many stores located in cities of a size considerably larger than ours. Additional floor space has been added, old construction and arrangements of merchandise have been done away with and in their stead have come most modern appliances, stables floors and new lighting displays. Therefore, it is not to be wondered at, therefore, that the attractive exhibit which bears the Bon Marche name at the exposition is one of the most prominent of the 55 booths occupied.

**HOUSE PAINTING MUST  
BE CAREFULLY DONE**

When the E. C. Pearson Co. Inc. recently purchased the business of Taylor & Co. in Appleton street a well established and reliable painting and decorating concern moved down town from its previous location in upper Westford street. With the rapid expansion of the Pearson business, however, it seemed only natural that this well known company should eventually move to a more central location.

The Pearson Co. Inc. employs more painters than any other similar firm in the city and is equipped for any type of job, large or small, and with none too long a time to finish. The company, headed by Earl C. Pearson himself, takes justifiable pride in prompt service and work well done. House painting, interior decorating and paper hanging are equally as popular in this company's business activities.

The Pearson Co. is primarily in a position to give intelligent consideration to home decoration. For years, for example, Mrs. Pearson has been a member of the Interior Society. As a result, she has a keen appreciation of the art of home decoration and is able to give advice in the most practical manner.

**HILL CO. LIVE WIRE IN  
ELECTRICAL FIELD**

Perhaps no other firm in Lowell has enjoyed a more successful career than that of Hill Co. Inc. The firm, located at 1111 Broadway street, has a long and distinguished record in the electrical field. It has introduced into the city a complete line of electrical apparatus, without which no home or business is really complete. The firm's reputation for prompt service and work well done is well known to all who have had occasion to call on them.

The Hill Co. Inc. is now exhibiting at the exposition a complete line of electrical apparatus, including the latest in the advancement of electrical wiring, from the standard and heavy duty and efficient and Mr. Hill will be only too glad to give you an idea of cost if home wiring is being contemplated. The success of the firm has been gained by the satisfaction of the work of the firm, which is a satisfied customer. The firm is in connection with the electrical advancement.

### Painting and Decorating

Painting and Decorating cannot be postponed without the resulting deterioration costing you more than the paint. I arrive wood of its paint protection and it soon becomes worthless. Well painted lumber never rots or grows old, decay starts at the surface. "Save the Surface and you Save All."

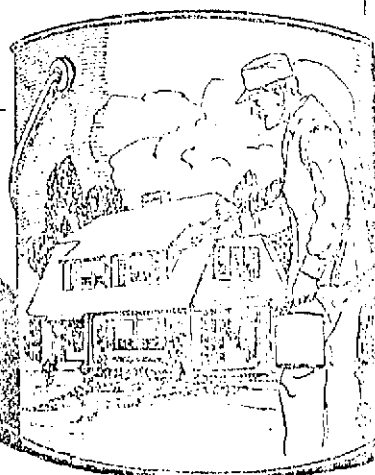

Give us an opportunity to do your painting and decorating on the basis of honest work with the best materials at the lowest cost to you.

There will be no clipping or using substitutes. You will want a pure lead and oil job, of course, and we will use nothing but the best and purest things.

While the chief object in painting is protection, a good deal of thought should be given to the color. The color you choose will make a difference in the appearance of your work. We will use the best color and we will use the best paint.

Some painters will tell you that to paint is a hard job. In some cases it is. If you give the work to us we will do it in a workmanlike manner and to your satisfaction. We like to have our customers say to their friends, "We have seen they were here."

Now how to get a satisfactory result. Let us give you a list of the names of your friends who have been painted and decorated by us. We are E. C. Pearson Co. Inc. Painting Contractors. Formerly Dwyer & Co. 170 APPLETON STREET

## JUST TOUCH A BUTTON IF YOU WANT SERVICE

Electrically speaking is there anything more in the way of time saving devices which could be invented for the home? It doesn't seem that there is. One almost lives by merely pressing a button. "Let electricity be your servant" is the slogan today.

How long ago and like the Dark Ages seem the days when electric appliances were never even thought of!

We cannot help wondering how people existed at all.

Almost superhuman seem some of the electric things of nowadays. Electric boilerettes stand like sentinels of magicians right at hand to give us boiling water at any moment we may wish; electric washing machines solve a big part of the never-ending question of servants; electric fans make the atmosphere a livable one; at the touch of a button one may have a fire blazing in the grate or a lighted stove in any corner of the home where needed most. Many breakfasts and even more elaborate meals are today electric ones; toasters brown the bread

to a perfect degree; waffle-irons turn out waffles crispier and more delicious than even the southern cooks could produce; coffee percolators brew a breakfast drink to suit the most fastidious connoisseur; chops are broiled to a turn and omelettes bake many delightful dishes—all by the mere touching of a button.

For the sick and convalescent there are many electrical appliances to increase their comfort, and one may even curl one's hair and become otherwise beautiful by the use of various electrical wizards.

House-cleaning time becomes almost a joke where the vacuum cleaners are

brought into play; even the radiators hitherto there in summer time and the family automobiles are made to renew their beauty by means of the electric touch.

Each room of the home has some special electric device suited to its needs. The big drawing room, with its handsome period furniture, has lamps and candlesticks to accord with the furniture's style; the cozy living room may be equipped with many handy side-lights for reading and for every spot where they will be most useful; many electrical devices make the nursery a more comfortable place for the children, and even the porch may be so electrically well equipped that many delightful meals may be

attractively served there in summer time. A regular little army of electric servants waits one's bidding, and though the means of electricity are many, even the clock—though not yet on the list—

with the subject of interior decoration the largest in the city. It often has been said, and truly that wall papers now is the Lowell Wall Paper Co., but keeping with the finish and intelligent manager before Mrs. Dorothy Morse, selected in reference to prevailing fashion. The paper on the walls of the beautiful bungalow at the exposition is Chase-laid, by experienced painters who pride themselves in artistic work thoroughly done.

The Lowell Wall Paper Co. has gone beyond the usual scope of wall paper concerns and now is particularly interested in the furnishing of home interiors, both by attractive papers and schemes freely are sought, and as

laughing and its work for selection is carefully kept.

# Cupidless College Rouses Co-Eds Who Protest No Marriage Rule at Syracuse

HELEN CROCKETT FRANCES PROCTOR MARGARET DAVIS VIRGINIA WALKER WINONA ENGLISH

BY N. E. A. Services

Syracuse, N. Y., May 1.—Cupid has been out on a rampage here, with him going all Syracuse for university undergraduates who marry.

It is the desire of Chancellor Chas. W. Flint, "however," he says, "that automatically cancel a student's enrollment and all of his or her connections with the university."

The order is received with a shrug of the shoulder and a knowing smile by the students who ask:

"Why follow a professor's advice on love?"

"Well, do as our hearts—not our chancellor—dictates."

Few take the order seriously, although the chancellor says the new regulation will be rigidly enforced, and that no exceptions will be made to the rule.

"Matrimony," says Miss Winona English of Rochester, N. Y., a senior at the university and one of the most popular students on the campus, "is a pretty big thing to regulate by mandate."

"An order prohibiting students from marrying while they are in college will only work to increase the number of secret marriages. Regulation will force decisions on the part of those who wish to marry, and will not bring about the desired results of decreasing marriages and improving scholarship."

Most of the other students hold similar views.

"It's an infringement upon the personal liberties of a person," says Miss Margaret "Therapy" Davis of Scranton, Pa., a junior student prominent in dramatics. "To dictate when he or she

shall become married either in college or not, I know that I shall not get married during the next year, but yet I don't feel that I must remain unmarried because of a college official's orders."

Allen Frances Proctor of North Port, Long Island, a sophomore interested in various university journalistic activities, is just as emphatic.

"Love," she says, "cannot be controlled by rules and regulations. High school boys are just bound to get married when the time comes, order or no order."

"They will have to write in their own minds whether they care about getting married more than they do about attending Syracuse university, and—love usually wins."

When Miss Virginia Walker of Canastota, N. Y., a student in the Fine Arts department, was asked for her views she exclaimed:

"I feel just as though I were going to be expelled from college."

She refused to admit whether she was married, engaged, or about to be.

"Students," she said, "are going to marry if they want to. They just can't help it."

"Matrimony is bigger than regulation. Perhaps Chancellor Flint is right in trying to protect lasty marriages but I don't believe he can control such things without order."

Helen Crockett of Onondaga, N. Y., a junior in the College of Home Economics and one of the editors of The Daily Orange, student newspaper, is of the same mind.

"College students," she says, "are just as human as other groups in society. When they want to get married, they are going to get married. It is no business of the college to interfere when they are old enough to consider a

## OLDEST HARDWARE FIRM IN CITY OF LOWELL

How many married men and women in Lowell today cannot look back over a span of years and happily associate the name of Bartlett & Dow Co. with carefree days of childhood? It was from the wondrously-filled shelves of that store in Central street that many of our toys came and as long as the firm endures memory will be kept green.

It is not in connection with toys, however, that the company is given recognition today, for the basis of its business always has been hardware, and it is the oldest established house in Lowell carrying a complete line of standard products, ranging from light to heavy mill hardware.

The Bartlett & Dow Co. occupies an entire building in Central street, about opposite Jackson street and on its four floors may be found a full assortment of everything with which to construct a home and to complete it after its erection. Accepted leading lines of tools are in stock and at the company's booth at the exposition one may get a clear idea of the high grade merchandise featured by this firm.

Without proper tools no workman can do his tasks well and it is for the purpose of encouraging high grade accomplishment that the Bartlett & Dow Co. carries only the best in all lines.

## PICTURES FROM MAKER'S MUCH SOUGHT AFTER

The best in pictures and works of art, proper embellishments for any home, may be found portrayed in the exposition booth of the Maker's Picture Shop, a well known local firm of many years of business success as a foundation to its present success. Not only does this store carry a particularly fine grade of reproductions of the best masters, but it always has specialized in picture framing and for this purpose conducts a splendidly equipped workshop in connection with its Midway street store.

For many years the Maker business was located in Shattuck street, but bank expansion made a change necessary and the result was a new location in a busy row of stores just round the corner from Palmer street.

Another accomplishment of this store is its wide experience in the framing of diplomas and annually it is called upon to do the major portion of it in the city.

Why go to a Home Beautiful exposition in Boston when one is right at hand, containing every possible feature of the show in the larger city?

**BUNGALOW IN FOREGROUND**

The view of the main auditorium as one steps in from the circular corridor is most attractive, with the bungalow on the stage as the outstanding feature. It is doubtful if any event in the city's history ever had an attraction as unique as this completely furnished and truthfully constructed home. It is a tribute to the energy of Lowell contractors and their workmen.

**TROPHY HALL A GEM**

Trophy hall makes a beautiful background for the exposition exhibits housed there. Particularly attractive is the showing of the Ben Marche Co., occupying the entire north end of the hall. Silk drape and hangings have been used here with telling effect.

One may pass through Liberty hall and well believe he is within a sumptuously furnished suite of rooms. Several furniture dealers have pooled their resources here to transform this hall into a most attractive floor plan.

### The Right Place To Buy Hardware

Summer, no doubt, finds you—Mr. Home Owner—in need of many little odds and ends in the line of Hardware. Handles for the screens, hinges, screws or perhaps a new hammer, a chisel or a screw-driver.

Then this is the right store to come to. No matter what your needs are, we can supply you.

### Attractive Five-Room Home

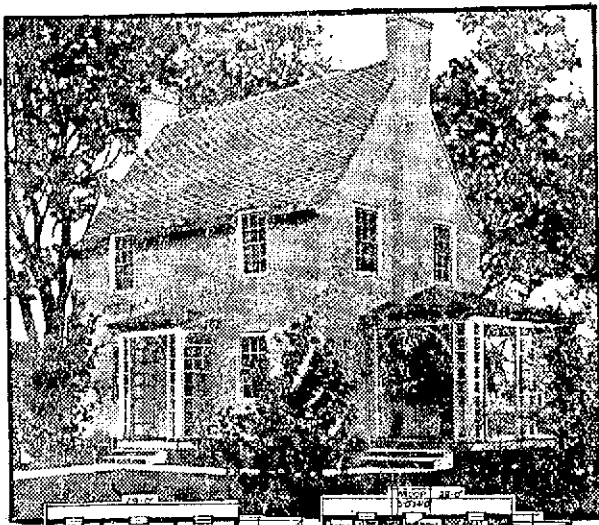

PHOTO AND PLANS, FURNISHED BY THE CURTIS SERVICE BUREAU, CLINTON, IA., FOR A FIVE-ROOM HOME.

This house is estimated by the Curtis Service Bureau, Clinton, Ia., to cost about \$815. This includes heating, wiring and plumbing. Although the sum may vary slightly in different parts of the country.

Three bedrooms in a five-room house is an unusual feature of this attractive home. This greater housing capacity is possible because a dining alcove is substituted for the regular dining room. In other ways, also, this plan demonstrates the best kind of economy. Or-

inary materials are used in stock elevators. Even the woodwork is in stock design that harmonize with the development of the whole building. Stucco is generally considered an economical material for construction and requires almost no upkeep. Notice the plain outlines of the house and the roof.

These considerations make for weather-tightness and economy.

#### Paneled Vestibule

A vestibule and boxed stair increase the winter comfort and the year-round privacy of the house. The long living room occupies the right side of the house adjoining the porch. An outstanding feature of this room is its paneled treatment of stained oak. This is a wall treatment that is not exorbitantly expensive and never needs replacement.

The living room cannot help being homelike, even when vacant, for it also has a room-end of bookcases and window seat, and a honey fireplace, opposite which is an interesting alcove on the inside wall.

#### Light Kitchen

There is a large, light kitchen, with windows on two sides to keep it cool and free from odors and steam, and there is plenty of space for sink, range, dresser and work-table. Only a cased opening separates it from the dining alcove, where five people may be seated.

Upstairs, the three-corner bed-rooms are supplied with clothes closets, and one also has a built-in rug case, replacing a chair in that room.

#### MINIATURE COAL POCKET

The miniature coal pocket installed in the alcove of the Horne Coal Co. is a novel feature. Herb Horne has just returned from the coal mining regions and knows all about the depths from which the black diamonds come.

#### MUSIC IN THE AIR

Music from Steinert's and The Song Show filled the air with harmony yesterday afternoon and evening and made a happy adjunct to the exposition. Many persons stopped to listen and enjoyed this feature thoroughly.

### THOMPSON HARDWARE MEETS EVERY TEST

Samuel H. Thompson, head of the Thompson Hardware Co., is one of Lowell's best known and influential citizens. For years he has been vitally interested in the city's prosperity and advancement and in many ways has assisted it along the highway of successful achievement and favorable reputation.

This personality Mr. Thompson infuses in his business and his own unfailing integrity certainly is reflected in the high measure of esteem and confidence in which his concern is held by the general buying public.

As everyone knows, the Thompson Hardware Co., like the Bartlett & Dom concern, is a firmly established Lowell business house, dealing in light and heavy hardware, retail and wholesale. Located in Merrimack street the store attracts thousands of persons interested in the construction of homes and a well varied and complete stock of goods is on hand for selection. Hardware, paints and oils, farming implements, furnishings for fire places and in fact, everything an up-to-date store of its kind ought to have on its floors and shelves may be found there.

The Thompson Co. has enjoyed a great measure of success in its sales of farming tools and implements and Mr. Thompson will make every effort to get any piece of agricultural machinery that does not happen to be in stock at a particular time.

The Thompson Co. display at the exposition holds something of interest to every visitor.

### DECORATIONS OF QUALITY FOR ALL OCCASIONS

Whether it relates to exterior or interior decoration, Charles F. Young will have a helpful suggestion to offer and is ready at all times to put such suggestions into actual operation if you wish him to. No one will gainsay that Mr. Young is Lowell's leading decorator. His handwork has been in demand so many, many times that many people now take it for granted that decorations for most any occasion can be had out of his work shop.

It was only natural then that Charles F. Young should be called upon to do the decorations at the Home Beautiful exposition, which he has done with exceeding good taste and effect. He has the happy faculty of suggesting a plan necessary to the execution of an attractive display and invariably keeps his decorative scheme perfectly in harmony with an event.

On many occasions Mr. Young and his men have transformed the old stores into exotic lanes of richness and color and his interior decorative efforts have transformed the same into a new world of light and propriety. Although Mr. Young has no booth at the exposition, his work will be before the public for general inspection.

Displays of bathroom fixtures, in the main floor were especially attractive. These have been installed in a room after a great deal of preparation on the part of the exhibitors and the crowd appreciated it.

## Duplex Five-Room Home

CURTIS SERVICE BUREAU, CLINTON, IA., HAS DESIGNED THIS DUPLEX HOME. PLANS BELOW SHOW FIRST FLOOR LAYOUT. RIGHT: SECOND FLOOR LEFT.

This duplex house will appeal to many homebuilders because it has the appearance of a large single residence. A moderate amount of ground space is needed and yet two comfortable, well-lit, five-room apartments are provided for.

The exterior is in brick and tile for the first story, with half-timbers and stucco above. Clipped gables are an interesting feature. The steep shingle roof makes possible a splendid attic, which is easily accessible to both apartments and which may be finished off into extra rooms.

The arrangement of the stairs is a noteworthy feature. Besides the separate front stair leading to the second floor home, there is a hall at the rear which provides access with privacy for the occupants of both floors, from basement to attic. Notice, too, the privacy of the two living porches on the first floor.

#### Little Difference

The plans are practically identical for each suite. The first floor has a coat closet off the entry and a closet near the bathroom, both of which are impractical on the second floor. The second floor living room has the dormer rather than casements to afford light from the second side. Casements are used through the building and are an essential factor in the excellent appearance of the building.

The sizes of the rooms are excellent. A fireplace in each living room is a feature that appeals to everyone, more especially since it is usually considered

dispensable in a duplex or two-family house. French doors are attractive between living room and dining room.

Housewife hearts can well rejoice at the compact square kitchen, with its abundance of built-in conveniences. Across one side of it are two kitchen dressers, with sink and drainboard between, under the casements. There are built-in shelves in the separate entry.

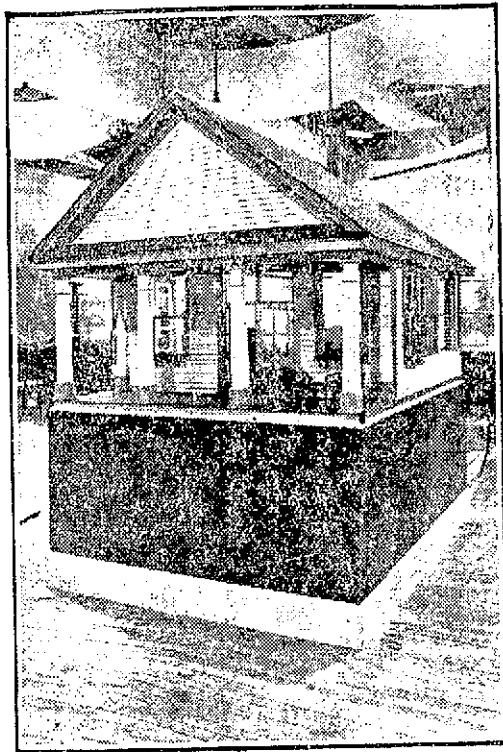

#### FURNITURE SHOULD ALWAYS BALANCE

The arrangement of your furniture depends upon conditions of room size, wall spaces, built-in features, your particular use for the piece and its intended position. For instance, cabinets, bookcases, large consoles, and commodes are wall pieces and so corner arrangement is wrong. Similarly, davenport, tables, desks must be against a right proportioned wall space or at right angles to it. These pieces, limited in placing, one should arrange first. Chairs one may generally arrange informally, though related to a group, but there are some wall chairs which must be placed against the wall.

One should group furniture for conversation, reading, writing, depending upon one's habits. Light must come over the left shoulder for reading or writing, from the side or sides for dressing, and not in the eyes when sleeping. Something high must balance with something high.

**You Can Do It Better With Gas**

## A Most Interesting Gas Exhibit

We feel that the Home Beautiful Show is a real progressive step in the life of our fair city—made possible by foresight and hard work on the part of the Lowell Contractors' Association with the magnificent Auditorium as the centre of activity.

This company, as one of the integral parts in the construction of the Home Beautiful, is most pleased to lend its support to an exhibition that will do so much for the advancement of the home life of the City.

As the feature of the Gas Exhibit, which will occupy Rooms No. 54 and 55, there will be shown the remarkable

### Model Bungalow

with its Miniature Gas Appliances that created so much attention at the Home Beautiful Show in Boston the last two weeks.

There will also be a demonstration of the proper methods of using and adjusting gas burners; the correct way to read meters, and a display of the latest types of Gas Appliances.

In passing from the full-sized fully equipped Bungalow on the stage to the Exhibit of Furniture in Liberty Hall, you will of necessity pass through the rooms occupied by the Gas Exhibit.

Salespeople will be there to give expert advice on your Gas Appliances.

## Protect Forests To Save Future Business

Is Plea of Charles Lathrop Pack

A forest fire leaves a trail of waste. Look what otherwise might have been used to build some substantial houses. Inset is photo of Charles Lathrop Pack, president of the American Tree Association, one of the foremost leaders in the work of forest conservation.

(By N.E.A. Service)  
WASHINGTON, May 10—This, Forest Protection Week, is in reality Future Business Insurance Week, says Charles Lathrop Pack, president of the American Tree Association, who points out the tremendous importance to the business life of the country of having a steady flow of forest products going to our manufacturing centers.  
"And that flow of forest products must originate closer to the centers of manufacturing," adds Pack in a statement for the Sun on the importance of Forest Protection Week.  
"Forest Protection Week," as proclaimed by President Harding, serves to turn the attention of the people to one of the greatest economic problems now facing our country," says Pack. "The week might well be called Future Business Insurance Week for our entire economic life depends upon forest products."

"We Have the Land"  
"We must have forest products close to the point of consumption and I might say, for the factory door. That situation is not impossible for there are eighty-one million acres of idle land in this country fit for little else than growing trees. Much of that land is east of the Mississippi river where the bulk of our manufacturing plants are established. That idle land must be put to work growing trees.  
"The center of the lumber industry is fast approaching the Pacific coast. That means long hauls and high freight rates for forest products to keep our factories going. When I say factories I mean everything from automobiles to the making of egg crates.  
"New York, New England, Pennsylvania, Michigan, once exporters of lumber and having enough for their own uses besides, are now importing forest products from distant points. We are using or destroy by fire every year fifty-six billion board feet of timber. The annual growth is at a rate of less than one-fourth this consumption and destruction. No private business can continue on that basis and neither can the business of the country as a whole.  
Educating the People  
"The people are turning to tree planting as never before because of the educational campaigns of the American Tree Association. We are educating the people to the value of tree as a method of preparing the groundwork for bigger things.  
"When the senatorial forestry committee now holding hearings in Washington makes its report we will have millions of people more keenly interested in the subject of trees than ever before. They will be able to better understand the discussion that will follow the committee's report. When the people come to a better understanding of these things we will hear a nation-wide demand for increased forest protection and reforestation and not before."

## RARE JEWELRY DISPLAY AT HAMBLETT SHOPPE

Harriett W. Hamblett, for many years associated with the jewelry business, has a most attractive and charming shoppe in the Wynnan Exchange building, where she displays with rare good taste a wonderful collection of fine jewelry, diamonds and watches, also an extensive line of table silver both in sterling and high grade plate.  
Welcome is the greeting to every gift seeker who enters her shoppe whether or not a purchase is made or even intended. The size and variety of her stock cannot fail to give valuable suggestions for many gift problems.  
Miss Hamblett is an expert judge of diamonds and always gives to her customer the benefit of her advice and broad experience in this particular branch of her business.  
During the Fashion Show at the House Beautiful tonight Miss Hamblett will loan the jewelry worn and displayed by the Cherry and Vichy models. Miss Harriett Ellmore who has direct charge of the fashion

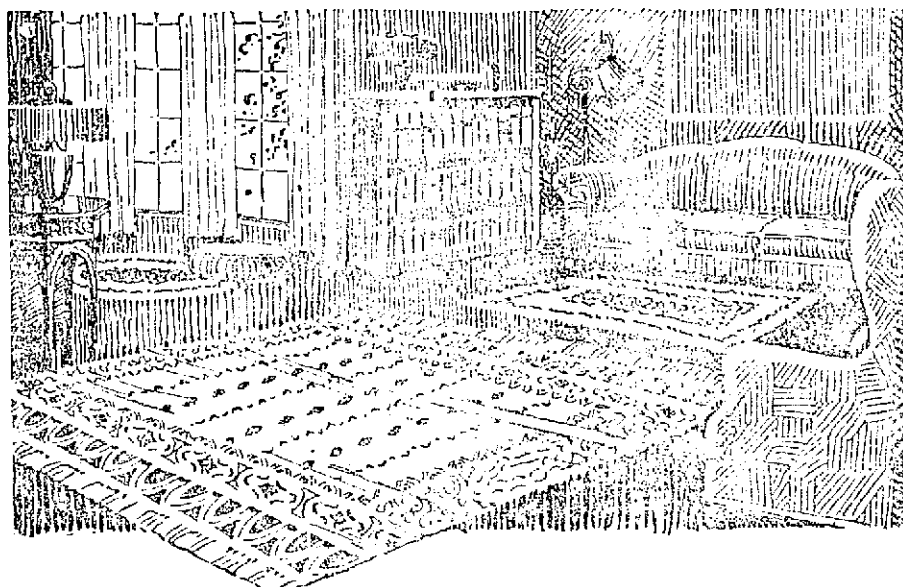

## O'HEIR'S FURNITURE HAS DISTINCTIVE MARK

The O'Heir Furniture Co. in Hurd street claims its well stocked, well lighted and admirably laid out store constitutes a "Home Beautiful" day in and day out and while it has no exhibit at the show, it nevertheless is vitally interested in proper furnishings for Lowell homes.  
The O'Heir Co. takes justifiable pride in its scale of prices and gives this feature of its business wide circulation through advertising channels. Many of its customers have been such for years and satisfaction given them reflects in the new business which continuously comes knocking at the door. Furniture for every room may be found in this store and a courteous sales force is ever ready to show stock at the shopper's convenience.  
If a building boom gets under way in Lowell this summer, local contractors truthfully may say, "It pays to advertise."  
show, will wear a very wonderful diamond and platinum necklace and bracelet valued at \$2000.
